Jorgensen,2014-03-31 The fight for the Wheatfield at Gettysburg on July 2 1863 has long been one of the most confusing and misunderstood engagements of that famous battle until now Gettysburg s Bloody Wheatfield provides readers with a blow by blow description of the fight where one out of every three soldiers was a casualty *This Birth Place of Souls* Harriet Eaton,2011 After the battle of Antietam in 1862 Harriet Eaton traveled to Virginia from her home in Portland Maine to care for soldiers in the Army of the Potomac Portland s Free Street Baptist Church with liberal ties to abolition established the Maine Camp Hospital Association and made the widowed Eaton its relief agent in the field One of many Christians who believed that patriotic activism could redeem the nation Eaton quickly learned that war was no respecter of religious principles Doing the work of nurse and provisioner Eaton tended wounded men and those with smallpox and diphtheria during two tours of duty Eaton struggled with the disruptions of transience scarcely sleeping in the same place twice but found the politics of daily toil even more challenging Conflict between Eaton and coworker Isabella Fogg erupted almost immediately over issues of propriety Though Eaton praised some of the surgeons with whom she worked she labeled others charlatans whose neglect had deadly implications for the rank and file If she saw villainy she also saw opportunities to convert soldiers and developed an intense spiritual connection with a private which appears to have led to a postwar liaison Published here for the first time the uncensored nursing diary is a rarity among medical accounts of the war showing Eaton to be an astute observer of human nature and not as straight laced as we might have thought This edition includes an extensive introduction by the editor transcriptions of relevant letters and newspaper articles and a comprehensive biographical dictionary of the people mentioned in the diary **The Maps of the Wilderness** Bradley Gottfried,2016-03-14

The Maps of the Wilderness An Atlas of the Wilderness Campaign May 2 7 1864 continues Bradley M Gottfried s efforts to

study and illustrate the major campaigns of the Civil War's Eastern Theater. This is his fifth book in the ongoing Savas Beatie Military Atlas Series. The previous four were *The Maps of Gettysburg* (2007), *The Maps of First Bull Run* (2009), *The Maps of Antietam* (2012), and *The Maps of the Bristoe Station and Mine Run Campaigns* (2013). This latest magisterial work breaks down the entire campaign and all related operational maneuvers into 24 map sets or action sections enriched with 120 original full-page color maps. These spectacular cartographic creations bore down to the regimental and battery level. *The Maps of the Wilderness* includes an assessment of the winter of 1863-1864, the planning for the campaign, the crossing of the Rapidan River, and two days of bloody combat and the day of watchful stalemate thereafter. At least one and as many as eight maps accompany each action section. Opposite each map is a full-facing page of detailed footnoted text describing the units, personalities, movements, and combat, including quotes from eyewitnesses depicted on the accompanying map, all of which make the story of the first large-scale combat of 1864 come alive. Each cartographic snapshot also serves to unlock everything ever written on the subject. This detailed coverage also includes an order of battle, interview with the author, bibliography, and an index. This original presentation leads readers on a journey through the epic battle that would prove to be the opening salvo in a prolonged fight that would not end until the Confederates surrendered at Appomattox in April 1865. The Wilderness Campaign has two unique characteristics. First, although he did not command the Army of the Potomac, the battle was Ulysses S. Grant's first against General Robert E. Lee. Second, the Wilderness fighting, prolonged, bloody, and inconclusive, is widely viewed as the most confusing action of the entire war. The dense thickets and deep smoke obscured much of what occurred during the two days of combat. Gottfried's book cuts through the confusion to deliver a clear account of the horrendous struggle. Perfect for the easy chair or for walking hallowed ground, *The Maps of the Wilderness* is a seminal work that, like his earlier studies, belongs on the bookshelf of every serious and casual student of the Civil War or in the hands of an avid enthusiast out walking the Hallowed Ground.

[Buying and Selling Civil War Memory in Gilded Age America](#)

James Marten, Caroline E. Janney, 2021-07-15. *Buying and Selling Civil War Memory* explores the ways in which Gilded Age manufacturers, advertisers, publishers, and others commercialized Civil War memory. Advertisers used images of the war to sell everything from cigarettes to sewing machines; an entire industry grew up around uniforms made for veterans rather than soldiers; publishing houses built subscription bases by tapping into wartime loyalties; while old and young alike found endless sources of entertainment that harkened back to the war. Moving beyond the discussions of how Civil War memory shaped politics and race relations, the essays assembled by James Marten and Caroline E. Janney provide a new framework for examining the intersections of material culture, consumerism, and contested memory in the everyday lives of late nineteenth-century Americans. Each essay offers a case study of a product, experience, or idea related to how the Civil War was remembered and memorialized. Taken together, these essays trace the ways the buying and selling of the Civil War shaped Americans thinking about the conflict, making an important contribution to scholarship on Civil War memory and extending

our understanding of subjects as varied as print visual and popular culture finance and the histories of education of the book and of capitalism in this period This highly teachable volume presents an exciting intellectual fusion by bringing the subfield of memory studies into conversation with the literature on material culture The volume s contributors include Amanda Brickell Bellows Crompton B Burton Kevin R Caprice Shae Smith Cox Barbara A Gannon Edward John Harcourt Anna Gibson Holloway Jonathan S Jones Margaret Fairgrieve Milanick John Neff Paul Ringel Natalie Sweet David K Thomson and Jonathan W White

Fredericksburg! Fredericksburg! George C. Rable, 2009-11-15 During the battle of Gettysburg as Union troops along Cemetery Ridge rebuffed Pickett s Charge they were heard to shout Give them Fredericksburg Their cries reverberated from a clash that although fought some six months earlier clearly loomed large in the minds of Civil War soldiers Fought on December 13 1862 the battle of Fredericksburg ended in a stunning defeat for the Union Confederate general Robert E Lee suffered roughly 5 000 casualties but inflicted more than twice that many losses nearly 13 000 on his opponent General Ambrose Burnside As news of the Union loss traveled north it spread a wave of public despair that extended all the way to President Lincoln In the beleaguered Confederacy the southern victory bolstered flagging hopes as Lee and his men began to take on an aura of invincibility George Rable offers a gripping account of the battle of Fredericksburg and places the campaign within its broader political social and military context Blending battlefield and home front history he not only addresses questions of strategy and tactics but also explores material conditions in camp the rhythms and disruptions of military life and the enduring effects of the carnage on survivors both civilian and military on both sides

A Forgotten Landscape: How A Place Called Crockett's Corner Became The Maine Mall M.M. Drymon PhD, 2015-10-25 A place called Crockett s Corner began as a seventeenth century colonial settlement that grew into a stable and sustainable nineteenth century American agrarian landscape During the twentieth century in a rapid but staged process the landscape was changed into an edge city These changes were the direct result especially after 1938 of prevailing public policies which acted to constrain some land uses while supporting others Landscape change has had unintended consequences including local social network destruction historic building demolition and unmitigated air and non point source water pollution Raising awareness of the deep history of this place may help empower advocates for historic preservation open space environmental protection and more sustainable land use practices in the future
