Red Flags And Red Tape The Making Of A Labour Bureaucracy:

Red Flags and Red Tape James Mark Leier, 1995 Labour bureaucracy has long been a subject of interest to sociologists and industrial relations specialists but it has rarely been examined by labour historians In Red Flags and Red Tape Mark Leier aims to understand how and why bureaucracy came to dominate an organization that was established to promote greater democracy for the working class The formative years of the Vancouver Trades and Labour Council from 1889 to 1910 provide the basis for his study of the interplay between bureaucracy class and ideology Leier sets himself three tasks to outline the theoretical debates on the labour bureaucracy to investigate the early history of the VTLC in order to show how and why bureaucratic structures evolve over time and to examine the ideology and personnel of the labour council in order to understand the complex relationship between bureaucrats of the left and the right and their ideologies BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Capitalism and Colonialism: The Making of

Modern Canada 1890-1960 Bryan D. Palmer, 2025-09-02 This second volume of Bryan Palmer's history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital's conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians

Churches Lynne Marks, 2017-06-09 British Columbia is at the forefront of a secularizing movement in the English speaking world Nearly half its residents claim no religious affiliation and the province has the highest rate of unbelief or religious indifference in Canada Infidels and the Damn Churches explores the historical roots of this phenomenon from the 1880s to

the First World War Lynne Marks reveals that class and racial tensions fuelled irreligion in a world populated by embattled ministers militant atheists turn of the century New Agers rough living miners Asian immigrants and church going settler women White working class men often arrived in the province alone and identified the church with their exploitative employers At the same time BC s anti Asian and anti Indigenous racism meant that their whiteness alone could define them as respectable without the need for church affiliation Consequently although Christianity retained major social power elsewhere many people in BC found the freedom to forgo church attendance or espouse atheist views This nuanced study of mobility gender masculinity and family in settler BC offers new insights into BC s distinctive culture and into the beginnings of what has become an increasingly dominant secular worldview across Canada *British Trade Unions and Industrial Politics* John McIlroy,Nina Fishman,Alan Campbell,2019-06-26 First published in 1999 this volume describes the political climate and state of trade unions after the second world war in Britain Detailing the transition of individuals who had survived in the war or had taken part in the war effort to going back a civilian life in 1945 Following the rise of the Labour party in Britain until 1964 **Sit Down and Drink Your Beer** Robert A. Campbell,2001-01-01 Campbell argues that the regulation of the environment of the classic beer parlour rather than being an example of social control is best understood as moral regulation and part of a process of normalization **Political Ideology in Parties, Policy, and Civil Society** David Laycock,2019-09-01 Liberalism conservatism populism environmentalism multiculturalism agrarianism labour pragmatism socialism and myriad other isms Ideology is a ubiquitous continuously innovating dimension of human experience but its character and impact are notoriously difficult to pinpoint within political and social life Political Ideology in Parties Policy and Civil Society demonstrates that the reach and significance of political ideology is best understood through a multidisciplinary approach Contributors to this volume explore a broad territory from multiple perspectives the influence of English country party ideology on late eighteenth century American political thought multiculturalism populism and environmentalism in Canada the ideological underpinnings of Canadian development assistance policy contemporary efforts to shape working class and farmer ideologies in western Canada and the interweaving of academic theory and ideology in game theory This stimulating volume offers empirical interpretations that break new ground and demonstrates the strength of interdisciplinary approaches to the study of political ideology **Bakunin** Mark Leier,2011-01-04 The spellbinding story of both the man and the theory Bakunin chronicles one of the most notorious radicals in history Mikhail Bakunin the founder of anarchism here revealed as a practical moral philosophy rooted in a critique of wealth and power Mark Leier corrects many of the popular misconceptions about Bakunin and his ideas offering a fresh interpretation of his life and thoughts Bakunin is an insightful read for all those who wish to better understand the fundamental basis of modern radical movements *The West Beyond the West* Jean Barman,2017-06-22 British Columbia is regularly described in superlatives both positive and negative most spectacular scenery strangest politics greatest environmental sensitivity richest Aboriginal cultures most aggressive resource

exploitation closest ties to Asia Jean Barman's *The West beyond the West* presents the history of the province in all its diversity and apparent contradictions This critically acclaimed work is the premiere book on British Columbian history with a narrative beginning at the point of contact between Native peoples and Europeans and continuing into the twenty first century Barman tells the story by focusing not only on the history made by leaders in government but also on the roles of women immigrants and Aboriginal peoples in the development of the province She incorporates new perspectives and expands discussions on important topics such as the province's relationship to Canada as a nation its involvement in the two world wars the perspectives of non mainstream British Columbians and its participation in recreation and sports including Olympics First published in 1991 and revised in 1996 this third edition of *The West beyond the West* has been supplemented by statistical tables incorporating the 2001 census two more extensive illustration sections portraying British Columbia's history in images and other new material bringing the book up to date Barman's deft scholarship is readily apparent and the book demands to be on the shelf of anyone with an interest in British Columbian or Canadian history

