Red Hills And Cotton An Upcountry Memory:

Red Hills and Cotton Ben Robertson, 2021-03-29 Red Hills and Cotton is suffused with Ben Robertson's deep affection for his native Upcountry South Carolina. An internationally known and respected journalist, Robertson had a knack for finding the interesting and exotic in seemingly humble or ordinary folk and a keen eye for human interest stories. His power of description and disarmingly straightforward narrative were the hallmarks of his writing. A loyal Southern son, Robertson cherished what he judged to be the South's best traditions: personal independence and responsibility, the rejection of crass materialism, a deep piety, and a love of freedom. He repeatedly lamented the region's many shortcomings: poverty, racial hierarchy, political impotence, lack of intellectual curiosity, and its tendency to blame all of its twentieth-century problems on the defeat of the Confederacy. An informative and entertaining new introduction by Lacy K. Ford Jr., associate professor of history at the University of South Carolina, provides fascinating new facts about Robertson's life and recasts his achievements in *Red Hills and Cotton* as social commentary. Ford captures the essence of Robertson's restless and questioning but unfailingly Southern spirit.

The Oxford Book of the American South Edward L. Ayers, Bradley C. Mittendorf, 1997 The Oxford Book of the American South resonates with the words of black people and white women and men, the powerless as well as the powerful. The collection presents the most telling fiction and nonfiction produced in the South from the late eighteenth century to the present. Renowned authors such as James Agee, Richard Wright, Maya Angelou, Lee Smith, Eudora Welty, William Faulkner, and Flannery O'Connor appear in these pages, but so do people whose writing did not immediately reach a large audience. For example, Harriet A. Jacobs's book *Incidents in the Life of a Slave Girl*, which is now recognized as one of the most illuminating narratives of a former slave, was neglected for generations. And Sarah Morgan's powerful Civil War Diary has only recently come to widespread attention. The Oxford Book of the American South presents compelling autobiographies, diaries, memoirs, and journalism as well as stories and selections from novels, and runs the spectrum from the conservative to the radical, the traditional to the innovative. Editors Edward L. Ayers and Bradley C. Mittendorf have arranged these diverse readings so that they fit together into a rich mosaic of Southern life and history. The sections of the book, *The Old South*, *The Civil War and Its Consequences*, *Hard Times*, and *The Turning*, unfold a vivid record of life below the Mason-Dixon line. We see the antebellum period both from the perspective of those who experienced it first hand, such as Thomas Jefferson and former slaves Olaudah Equiano and Frederick Douglass, and then from the perspective of authors looking back on that era, including William Styron and Sherley Anne Williams. Likewise, we see the Civil War through the eyes of witnesses such as Sam Watkins, through the eyes of later writers trying to make sense of the conflict such as Robert Penn Warren, and through the eyes of those using the war's intense passions to fuel their fiction, such as Margaret Mitchell and Barry Hannah. The classic authors of the Southern Renaissance in the 1920s and 1930s appear here in the context of the hard times in which they wrote. The years since World

War II are chronicled in the powerful words of Martin Luther King Jr's Letter from Birmingham Jail George Garrett's Good bye Good bye Be Always Kind and True and Peter Taylor's The Decline and Fall of the Episcopal Church in the Year of Our Lord 1952 The editors have selected these readings their Preface tells us to convey the passions that have surfaced time and again in more than two hundred years of Southern writing Indeed the struggles defeats and triumphs chronicled in The Oxford Book of the American South speak not just to the South but to all of the American experience They document and evoke some of the most dramatic episodes in the nation's life **Red Hills and Cotton** Ben Robertson, 1949

Perspectives on Cormac McCarthy Edwin T. Arnold, Dianne C. Luce, 2009-10-20 Originally published in 1993 this was the first volume of essays devoted to the works of Cormac McCarthy Immediately it was recognized as a major contribution to studies of this acclaimed American author American Literary Scholarship hailed it as a model of its kind It has since established itself as an essential source for any McCarthy scholar student or serious reader In 1993 McCarthy had recently published *All the Pretty Horses* 1992 the award winning first volume of the Border Trilogy The second volume *The Crossing* appeared in 1994 and the concluding novel *Cities of the Plain* in 1998 The completion of the trilogy one of the most significant artistic achievements in recent American literature calls for further consideration of McCarthy's career This revised volume therefore contains in addition to the original essays an updated version of Gail Morrison's article on *All the Pretty Horses* plus two original essays by the editors of *The Crossing* Luce and *Cities of the Plain* Arnold Except for McCarthy's drama *The Stonemason* 1994 all the major publications are covered in this collection Cormac McCarthy is now firmly established as one of the masters of American literature His first four novels his screenplay *The Gardener's Son* and his drama *The Stonemason* are all set in the South Starting with *Blood Meridian* 1985 he moved west to the border country of Texas and Old and New Mexico to create masterpieces of the western genre Few writers have so completely and successfully described such different locales customs and people Yet McCarthy is no regionalist His work centers on the essential themes of self determination faith courage and the quest for meaning in an often violent and tragic world For his readers wishing to know McCarthy's works this collection is both an introduction and an overview **Pickens County** Piper Peters

