**Humanitarianism and Human Rights** Michael N. Barnett, 2020-10-15 This book explores the fluctuating relationship between human rights and humanitarianism For most of their lives human rights and humanitarianism have been distant cousins Humanitarianism focused on situations in faraway places dealing with large scale loss of life that demanded urgent attention whilst human rights advanced the cause of individual liberty and equality at home However the twentieth century saw the two coming much more directly into dialogue particularly following the end of the Cold War as both began working in war zones and post conflict situations Leading scholars probe how the shifting meanings of human rights and humanitarianism converge and diverge from a variety of disciplinary perspectives ranging from philosophical inquiries that consider whether and how differences are constructed at the level of ethics obligations and duties to historical inquiries that attempt to locate core differences within and between historical periods and to practice oriented perspectives that suggest how differences are created and recreated in response to concrete problems and through different kinds of organised activities with different goals and meanings

**Love and Liberation** Lauren Carruth,2021-10-15 Lauren Carruth s Love and Liberation tells a new kind of humanitarian story The protagonists are not volunteers from afar but rather Somali locals caring for each other nurses aid workers policymakers drivers community health workers and bureaucrats The contributions of locals are often taken for granted and the competencies aspirations and effectiveness of local staffers frequently remain muted or absent from the planning and evaluation of humanitarian interventions structured by outsiders Relief work is traditionally imagined as politically neutral and impartial and interventions are planned as temporary extraordinary and distant Carruth provides an alternative vision of what humanitarian response means in practice not driven by International Humanitarian Law the missions of Western relief organizations or trends in the aid industry or academia but instead by what Somalis call samafal Samafal is structured by the cultivation of lasting relationships of care interdependence kinship and ethnic solidarity Samafal is also explicitly political and potentially emancipatory humanitarian responses present opportunities for Somalis to begin to redress histories of colonial partitions and to make the most out of their political and economic marginalization By centering Love and Liberation around Somalis understanding and enactments of samafal Carruth offers a new perspective on politics and intervention in Africa
