Red Rebel:

Red Rebels John-Paul O'Neill, 2017-09-21 In 2004 Manchester United could proclaim itself the richest football club in the world and boasted global commercial appeal alongside more than a decade of success on the pitch In early 2005 American businessman Malcolm Glazer targeted a leveraged takeover of the club and it looked set to be plunged into record levels of debt The fans were furious If the deal went wrong it would threaten United's very existence whilst the Glazers would be able to walk away without it having cost them a cent Protests in the stands fell on deaf ears it became increasingly clear that marches and placards wouldn't make any difference to the Glazer family In May 2005 the takeover went ahead In response one group of supporters took a drastic step rather than meekly fall into line and through rocketing ticket prices help fund the Glazers aims of cashing in on Manchester United's history and traditions they took the plunge and formed a new club that started life in the tenth tier of English football The decision tore Manchester United's fan base apart and caused ructions that continue to this day This is the story of FC United of Manchester the phenomenon born out of a supporter revolution Established against all odds its constitution enabled supporters to each own part of the club and have a direct say in how it was run It also adopted a transparent manifesto and ensured it could never be sold on for profit However as generations that have gone before will testify modern football is now as much a business as it is a sport How long can a club set up in opposition to a culture of greed stay true to its principles And in a noble attempt to do so could it ultimately tear itself apart

Communist China Digest, 1967 **The Politics of the Chinese Cultural Revolution** Hong Yung Lee, 2024-03-29 Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red Guard publications highlights the different membership characteristics positions and strategies of both the student Red Guards and the worker Revolutionary Rebels divided internally along a conservative radical line Rejecting the ideologically oriented assumption that workers and students of worker or peasant origin comprised the majority of the radical elements Lee argues that students of bourgeois and other bad origins workers in small factories sent down students and demobilized soldiers were the radicals whereas students from families with pre 1949 revolutionary careers and workers in large scale and modern enterprises were found in large numbers among the conservatives He contends that contrary to some social science theories the radicals were motivated by rational rather than ideological considerations and that they attacked the status quo because it was they who experienced discrimination under the existing political system whereas the conservatives generally belonged to favored social groups Lee demonstrates that an adequate history of the Cultural Revolution cannot restrict itself

to an analysis of policy difference among the elites but must consider the behavior of the masses and their relationship with the elites Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red Guard accounts

Born Red Yuan Gao, 1987-06-01 *Born Red* is an artistically wrought personal account written very much from inside the experience of the years 1966-1969 when the author was a young teenager at middle school It was in the middle schools that much of the fury of the Cultural Revolution and Red Guard movement was spent and Gao was caught up in very dramatic events which he recounts as he understood them at the time Gao's father was a county political official who was in and out of trouble during those years and the intense interplay between father and son and the differing perceptions and impact of the Cultural Revolution for the two generations provide both an unusual perspective and some extraordinary moving moments He also makes deft use of traditional mythology and proverbial wisdom to link sometimes ironically past and present Gao relates in vivid fashion how students turned Red Guards held mass rallies against capitalist roader teachers and administrators marching them through the streets to the accompaniment of chants and jeers and driving some of them to suicide Eventually the students divided into two factions and school and town became armed camps Gao tells of the exhilaration that he and his comrades experienced at their initial victories of their deepening disillusionment as they utter defeat as the tumultuous first phase of the Cultural Revolution came to a close The portraits of the persons to whom Gao introduces us classmates teachers family members gain weight and density as the story unfolds so that in the end we see how they all became victims of the dynamics of a mass movement out of control

A Chinese Rebel beyond the Great Wall TJ Cheng,Uradyn E. Bulag,Mark Selden,2023-10-24 A striking first person account of the Cultural Revolution in Inner Mongolia embedded in a close examination of the historical evidence on China s minority nationality policies to the present During the Great Leap Forward as hundreds of thousands of Chinese famine refugees headed to Inner Mongolia Cheng Tiejun arrived in 1959 as a middle school student In 1966 when the PRC plunged into the Cultural Revolution he joined the Red Guards just as Inner Mongolia s longtime leader Ulanhu was purged With the military in control and with deepening conflict with the Soviet Union and its ally Mongolia on the border Mongols were accused of being nationalists and traitors A pogrom followed taking more than 16 000 Mongol lives the heaviest toll anywhere in China At the heart of this book are Cheng s first person recollections of his experiences as a rebel These are complemented by a close examination of the documentary record of the era from the three coauthors The final chapter offers a theoretical framework for Inner Mongolia s repression The repression s goal the authors show was not to destroy the Mongols as a people or as a culture it was not a genocide It was however a politicide an attempt to break the will of a nationality to exercise leadership of their autonomous region This unusual narrative provides urgently needed primary source material to understand the events of the Cultural Revolution while also offering a novel explanation of contemporary Chinese minority politics involving the Uyghurs Tibetans and Mongols
