Red Ribbons A Story Of Missoula And Its Newspaper:

Red Ribbons John H. Toole, 1989 A story of Missoula and its newspaper **A Guide to Historic Missoula** Allan James Mathews, 2002 The sixth volume in the Montana Mainstreet series A Guide to Historic Missoula points readers to the buildings historic sites and parks that act as monuments to Missoula's and Montana's history **When Money Grew on Trees** Greg Gordon, 2014-04-02 Born in the timber colony of New Brunswick Maine in 1848 Andrew Benoni Hammond got off to an inauspicious start as a teenage lumberjack By his death in 1934 Hammond had built an empire of wood that stretched from Puget Sound to Arizona and in the process had reshaped the American West and the nation's way of doing business When Money Grew on Trees follows Hammond from the rough and tumble world of mid nineteenth century New Brunswick to frontier Montana and the forests of Northern California from lowly lumberjack to unrivaled timber baron Although he began his career as a pioneer entrepreneur Hammond unlike many of his associates successfully negotiated the transition to corporate businessman Against the backdrop of western expansion and nation building his life dramatically demonstrates how individuals more than the impersonal forces of political economy shaped capitalism in this country and in doing so transformed the forests of the West from functioning natural ecosystems into industrial landscapes In revealing Hammond's instrumental role in converting the nation's public domain into private wealth historian Greg Gordon also shows how the struggle over natural resources gave rise to the two most pervasive forces in modern American life the federal government and the modern corporation Combining environmental labor and business history with biography When Money Grew on Trees challenges the conventional view that the development and exploitation of the western United States was dictated from the East Coast The West Gordon suggests was perfectly capable of exploiting itself and in his book we see how Hammond and other regional entrepreneurs dammed rivers logged forests and leveled mountains in just a few decades Hammond and his like also built cities towns and a vast transportation network of steamships and railroads to export natural resources and import manufactured goods In short they established much of the modern American state and economy **Copper Chorus** Dennis L. Swibold, 2006 This is the first book devoted to Montana's long history of industrial newspaper ownership and the consequences for democracy The work also reveals the costs paid by owners and their journalists whose credibility eroded as their increasingly constricted newspapers lapsed into ambivalence and indifference The story offers a timeless study of the conflict between commerce and the notion of a free and independent press **The Why, Who, and how of the Editorial Page** Kenneth Rystrom, 1999 *Montana's Home Front During World War II* Dennis E. McClendon, Gary Glynn, Wallace F. Richards, 1994 This book is about ordinary people doing extraordinary things It is written to recognize all of the Montanans who played a part no matter how small in winning the war Not all of the story is pretty but it is a story that needed to be told
