Recreating Sexual Politics Men Feminism And Politics:

Recreating Sexual Politics Victor J. Seidler, 2009-10-23 First published in 1991 this title examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity Recreating Sexual Politics (Routledge Revivals) Victor Seidler, 2009-12-15 This thought provoking book first published in 1991 examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives It reflects the growing importance of sexual and personal politics within contemporary politics and culture and demonstrates clearly the challenge that feminism brings to our inherited forms of morality politics and sexuality **From Panthers to Promise Keepers** Judith Lowder Newton, 2005 From Panthers to Promise Keepers draws on intimate observations of the men and networks who were involved in what some have called Othe menOs movementO and tells us why these networks mattered Focusing on the decades between 1950 and 2000 it argues that while public structural change is necessary for gender equality getting men involved in efforts at social justice may well depend on their making changes with respect to feelings and with respect to their unconscious fears and anxieties as well Guys and Lesbians in the Military Wilbur J. Scott, Sandra Carson Stanley, Despite the amply documented presence of significant numbers of undeclared homosexual soldiers sailors and Air Force personnel the official position of the American military since the Second World War has been to ban gay men and lesbian women from serving in the United States military Enlistment of openly gay or lesbian military personnel has not been permitted those already in the military service who have subsequently come out as gays and lesbians have been mustered out of the service with no prospect of appeal Where is the Good in the World? David Henig, Anna Strhan, Joel Robbins, 2022-07-08 Bringing together contributions from anthropology sociology religious studies and philosophy along with ethnographic case studies from diverse settings this volume explores how different disciplinary perspectives on the good might engage with and enrich each other The chapters examine how people realize the good in social life exploring how ethics and values relate to forms of suffering power and inequality and in doing so demonstrate how focusing on the good enhances social theory This is the first interdisciplinary engagement with what it means to study the good as a fundamental aspect of social life *Remembering Diana* V. Seidler, 2013-04-16 Analysing the events surrounding the death of Diana Princess of Wales in 1997 Vic Seidler considers the public outpourings of grief and displays of emotion which prompted new kinds of identification and belonging in which communities came together regardless of race class gender and sexuality *Unreasonable Men* Victor J. Seidler, 2013-07-23 This much needed book is the first to show how dominant forms of masculinity are implicated in the traditions of social theory that have emerged since the Enlightenment The author shows how an unreasonable form of reason

has emerged from the separation of reason from emotion mind from body nature from culture public from private matter from spirit the dualities that have shaped our vision of modernity The book argues that men need to explore critically their power and experience which has been rendered invisible by the dominant traditions of social theory Instead of legislating for others they have to learn to speak more personally for themselves *Fathers and Daughters* Sue Sharpe,2013-04-15

Fathers and Daughters explores the complex nature of this subject using the voices and experiences of both fathers and daughters Sue Sharpe provides an examination of the important processes operating within the relationship such as those affecting gender roles achievement teenage sexuality women s relationships with men and ageing It is an original and captivating treatment of a strangely neglected subject Sue Sharpe is a free lance writer and researcher based in London

Dislocating Masculinity Andrea Cornwall,Nancy Lindisfarne,2003-09-02 This book draws upon anthropology feminism and postmodernism to offer a penetrating and challenging study of how gender operates The book offers a radical critique of much of the recent writing on and by men and raises important questions about embodiment agency and the variety of masculine styles *Men, Masculinity and Contemporary Dating* Chris Haywood,2018-05-02

At a time when traditional dating practices are being replaced with new ways to meet potential partners this book provides fresh insights into how are men responding to new ways of dating Drawing upon original research this book examines a wide range of contemporary dating practices that includes speed dating holiday romances use of dating apps online sex seeking and dogging It reveals the ways in which men draw upon traditional models of masculinity to negotiate these changes but also the extent to which men are responding by elaborating new masculinities Through an investigation of the dynamics of heterosexuality and masculinity this book highlights the importance attached to authenticity and the increasing marketization and commodification of dating It argues that in a post truth world men must also come to terms with a post trust dating landscape Combining rich empirical material with keen theoretical analysis this innovative work will have interdisciplinary appeal for students and scholars of sociology media studies cultural studies and gender studies *Bending Bodies* Thomas

Johansson,Soren Ervo,2024-11-01 This title was first published in 2003 The contributing authors have sought to integrate a gender perspective into their respective fields without isolating it from other theoretical accounts The chapters attempt to employ insights from feminist work and gender studies in general yet insist on criticizing monolithic accounts of masculinity and elaborating on more differentiated historically and socially embedded accounts of men s lives and their construction of masculinities The volume is the result of interdisciplinary workshops focusing on questions of male sexuality the male body and masculine representations primarily investigating the relationship between change and continuity within western patriarchal society and the theoretical rather than political implications of the new research in men and masculinities This volume differs from the first in that it deals with the construction of masculine identities on an individual level the individual man s relationship with his own body and sexuality **Jewish Philosophy and Western Culture** Victor J.

