Restorative Readings L. Juliana Claassens, Bruce C. Birch, 2015-05-15 The Bible has the unfortunate legacy of being associated with gross human rights violations as evident in the scriptural justification of apartheid in South Africa as well as slavery in the American South What is more the Hebrew Bible also contains numerous instances in which the worth or dignity of the female characters are threatened violated or potentially violated creating a situation of dehumanization in which women are viewed as less than fully human And yet the Bible continues to serve as a source of inspiration for readers committed to justice and liberation for all But in order for the Bible to speak a liberative word what is necessary is to cultivate liberating Bible reading practices rooted in justice and compassion Restorative Readings seeks to do exactly this when the authors in their respective readings seek to cultivate Bible reading practices that are committed to restoring the dignity of those whose dignity has been violated by means of racial gender and sexual discrimination by the atrocities of apartheid by the HIV AIDS pandemic and by the dehumanizing reality of unemployment and poverty Engaging Religions and Worldviews in Africa Yusufu Turaki, 2020-04-30 In a world of increasing globalization we live amidst a clash of cultures religions and worldviews each battling for the human heart and mind In this in depth study Yusufu Turaki offers a theological framework for engaging this clash of perspectives in Africa where traditional African religions colonialism and exposure to Christianity have each had a lasting impact on contemporary African worldviews Professor Turaki undertakes a systematic analysis of the nature of African Traditional Religion its complex history with Christianity and the need for African Christian theology to address its cultural and historical roots effectively He provides both a conceptual framework and practical guide for engaging African cultures and religions with compassion understanding and a firm foundation rooted in scriptural truth This book is an excellent resource for students of religion and theology as well as those interested in Africa's traditional heritage or drawn to the important work of cross cultural and inter religious dialogue *Reconstructing Pastoral Theology* Andrew Purves, 2004-09-20 In Pastoral Care in the Classical Tradition Andrew Purves argued that pastoral care and theology has long ignored Scripture and Christian doctrine and pastoral practice has become secularized in both method and goal the

fiefdom of psychology and the social sciences He builds further on this idea here presenting a christological basis for ministry and pastoral theology *Giving Account of Faith and Hope in Africa* John Samuel Pobe, 2017-07-10 What is African theology What are its distinctive traits and characteristics modes of investigation and style of expression Can African theology reach wider and run deeper than simple propositional articulation What concerns and special circumstances have shaped its outlook What unique burdens or hurdles imposed by the past must African theology surmount What challenges and opportunities lie before it What are African theology's prospects As a field of Christian engagement is it condemned to be only an appendage to theology imported from the West and the North Or does it have a distinctive contribution to make and gifts to share not just within the continent of Africa but also with the Christian world at large These questions exercise the mind and soul of the African church A worthy capstone to a lifetime of service as a theologian educator and ecumenical leader this volume offers John Samuel Pobe's considered and mature reflections on issues he raised nearly forty years ago when he published *Toward an African Theology* *Reconstructing Old Testament Theology* Leo G. Perdue, In this informative and keen look at contemporary trends in Old Testament theology Perdue builds on his earlier volume *The Collapse of History* 1994 He investigates how a variety of perspectives and methodologies have impacted how the Old Testament is read in the twenty first century including literary criticism rhetorical criticism feminist womanist and mujerista theologies liberation theology Jewish theology postmodernism and postcolonialism Perdue provides a sensitive reading of the aims of these approaches as well as providing critique and setting them in their various cultural contexts In his conclusion the author provides a look at the future and how these various voices and approaches will continue to impact how we carry out Old Testament theology *Bible Interpretation and the African Culture* David J. Ndegwah, 2020-01-15 This book can be summarized in one sentence that culture plays a determinant role in the way people perceive interpret and therefore respond to reality around them ideas events people and literature including sacred literature Thus when people encounter new reality they perceive and conceptualize it in accordance with their worldview which is shaped by their culture that is modeled to suit various geographical locations In order to understand why people around the world behave and act as they do they choose certain words in what they say and do certain things rather than others it is important to understand and appreciate this fact Failure to do so would make it very difficult to engage in any dealings with them secular or religious like doing business or evangelization This is what happened to the Pkot people whose worldview is predominantly communitarian and yet they were introduced to hermeneutics that are predominantly individualistic which is at loggerheads with their communal aspirations The manifestation of this reality is the interpretation of the Good Shepherd parable in the Gospel of John which the Pkot have understood and contextualized in line with their worldview against the intentions goals and disposition of their evangelizers **Catalog of Copyright Entries. Rediscovering Jesus in Our Places Elia Shabani Mligo, 2020-05-28 The question of contextual theology and its

