Nurul Momen, Jannatul Ferdous, 2023-04-08 This book adopts the multidimensional nature of innovation as its point of focus and offers a comprehensive analysis of contemporary governance issues in Bangladesh Each chapter views those issues from its own disciplinary perspective but all share a common focus on the current process in the governance of innovation The authors show how the processes of innovation and public service delivery are influenced while there is simultaneously a striving for a digital Bangladesh The book presents innovation as a complex phenomenon with multidisciplinary viewpoints affecting its governance As well new practices developments and empirical research are shown here The aim is to point out the most persistent difficulties in public administration and public service delivery with an emphasis on how to deliver public service in Bangladesh in a sustainable manner Although significant transformations have been made recently for a better organized public sphere public services still must be more closely in line with what citizens need rather than what service providers are prepared to deliver This published work speaks strongly to a wide ranging audience from scholars of governance and innovation management to academics researchers and postgraduate students interested in public service delivery innovations in Bangladesh and South Asia Indeed the book serves as a text and valuable resource for postgraduate courses in politics business administration economics political science development and governance in South Asia    *Diversity And Affirmative*

*Action In Public Service* Walter Broadnax,2018-03-14 In 1968 a theory of social equity was developed and put forward as the third pillar for public administration with the same status as economy and efficiency as values or principles to which public administration should adhere Considerable progress has been made in social equity in the past 20 years Theoretically the works of Rawls and Rae and associates provide a language and a road map for understanding the complexity of the subject The courts were especially supportive of principles of social equity in the later years of Chief Justice Earl Warren and during the years of Chief Justice Warren Burger The present period marked by the leadership of William Rehnquist evidences a significant drawing back from the earlier commitment to equity The decisions of state courts based upon state constitutions and the common law hold considerable promise for advancing social equity principles Scholarly research demonstrates the belief of the American people in fairness justice and equality and their recognition of the complexity of the subject and their ambivalence toward competing claims for equality Research on public administration finds that bureaucratic decision rules and the processes of policy implementation tend to favor principles of social equity