Seidler,2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts In so doing it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter religious dialogue Victor J Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others He offers a critical reappraisal of the philosophical underpinnings of this western Christian culture which for so long has viewed Judaism with hostility Examining the work of seminal Jewish thinkers such as Philo Buber Mendelsohn Herman Cohen Leo Baeck Levinas Rosenzweig and others the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring

The Columbia Dictionary of Modern Literary and Cultural Criticism Joseph Childers,Gary Hentzi,1995 More than 450 succinct entries from A to Z help readers make sense of the interdisciplinary knowledge of cultural criticism that includes film psychoanalytic deconstructive poststructuralist and postmodernist theory as well as philosophy media studies linguistics Transforming Masculinities Vic Seidler,2006-03-20 Critically exploring the ways in which men and

masculinities are commonly theorized this multidisciplinary text opens up a discussion around such relationships and shows that as with feminisms there is a diversity of theoretical traditions It draws on a variety of examples and explores new directions in the complexities of diverse male identities and emotional lives across different histories cultures and traditions This book considers the experiences of different generations explores connections between masculinity and drugs investigates men and masculinities in a post 9 11 world considers new ways of thinking about male violence recognizes the importance of culture and provides spaces to explore different class race and ethnic masculinities Written in a practical versatile manner by an established author in this field it points to new directions in thinking and makes essential reading for advanced undergraduates postgraduates and researchers in the fields of sociology gender studies politics philosophy and psychology *Embodying Identities* Victor J. Seidler,2010-04 Embodying Identities presents social theories that allow

people to embody their differences with a sense of dignity and self worth enabling them to understand the complexities of their lived identities in a post modern globalised world **Man Enough** Victor J Jeleniewski Seidler,1997-09-15 In this book one of the leading contributors to the growing debate about men masculinities and sexual politics Victor J Seidler criticizes the Enlightenment coupling of white heterosexual masculinity with reason He argues that in modern society masculinity can never be taken for granted Men must always prove that they are man enough to cope in the correct way with the problems and challenges of everyday life Seidler believes that men have to break this chain of obligations to the Enlightenment notion of masculinity Through engaging with men s diverse relationships with their bodies sexualities emotional lives feelings and desires Seidler explores ways of affirming masculinities while critically engaging with the power that men have in the wider

society The book is also a contribution to antisexist politics Seidler is interested in taking on those forms of men s politics which find it difficult to engage with men s power and society and also those who take it for granted that male power is normal and natural He seeks to recognize both the power that white heterosexual masculinities have in shaping forms of philosophy and social theory while at the same time recognizing that masculinity cannot be simply defined as a relationship of power

Sexual Knowledge, Sexual Science Roy Porter, Mikulas Teich, 1994-09 This volume is about those who have investigated sex from antiquity to the present day

Taking Responsibility, Law and the Changing Family Heather Keating, 2016-04-01 This volume considers the impact that changing family norms have had on the responsibilities that the law allocates to people in family relationships Contributions are drawn from a wide variety of jurisdictions in which scholars lawyers judges and policy makers have been trying to discern what the appropriate correlation should be between the responsibilities that people undertake in family settings and the law that regulates family responsibilities Part I looks at the changes that have occurred in adult relationships and what they have done for our sense of the family responsibilities that adults take for one another Part II reflects on the changing nature of the parental relationship in order to reconsider the way in which changing family structures affect the responsibilities we think people raising children should have The third part brings the rights discourse that has dominated jurisprudence for much of the last fifty years into the discussion of family transformation and the responsibilities to which it gives rise In the final section the authors reflect on the difficulties of trying to resolve the meaning of responsibility in a world of changing families The collection brings together some of the most eminent and imaginative scholars and judges working in this area It will be a valuable resource for all those interested in the legal regulation of the transforming family

Remembering 9/11 V. Seidler, 2013-10-25 Remembering 9 11 recalls the afterlife of the tragedy and the shock that led many to ask why do they hate us so much Engaging with the different voices that attempted to make sense of the trauma Seidler traces the narratives of fear loss and vulnerability and the ways in which they evolved into feelings of rage and retribution

Making Sense of Brexit Victor J. Seidler, 2018-01-31 After the shock decision to leave the EU in 2016 what can we learn about our divided and increasingly unequal society and the need to listen to each other This engaging and accessible book addresses the causes and implications of Brexit exploring this moral anger against political elites and people feeling estranged from a political process and economic system that no longer expressed their will Seidler argues that we need new political imaginations across class race religion gender and sexuality to engage in issues about the scale and acceleration of urban change and the time people need to adjust to new realities He suggests we need to listen to people s concerns not only about the impact of immigration and globalisation on their lives but also about the injustice of a capitalist economy that makes them pay through austerity and cuts in social welfare for a financial crisis they were not responsible for He imagines alternative futures that will allow different generations to still appreciate themselves as Europeans with a future in Europe