When Coal Was King John Hinde, 2011-11-01 The town of Ladysmith was one of the most important coal mining communities on Vancouver Island during the early twentieth century The Ladysmith miners had a reputation for radicalism and militancy and engaged in bitter struggles for union recognition and economic justice most notably the Great Strike of 1912-14 This strike one of the longest and most violent labour disputes in Canadian history marked a watershed in the history of the town and the coal industry This book explains the origins of the 1912-14 strike by examining the development of the coal industry on Vancouver Island the founding of Ladysmith the experience of work and safety in the mines the process of political and economic mobilization and how these factors contributed to the development of identity and community While the Vancouver Island coal industry and the strike have been the focus of a number of popular histories this book goes beyond to emphasize the importance of class ethnicity gender and community in creating the conditions for the emergence and mobilization of the working class population Informed by current academic debates on the matter and within the discipline this readable history takes into account extensive archival research and will appeal to historians and others interested in the history of Vancouver Island

The Limits of Labour David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour

movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s

Liberalism and Hegemony Jean-Francois Constant, Michel Ducharme, 2009-04-07 In 2000 Ian McKay a highly respected historian at Queen's University published an article in the Canadian Historical Review entitled The Liberal Order Framework A Prospectus for a Reconnaissance of Canadian History Written to address a crisis in Canadian history this detailed programmatic and well argued article had an immediate impact on the field Proposing that Canadian history should be mapped through a process of reconnaissance and that the Canadian state should be understood as a project of liberal rule in North America the essay prompted debate immediately upon publication Liberalism and Hegemony assembles some of Canada's finest historians to continue the debate sparked by McKay's essay The essays collected here explore the possibilities and limits presented by The Liberal Order Framework for various segments of Canadian history and within them the paramount influence of liberalism throughout the nineteenth and twentieth centuries is debated in the context of aboriginal history environmental history the history of the family the development of political thought and ideas and municipal governance Like McKay's The Liberal Order Framework which is included in this volume with a response to recent criticism Liberalism and Hegemony is a fascinating foray into current historical thought and provides the historical community with a book that will act both as a reference and a guide for future research

New Social Movements, Class, and the Environment John-Henry Harter, 2011-05-25 New Social Movements Class and the Environment explores the history of Greenpeace Canada from 1971 to 2010 and its relationship to the working class In order to understand the ideology behind Greenpeace the author investigates its structure personnel and actions The case study illustrates important contradictions between new social movement theory and practice and how those contradictions affect the working class In particular Greenpeace's actions against the seal hunt against forestry in British Columbia and against its own workers in Toronto demonstrate some of the historic obstacles to working out a common labour and environmental agenda The 1970s saw an explosion of new social movement activism From the break up of the New Left into single issue groups at the end of the 1960s came a multitude of groups representing the peace movement environmental movement student movement women's movement and gay liberation movement This explosion of new social movement activism has been heralded as the age of new radical politics Many theorists and activists saw and still see new social movements and the issues or identities they represent as replacing the working class as an agent for progressive social change This paper examines these claims through a case study of the quintessential new social movement Greenpeace

Inventing Stanley Park Sean Kheraj, 2013-05-24 In the early hours of 15 December 2006 a windstorm of a ferocity not known for more than forty years ripped through Vancouver In the crisp light of dawn the city's residents awoke to discover

that Stanley Park their city's most treasured park had been transformed into a tangle of splintered and uprooted trees. In the weeks that followed people toured Stanley Park by car and by foot like a procession of mourners at a funeral. Their anguish revealed more than just an attachment to the memory of a park; it marked the end of a romanticized vision of timeless natural space. In *Inventing Stanley Park* environmental historian Sean Kheraj examines how this tension between popular expectations of idealized wilderness and the volatility of complex ecosystems helped shape one of the world's most famous urban parks. Drawing on a wealth of illustrations and the insights of environmental history, Kheraj not only describes and depicts the natural and cultural forces that shaped the park's landscape; he also reveals the roots of our complex relationship with nature. Released to coincide with Stanley Park's 125th anniversary, this book offers a revealing meditation on the interrelationship between nature, culture, parks, policy, and public memory.

Rebels, Reds, Radicals Ian McKay, 2005-04-28

In this brilliant and thoroughly engaging work, Ian McKay sets out to revamp the history of Canadian socialism. Drawing on models of left politics in Marx and Gramsci, he outlines a fresh agenda for exploration of the Canadian left. In rejecting the usual paths of sectarian or sentimental histories, McKay draws on contemporary cultural theory to argue for an inventive strategy of reconnaissance. This important groundbreaking work combines the highest standards of scholarship and a broad knowledge of current debates in the field.

Rebels, Reds, Radicals is the introduction to McKay's definitive multi-volume work on the history of Canadian socialism, volume one: *Reasoning Otherwise: Leftists and the People's Enlightenment in Canada, 1890-1920*, is now available.

Fight Or Pay Desmond Morton, 2004

One Canadian in eight volunteered to fight between 1914 and 1918, and more than half of them were enlisted. Soldiers left their families behind to the tender mercy of a tight-fisted government and the Canadian Patriotic Fund, a national charity dominated by its wealthy donors. In time, the soldiers were remembered as the sacrificial heroes who won Canada a respected place in the world. The women who paid in loneliness and poverty were as easily forgotten as their letters soaked in blood and Flanders mud. *Fight or Pay* tells the story of what happened to the soldiers' families and their quiet contributions to a fairer deal for Canadians in peace and war.
