Dream Nation María Acosta Cruz, 2014-03-19 Over the past fifty years Puerto Rican voters have roundly rejected any calls for national independence Yet the rhetoric and iconography of independence have been defining features of Puerto Rican literature and culture In the provocative new book Dream Nation Mar a Acosta Cruz investigates the roots and effects of this profound disconnect between cultural fantasy and political reality Bringing together texts from Puerto Rican literature history and popular culture Dream Nation shows how imaginings of national independence have served many competing purposes They have given authority to the island s literary and artistic establishment but have also been a badge of countercultural cool These ideas have been fueled both by nostalgia for an imagined past and by yearning for a better future They have fostered local communities on the island and still helped define Puerto Rican identity within U S Latino culture In clear accessible prose Acosta Cruz takes us on a journey from the 1898 annexation of Puerto Rico to the elections of 2012 stopping at many cultural touchstones along the way from the canonical literature of the Generaci n del 30 to the rap music

of Tego Calder n Dream Nation thus serves both as a testament to how stories symbols and heroes of independence have inspired the Puerto Rican imagination and as an urgent warning about how this culture has become detached from the everyday concerns of the island s people A volume in the American Literature Initiatives series *Landscapes of the New West* Krista Comer,1999 In the early 1970s empowered by the civil rights and women s movements a new group of women writers began speaking to the American public Their topic broadly defined was the postmodern American West By the mid 1980s their combined works made for a bona fide literary groundswell in both critical and commercial terms However as Krista Comer notes despite the attentions of publishers the media and millions of readers literary scholars have rarely addressed this movement or its writers Too many critics Comer argues still enamored of western images that are both masculine and antimodern have been slow to reckon with the emergence of a new far more feminine postmodern multiracial and urban west Here she calls for a redesign of the field of western cultural studies one that engages issues of gender and race and is more self conscious about space itself_ especially that cherished symbol of western authenticity open landscape Surveying works by Joan Didion Wanda Coleman Maxine Hong Kingston Leslie Marmon Silko Barbara Kingsolver Pam Houston Louise Erdrich Sandra Cisneros and Mary Clearman Blew Comer shows how these and other contemporary women writers have mapped new geographical imaginations upon the cultural and social spaces of today s American West
