continues to be an ideal resource for readers who wish to be introduced to this rapidly expanding global field

International Handbook of Historical Archaeology Teresita Majewski, David Gaimster, 2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today

Handbook of Archaeological Theories R. Alexander Bentley, Herbert D. G. Maschner, Christopher Chippindale, 2008 This handbook a companion to the authoritative Handbook of Archaeological Methods gathers original authoritative articles from leading archaeologists on all aspects of the latest thinking about archaeological theory It is the definitive resource for understanding how to think about archaeology

**Historical Archaeology and Environment** Marcos André Torres de Souza, Diogo Menezes Costa, 2018-07-20 This edited volume gathers contributions focused on understanding the environment through the lens of Historical Archaeology Pressing issues such as climate change global warming the Anthropocene and loss of biodiversity have pushed scholars from different areas to examine issues related to the causes processes and consequences of these phenomena While traditional barriers between natural and social sciences have been torn down these issues have gradually occupied a central place in the field of anthropology As archaeology involves the transdisciplinary study of cultural and natural evidence related to the past it is in a privileged position to discuss the historical depth of some of the processes related to environment that are deeply affecting the world today This volume brings together substantial and comprehensive contributions to the understanding of the environment in a historical perspective along three lines of inquiry

Theoretical and methodological approaches to the environment in Historical Archaeology Studies on environmental Historical Archaeology Historical Archaeology and the Anthropocene Historical Archaeology and Environment will be of interest to researchers in both social and environmental sciences working in different disciplines and research areas such as archaeology history geography anthropology climate change studies environmental analysis and sustainable development studies

**Material Culture and Consumer Society** Mark Staniforth, 2012-12-06 The establishment of a consumer society in Australia has not been a particularly well explored area of academic inquiry My interests lie in the concepts and meanings that underlie the material world ideas like in the words of Madonna I am a material girl and I live in a material world terminology taken to be not gender specific the classic graffiti paraphrasing of Descartes I shop therefore I am or perhaps simply in the world of goods in the more academically respectable terms of Douglas and Isherwood 1979 This book arises out of my longstanding interest in the early colonial period in Australia In part it represents an extension of the purely historical research conducted for my Master s thesis in the Department of History at the University of Sydney which explored aspects of the diet health and lived experience of convicts and immigrants during their voyages to the Australian colonies within the timeframe 1837 to 1839 Staniforth 1993a More importantly it is the culmination of more than twenty five years involvement in the excavation of shipwreck sites in Australia starting with James Matthews 1841 in 1974 through the test excavation of William Salthouse in 1982 continuing with my involvement between 1985 and 1994 in the excavation of Sydney Cove 1797 and most recently with shore based whaling stations and whaling shipwreck sites In this respect this book may be seen as an example of what Ian Hodder 1986 p

**The Global Spanish Empire** Christine Beaulieu, John G. Douglass, 2020-04-21 The Spanish Empire was a complex web of places and peoples Through an expansive range of essays that look at Africa the Americas Asia the Caribbean and the Pacific this volume brings a broad range of regions into conversation The contributors focus on nuanced comparative exploration of the processes and practices of creating maintaining and transforming cultural place making within pluralistic Spanish colonial communities The Global Spanish Empire argues that patterned variability is necessary in reconstructing Indigenous cultural persistence in colonial settings The volume s eleven case studies include regions often neglected in the archaeology of Spanish colonialism The time span under investigation is extensive as well transcending the entirety of the Spanish Empire from early impacts in West Africa to Texas during the 1800s The contributors examine the making of a social place within a social or physical landscape They discuss the appearance of hybrid material culture the incorporation of foreign goods into local material traditions the continuation of local traditions and archaeological evidence of opportunistic social climbing In some cases these changes in material culture are ways to maintain aspects of traditional culture rather than signifiers of new cultural