World War I and Southern Modernism David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region's existing

agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles

Plain Folk of the South Revisited Samuel C. Hyde, Jr., 1997-10-01 *The White House Looks South* William E. Leuchtenburg, 2005-10-01 Perhaps not southerners in the usual sense Franklin D Roosevelt Harry S Truman and Lyndon B Johnson each demonstrated a political style and philosophy that helped them influence the South and unite the country in ways that few other presidents have Combining vivid biography and political insight William E Leuchtenburg offers an engaging account of relations between these three presidents and the South while also tracing how the region came to embrace a national perspective without losing its distinctive sense of place According to Leuchtenburg each man had one foot below the Mason Dixon Line one foot above Roosevelt a New Yorker spent much of the last twenty five years of his life in Warm Springs Georgia where he built a Little White House Truman a Missourian grew up in a pro Confederate town but one that also looked West because of its history as the entrep t for the Oregon Trail Johnson who hailed from the former Confederate state of Texas was a westerner as much as a southerner Their intimate associations with the South gave these three presidents an empathy toward and acceptance in the region In urging southerners to jettison outworn folkways Roosevelt could speak as a neighbor and adopted son Truman as a borderstater who had been taught to revere the Lost Cause and Johnson as a native who had been scorned by Yankees Leuchtenburg explores in fascinating detail how their unique attachment to place helped them to adopt shifting identities which proved useful in healing rifts between North and South in altering behavior in regard to race and in fostering southern economic growth *The White House Looks South* is the monumental work of a master historian At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no less significant In a period when America is said to be homogenized he shows that sectional distinctions persist And in an era when political history is devalued he demonstrates that government can profoundly affect people s lives and that presidents can be change makers

[A Fabric of Defeat](#) Bryant Simon, 2000-11-09 In this book Bryant Simon brings to life the politics of white South Carolina millhands during the first half of the twentieth century His revealing and moving account explores how this group of southern laborers thought about and participated in politics and public power Taking a broad view of politics Simon looks at laborers as they engaged in political activity in many venues at the polling

station on front porches and on the shop floor and examines their political involvement at the local state and national levels He describes the campaign styles and rhetoric of such politicians as Coleman Blease and Olin Johnston himself a former millhand who eagerly sought the workers votes He draws a detailed picture of mill workers casting ballots carrying placards marching on the state capital writing to lawmakers and picketing factories These millhands politics reflected their public and private thoughts about whiteness and blackness war and the New Deal democracy and justice gender and sexuality class relations and consumption Ultimately the people depicted here are neither romanticized nor dismissed as the stereotypically racist and uneducated rednecks found in many accounts of southern politics Southern workers understood the political and social forces that shaped their lives argues Simon and they developed complex political strategies to deal with those forces

