**Infrastructures of Race** Daniel Nemser,2017-05-23 With case studies that link practices of concentration to the emergence of new racial categories this groundbreaking book convincingly argues that race was a product of rather than a starting point for the spatial politics of

colonial rule in Latin America      **Reproduction and Its Discontents in Mexico** Nora E. Jaffary, 2016-10-13 In this history of childbirth and contraception in Mexico Nora E Jaffary chronicles colonial and nineteenth century beliefs and practices surrounding conception pregnancy and its prevention and birth Tracking Mexico's transition from colony to nation Jaffary demonstrates the central role of reproduction in ideas about female sexuality and virtue the development of modern Mexico and the growth of modern medicine in the Latin American context The story encompasses networks of people in all parts of society from state and medical authorities to mothers and midwives husbands and lovers employers and neighbors Jaffary focuses on key topics including virginity conception contraception and abortion infanticide monstrous births and obstetrical medicine Her approach yields surprising insights into the emergence of modernity in Mexico Over the course of the nineteenth century for example expectations of idealized womanhood and female sexual virtue gained rather than lost importance In addition rather than being obliterated by European medical practice features of pre Columbian obstetrical knowledge especially of abortifacients circulated among the Mexican public throughout the period under study Jaffary details how across time localized contexts shaped the changing history of reproduction contraception and maternity      *Liberalism as Utopia* Timo H. Schaefer, 2017-08-07 Liberalism as Utopia challenges widespread perceptions about the weakness of Mexico's nineteenth century state Schaefer argues that after the War of Independence non elite Mexicans peasants day laborers artisans local merchants pioneered an egalitarian form of legal rule by serving in the town governments and civic militias that became the local faces of the state's coercive authority These institutions were effective because they embodied patriarchal norms of labor and care for the family that were premised on the legal equality of male adult citizens The book also examines the emergence of new illiberal norms that challenged and at the end of the century during the dictatorship of Porfirio Díaz overwhelmed the egalitarianism of the early republican period By comparing the legal cultures of agricultural estates mestizo towns and indigenous towns Liberalism as Utopia also proposes a new way of understanding the social foundations of liberal and authoritarian pathways to state formation in the nineteenth century world      **Church and State Education in Revolutionary Mexico City** Patience A. Schell, 2023-01-31 Revolution in Mexico sought to subordinate church to state and push the church out of public life Nevertheless state and church shared a concern for the nation's social problems Until the breakdown of church state cooperation in 1926 they ignored the political chasm separating them to address those problems through education in order to instill in citizens a new sense of patriotism a strong work ethic and adherence to traditional gender roles This book examines primary vocational private and parochial education in Mexico City from 1917 to 1926 and shows how it was affected by the relations between the revolutionary state and the Roman Catholic Church One of the first books to look at revolutionary programs in the capital immediately after the Revolution it shows how government social reform and Catholic social action overlapped and identifies clear points of convergence while also offering vivid descriptions of everyday life in revolutionary Mexico City Comparing curricula and practice in Catholic and public

schools Patience Schell describes scandals and successes in classrooms throughout Mexico City Her re creation of day to day schooling shows how teachers inspectors volunteers and priests even while facing material shortages struggled to educate Mexico City s residents out of a conviction that they were transforming society She also reviews broader federal and Catholic social action programs such as films unionization projects and libraries that sought to instill a new morality in the working class Finally she situates education among larger issues that eventually divided church and state and examines the impact of the restrictions placed on Catholic education in 1926 Schell sheds new light on the common cause between revolutionary state education and Catholic tradition and provides new insight into the wider issue of the relationship between the revolutionary state and civil society As the presidency of Vicente Fox revives questions of church involvement in Mexican public life her study provides a solid foundation for understanding the tenor and tenure of that age old relationship

