Red Fox:

Foxes M. Martin, 2015-05-12 The Red Fox is just one of several different types of true foxes in the world. They have the most numbers and they can be found in almost every continent of the world from the deserts to the polar regions. Red Foxes belong to the dog family like the wolf but smaller than the wolf. There are a lot of other types of true foxes and other types of fox-like animals that are not classified as true foxes. Red foxes are called such because of their color. Their physical features include short ears, long legs, and they are known to have very bushy tails. Their tails are used to communicate with each other and to give them perfect balance. Read this book to learn more amazing facts about the red fox. There are interesting things to know about what they eat, their hunting styles, and their family life. Many of the questions you have about red foxes will be answered.
