Railroads of Nevada and Eastern California David F. Myrick, 2016-07-05 Valuable as these volumes are in relation to railroad operations in Nevada and California their usefulness as authoritative reference sources embraces a much broader scope Railroads of Nevada and Eastern California is as much a history of the region as it is a study of the railroads The principal mines and mills and their production are scrupulously detailed together with the personalities who created them The final volume in the complete history of Nevada and Eastern California railroads David Myrick's monumental railroad histories have become essential reference works for railroaders historians and hobbyists Volume III contains additional information about the northern roads including some not covered in previous volumes and about developments since the publication of the first two volumes in the railroads of the region It provides new facts gleaned from the correspondence of Collis P Huntington one of the builders of the Central Pacific and Southern Pacific railroads It also covers roads connected with the lumber industry and the construction of electric power plants and Southern Pacific branch lines including some that never advanced beyond surveys