**Female Prostitution in Costa Rica** Anne Hayes, 2013-09-13 This book analyzes the development of female prostitution in the Pacific port of Puntarenas Costa Rica during the advanced stage of the coffee exporting economy 1880 1930 at the height of the consolidation of the liberal state Hayes argues that prostitution in the port differed from that of the coffee producing highlands due to differential economic social and political development In the periphery of Puntarenas the development of prostitution reflected a less stigmatized view of sexual commerce than that of the highlands where prostitution although legal threatened the tenets of liberal nationalism based on racial homogeneity and family values Women of the highlands were encouraged to reproduce the nation s more European stock of workers and to ensure the legal transference of property through legal church marriages both part of a design to stabilize the coffee exporting project By contrast prostitutes and other working women of Puntarenas many immigrants from the less European populations of neighboring regions and most in concubinage were freer to do what the law prescribed register as prostitutes in legitimate trade Such regional disparities reveal weaknesses in traditional explanations of Costa Rican exceptionalism which have rested on the premise of cultural homogeneity and have reflected the realities of only one region of the country The book advances an alternative explanation for the development of the nation s more democratic institutions situating Costa Rican exceptionalism in the nation s free labor system of which the labor prostitute in Puntarenas provides an example

*Reinventing Punishment* Michele Pifferi, 2016 Providing a historical analysis of the impact of criminology on the rationale of punishment and the sentencing systems in Europe and the US between the 1870s and the 1930s *Reinventing Punishment A Comparative History of Criminology and Penology in the 19th and 20th Century* investigates and contrasts the rise of the principles of individualisation of punishment social defence preventive justice and indeterminate sentencing The manner in which American and European jurisprudence enforced these ideas resulted in the emergence of two different penological identities the American penal reform movement led to the adoption of the indeterminate sentence system whereas the European criminological approach resulted in the formulation of the dual track system with punishment and measures of

security This theoretical divide discussed at many international congresses and in studies of comparative criminal law not only reflects two different ideas on the legitimacy and purpose of punishment but also corresponds to two different constitutional views of criminal law The book considers the relation between constitutional frameworks rule of law and Rechtsstaat and penological claims explaining how some of the tenets of penal liberalism such as principle of legality and separation of powers were affected by penal modernism even with the rise of authoritarian regimes It examines the dilemmas provoked by criminology focusing on the role of the judge in the execution of sentences the distribution of sentencing powers among judicial and administrative bodies the balance between social security and individual guarantees and the inconsistencies of preventive detention Filling a notable gap in Anglo American literature by providing a sophisticated panoramic analysis of the development of criminology in late nineteenth and first half of the twentieth century Europe Reinventing Punishment will be of interest to scholars of criminology criminal law and criminal justice studies as well as legal historians and theorists

Modernity in the Flesh Kristin Ruggiero, 2004 This book examines the lives of people caught in the dynamics of changing mores rapid urbanization and real public health issues in nineteenth century Buenos Aires Modernity in the Flesh shows the costs Argentines paid for the establishment of liberal democracy between 1880 and 1910 Modernity raised consciousness of the public good and a commitment to new sciences and a new set of priorities that asserted the precedence of health and security of the social whole This book shows the ways that the tensions of liberal democracy between individual rights and the social good were tempered by flesh and articulated through this word As the state was pursuing positivist science and government the flesh held out a type of corrective to the focus on scientific and material progress

**Criminal and Citizen in Modern Mexico** Robert Buffington,2000-01-01 Criminal and Citizen in Modern Mexico explores elite notions of crime and criminality from the late eighteenth to the early twentieth century In Mexico these notions represented contested areas of the social terrain places where generalized ideas about criminality transcended the individual criminal act to intersect with larger issues of class race gender and sexuality It was at this intersection that modern Mexican society bared its soul Attitudes toward race amalgamation and indios lower class lifestyles and l peros women and sexual deviance all influenced perceptions of criminality and ultimately determined the fundamental issue of citizenship who belonged and who did not The liberal discourse of toleration and human rights the positivist discourse of order and progress the revolutionary discourse of social justice and integration sought in turn to disguise the exclusions of modern Mexican society behind a veil of criminality to proscribe as criminal those activities that criminologists penologists and anthropologists clearly linked to marginalized social groups This book attempts to lift that veil and to gaze like Jos Guadalupe Posada at the grinning calavera that it shields