In My Father's House Are Many Mansions Orville Vernon Burton,2000-11-09 Burton traces the evolution of Edgefield County from the antebellum period through Reconstruction and beyond From amassed information on every household in this large rural community he tests the many generalizations about southern black and white families of this period and finds that they were strikingly similar Wealth rather than race or class was the main factor that influenced family structure and the matriarchal family was but a myth Ben Robertson Jodie Peeler,2019-10-30 In Ben Robertson South Carolina Journalist and Author Jodie Peeler tells the story of a man consumed with a need to see the world but whose heart never really left home Drawing heavily on Robertson s writings and personal papers Peeler describes his active career as a journalist which took him to Hawaii Australia Europe Java New York and Washington D C The early years of Robertson s career were spent as a reporter for the New York Herald Tribune After several years as a freelance writer he became a World War II correspondent covering England for the New York newspaper PM While Robertson s wartime dispatches drew attention and praise they represented but one aspect of the man s wide ranging works and career for the Ben Robertson who witnessed destruction and heroism in the fires of London was also a proud son of South Carolina In addition to his work as a journalist Robertson wrote three books Travelers Rest a fictionalized account of his ancestors settling in South Carolina ruffled southern feathers In I Saw England he presents a firsthand account of the Battle of Britain and advocates for the United States to intervene in World War II His heartfelt memoir Red Hills and Cotton which recalls his boyhood days in Pickens County and calls for the South to look to the future became a southern classic In 1943 while en route to his new job as London bureau chief for the New York Herald Tribune Robertson lost his life in a plane crash Throughout his decidedly brief but adventurous life Robertson never stopped being what one friend described as a sentimental South Carolinian who carried his dreams on the tip of his tongue And over time he evolved into a progressive voice calling on the South to reevaluate its attitudes on race and economics This is the story of that proud South Carolinian from the dreams that propelled him around the world to the sentiment that always called him home **Still Fighting the Civil War** David Goldfield,2004-03 In the updated edition of his sweeping narrative on southern history David Goldfield brings this extensive study into the present

with a timely assessment of the unresolved issues surrounding the Civil War's sesquicentennial commemoration Traversing a hundred and fifty years of memory Goldfield confronts the remnants of the American Civil War that survive in the hearts of many of the South's residents and in the national news headlines of battle flags racial injustice and religious conflicts Goldfield candidly discusses how and why white southern men fashioned the myths of the Lost Cause The Child in the Electric Chair Eli Faber, 2021-06-25 The tragic story of the killing of 14 year old George Junius Stinney Jr the youngest person executed in the United States during the twentieth century At 7 30 a m on June 16 1944 George Junius Stinney Jr was escorted by four guards to the death chamber Wearing socks but no shoes the 14 year old Black boy walked with his Bible tucked under his arm The guards strapped his slight five foot one inch frame into the electric chair His small size made it difficult to affix the electrode to his right leg and the face mask which was clearly too large fell to the floor when the executioner flipped the switch That day George Stinney became and today remains the youngest person executed in the United States during the twentieth century How was it possible even in Jim Crow South Carolina for a child to be convicted sentenced to death and executed based on circumstantial evidence in a trial that lasted only a few hours Through extensive archival research and interviews with Stinney's contemporaries men and women alive today who still carry distinctive memories of the events that rocked the small town of Alcolu and the entire state Eli Faber pieces together the chain of events that led to this tragic injustice The first book to fully explore the events leading to Stinney's death The Child in the Electric Chair offers a compelling narrative with a meticulously researched analysis of the world in which Stinney lived the era of lynching segregation and racist assumptions about Black Americans Faber explains how a systemically racist system paired with the personal ambitions of powerful individuals turned a blind eye to human decency and one of the basic tenets of the American legal system that individuals are innocent until proven guilty As society continues to grapple with the legacies of racial injustice the story of George Stinney remains one that can teach us lessons about our collective past and present By ably placing the Stinney case into a larger context Faber reveals how this case is not just a travesty of justice locked in the era of the Jim Crow South but rather one that continues to resonate in our own time A foreword is provided by Carol Berkin Presidential Professor of History Emerita at Baruch College at the City University of New York and author of several books including Civil War Wives The Lives and Times of Angelina Grimke Weld Varina Howell Davis and Julia Dent Grant

This War Ain't Over Nina Silber, 2018-11-02 The New Deal era witnessed a surprising surge in popular engagement with the history and memory of the Civil War era From the omnipresent book and film *Gone with the Wind* and the scores of popular theater productions to Aaron Copeland's *A Lincoln Portrait* it was hard to miss America's fascination with the war in the 1930s and 1940s Nina Silber deftly examines the often conflicting and politically contentious ways in which Americans remembered the Civil War era during the years of the Depression the New Deal and World War II In doing so she reveals how the debates and events of that earlier period resonated so profoundly with New Deal rhetoric about state power emerging civil rights activism labor organizing and trade unionism and popular culture in wartime At the heart of this book is an examination of how historical memory offers people a means of understanding and defining themselves in the present Silber reveals how during a moment of enormous national turmoil the events and personages of the Civil War provided a framework for reassessing national identity class conflict and racial and ethnic division The New Deal era may have been the first time Civil War memory loomed so large for the nation as a whole but as the present moment suggests it was hardly the last