practices The Global Spanish Empire tackles broad questions about Indigenous cultural persistence pluralism and place making using a global comparative perspective grounded in the shared experience of Spanish colonialism Contributors Stephen Acabado Grace Barretto Tesoro James M Bayman Christine D Beaulieu Christopher R DeCorse Boyd M Dixon John G Douglass William R Fowler Martin Gibbs Corinne L Hofman Hannah G Hoover Stacie M King Kevin Lane Laura Matthew Sandra Mont n Sub as Natalia Moragas Segura Michelle M Pigott Christopher B Rodning David Roe Roberto Valc rcel Rojas Steve A Tomka Jorge Ulloa Hung Juliet Wiersema *An Archaeological Study of Rural Capitalism and Material Life* Mark D. Groover, 2006-04-11 Historical archaeology has largely focused on the study of early military sites and homes of upper class Research on lower classes was viewed as a supplement to local histories documenting political military and financial leaders of the 18th and 19th centuries An Archaeological Study of Rural Capitalism and Material Life will be of interest to historical archaeologists cultural anthropologists social historians and historical sociologists especially researchers studying the influence of globalization and economic development upon rural regions like Appalachia **Contemporary Archaeology in Theory** Robert W. Preucel, Stephen A. Mrozowski, 2011-10-04 The second edition of Contemporary Archaeology in Theory The New Pragmatism has been thoroughly updated and revised and features top scholars who redefine the theoretical and political agendas of the field and challenge the usual distinctions between time space processes and people Defines the relevance of archaeology and the social sciences more generally to the modern world Challenges the traditional boundaries between prehistoric and historical archaeologies Discusses how archaeology articulates such contemporary topics and issues as landscape and natures agency meaning and practice sexuality embodiment and personhood race class and ethnicity materiality memory and historical silence colonialism nationalism and empire heritage patrimony and social justice media museums and publics Examines the influence of American pragmatism on archaeology Offers 32 new chapters by leading archaeologists and cultural anthropologists **Archaeologies of the Contemporary Past** Victor Buchli, Gavin Lucas, 2002-01-04 Archaeologies of the Contemporary Past turns what is usually seen as a method for investigating the distant past onto the present In doing so it reveals fresh ways of looking both at ourselves and modern society as well as the discipline of archaeology This volume represents the most recent research in this area and examines a variety of contexts including Art Deco landfills miner strikes college fraternities an abandoned council house **National Capital Area Archeological Overview and Survey Plan** Barbara J. Little, 1995 **Consumerism and the Emergence of the Middle Class in Colonial America** Christina J. Hodge, 2014-07-14 This study examines the emergence of the middle class and consumerism in colonial America **An Archaeology of Improvement in Rural Massachusetts** Quentin Lewis, 2015-11-25 This book probes the materiality of Improvement in early 19th century rural Massachusetts Improvement was a metaphor for human intervention in the dramatic changes taking place to the English speaking world in the 18th and 19th centuries as part of a transition to industrial capitalism The meaning of Improvement vacillated between ideas of

economic profit and human betterment but in practice Improvement relied on a broad assemblage of material things and spaces for coherence and enactment Utilizing archaeological data from the home of a wealthy farmer in rural Western Massachusetts as well as an analysis of early Republican agricultural publications this book shows how Improvement's twin meanings of profit and betterment unfolded unevenly across early 19th century New England The Improvement movement in Massachusetts emerged at a time of great social instability and served to ameliorate growing tensions between urban and rural socioeconomic life through a rationalization of space Alongside this rationalization Improvement also served to reshape rural landscapes in keeping with the social and economic processes of a modernizing global capitalism But the contradictions inherent in such processes spurred and buttressed wealth inequality ecological distress and social dislocation

Agency in Archaeology Marcia-Anne Dobres, John Robb, 2014-06-11 Agency in Archaeology is the first critical volume to scrutinise the concept of agency and to examine in depth its potential to inform our understanding of the past Theories of agency recognise that human beings make choices hold intentions and take action This offers archaeologists scope to move beyond looking at broad structural or environmental change and instead to consider the individual and the group Agency in Archaeology brings together nineteen internationally renowned scholars who have very different and often conflicting stances on the meaning and use of agency theory to archaeology The volume is composed of five theoretically based discussions and nine case studies drawing on regions from North America and Mesoamerica to Western and central Europe and ranging in subject from the late Pleistocene hunter gatherers to the restructuring of gender relations in the north eastern US