relevance to Africa in this time of globalization whereby there are rampant uncontrolled changes in cultures technologies economic policies and even people s religious lives is very urgent How is contextual theology relevant in the ever changing contexts of the church in Africa Indeed there are a number of challenges which contextual theology faces within the church in Africa which need to be addressed contextually Some such challenges include poverty rampant violence homosexuality alcoholism the resurgence of prosperity gospel materialistic prophets and incurable illnesses like Ebola HIV and AIDS and the current coronavirus COVID 19 However which context in Africa Context in Africa as in other parts of the world is always in flux it is complex and fluid There is no permanent context The experience of Jesus in such a changing context needs to be rediscovered depending on what transpires in each particular place at a particular time This book addresses some of the overarching challenges that face contextual theology and how such challenges should be addressed by the church in Africa in contemporary ever changing context for it to be relevant in Africa It also highlights the need to move from liberation and inculturation theologies to reconstruction theology in dealing with the challenges of the current church Hence the book is important to students and scholars engaging in practical systematic biblical and contextual theologies in all their branches

From Historical to Critical Post-Colonial Theology Robert S. Heaney, 2015-11-06 What is post colonial theology How does it relate to theology that emerged in historically colonial situations These are two questions that get to the heart of Robert S Heaney s work as he considers the extent to which theologians predating the emergence of post colonial theology might be considered as precursory to this theological movement Heaney argues that the work of innovative theologians John S Mbiti and Jesse N K Mugambi important in their own right must now also be considered in relation to the continued emergence of post colonial theology When this is done fresh perspectives on both the nature of post colonial theology and contextual theology emerge Through a sympathetic and critical reading of Mbiti and Mugambi Heaney offers a series of constructive moves that counter the ongoing temptation toward acontextualism that continues to haunt theology both in the North and in the South

Reconstructing Christianity in China Philip L. Wickeri, 2015-03-04 Journal of Theology for Southern Africa , 2003 **Reconstructing Theological Ethics** P. A. McGavin, 2024-02-19 Theological Ethics in the book title is intended to mark a departure from the manner of Catholic practice named Moral Theology This departure has two strands because the practice that the Second Vatican Council critically addressed was a manualist tradition while much of the practice following the Council has been represented as relativist This book is not manualist in that the focus is upon method rather than on codified specification of behaviours The work is not relativist in that the focus on method is firstly scriptural approaching scripture in a holistic or canonical manner and further is lawful in an approach of law that focuses less on precept and more on understandings of natural law that brings together phenomenological evidences and scriptural evidences The scriptural and natural law perspective present in the book also engages cross disciplinary and inter disciplinary learnings These streams of scripture natural law and inter cross disciplinary learnings have a confluence in

discourse in the manner of dialogue a manner that is dialogical An essential aspect of dialogue under the banner of Reconstructing Theological Ethics is that it should engage contemporary culture not in a sense that contemporaneity or modernity should be determinative but in the sense that the reasoning argumentation and dialogue should have resonance with contemporary thinking and rethinking of issues that remain in contention for contemporary audiences Theological Ethics is a wide remit and the book provides a methodological focus on Selected Topics in Human Sexuality **Towards a Christian Theology of African Ancestors** Thomas Ochieng Otanga, 2023-04-21 This book examines the similarities and relationship between Christian saints and African ancestors Further it analyzes the deep cultural roots of African peoples and the ancestral frame as a point of departure for developing an indigenous African theology Questions dealt with include Does the conversion of Africans to Christianity require a break with their African cultural heritage Who is an African ancestor Is syncretism a good thing for an African Christian What contribution can the African church make to the universal church The author argues that rather than being antithetical to formal Christianity an African Christian theology of ancestors is an example of how an indigenous African tradition can best express Christianity as well as make considerable impact on world Christianity
