The Routledge Handbook of Translation and Sexuality

Brian James Baer, Serena Bassi, 2024-08-19 *The Routledge Handbook of Translation and Sexuality* questions what it would mean to think of sexualities transnationally and explores the way cultural ideas about sex and sexuality are translated across languages. It considers how scholars chart the multilingual rise of the modern sexual sciences in the nineteenth and twentieth centuries; how translators, writers, and readers respond to sexual modernities; and to what extent the keywords of queer social movements travel across borders. The handbook draws from fields as diverse as translation studies, critical multilingualism studies, comparative literature, European studies, Slavic studies, Middle Eastern studies, Latin American studies, and East Asian studies. This pioneering handbook maps out an emerging brand of women's gender and sexuality studies that approaches sexualities as translational formations. Divided into two parts, the handbook covers theoretical chapters on the interdisciplinary dialogue between translation studies and queer studies; empirical studies of both canonic and minor scientific, religious, literary, philosophical, and political texts about sex and sexuality in translation across a variety of world languages. With 20 chapters written by leading academics from around the world, *The Routledge Handbook of Translation and Sexuality* will serve as an important reference for students and scholars in the fields of translation studies, applied linguistics, modern languages, and women's gender and sexuality studies.

Britain, America and Anti-Communist Propaganda 1945-53 Andrew Defty, 2013-12-02

In the Cold War battle for hearts and minds, Britain was the first country to formulate a coordinated global response to communist propaganda. In January 1948, the British government launched a new propaganda policy designed to oppose the inroads of communism by taking the offensive against it. A small section in the Foreign Office, the innocuously titled Information Research Department (IRD), was established to collate information on communist policy, tactics, and propaganda and coordinate the discreet dissemination of counter-propaganda to opinion formers at home and abroad.

Translating Russian Literature in the Global Context Muireann Maguire, Cathy McAteer, 2024-04-03

Translating Russian Literature in the Global Context examines the translation and reception of Russian literature as a world-wide process. This volume aims to provoke new debate about the continued currency of Russian literature as symbolic capital for international readers, in particular for nations seeking to create or consolidate cultural and political leverage in the so-called World Republic of Letters. It also seeks to examine and contrast the mechanisms of the translation and uses of Russian literature across the globe. This collection presents academic essays grouped according to geographical location by thirty-seven international scholars. Collectively, their expertise encompasses the global reception of Russian literature in Europe, the Former Soviet Republics, Africa, the Americas,

and Asia Their scholarship concentrates on two fundamental research areas firstly constructing a historical survey of the translation publication distribution and reception of Russian literature or of one or more specific Russophone authors in a given nation language or region and secondly outlining a socio cultural microhistory of how a specific highly influential local writer genre or literary group within the target culture has translated transmitted or adapted aspects of Russian literature in their own literary production Each section is prefaced with a short essay by the co editors surveying the history of the reception of Russian literature in the given region Considered as a whole these chapters offer a wholly new overview of the extent and intercultural penetration of Russian and Soviet literary soft power during the twentieth and twenty first centuries This volume will open up Slavonic Translation Studies for the general reader the student of Comparative Literature and the academic scholar alike
