Russian Revolution Problems In Civilization:

The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now, historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state.

A History of Civilizations Fernand Braudel, 1995-04-01 Written from a consciously anti-ethnocentric approach, this fascinating work is a survey of the civilizations of the modern world in terms of the broad sweep and continuities of history rather than the event-based technique of most other texts.

Europe, 1890-1945 Stephen J. Lee, 2020-03-27 Europe 1890-1945 is a new approach to teaching and learning early twentieth-century European history at A level. It meets the needs of teachers and students studying for today's revised AS and A2 exams. In a unique style, *Europe 1890-1945* focuses on the key topics within the period. Each topic is then comprehensively explored to provide background information, essay-writing advice, and examples of source work and historical skills exercises. From 1890 to 1945, the key topics featured include the origins and impact of the First World War, the Russian Revolution and the rise of Stalin, the Weimar Republic and the rise of Hitler, Mussolini and Fascist Italy, Stalin and the Soviet Union, 1928-41.

The Russian Revolution of 1917 - Memory and Legacy Carol S. Leonard, Daniel Orlovsky, Jurej Petrov, 2024-07-30 The way in which the Russian Revolution of October 1917 is regarded and commemorated has changed considerably over time and is a contentious subject well demonstrated by the absence of any official commemoration in Russia in 2017, a huge contrast to the very large celebrations which took place in Soviet times. This book, which brings together a range of leading historians of the Russian Revolution from both Russia and the West, and both younger and older historians, explores the changes in the way in which the October 1917 Revolution is commemorated and also examines fundamental questions about what the Russian Revolution indeed was, what any revolution was, anyway. Among the issues covered are how Soviet and Western historians diverged in their early assessments of what the Revolution achieved, how the period studied by historians has recently extended both much earlier, before 1917, and much later afterwards, and how views of the Revolution within the Soviet Union changed over time from acceptance of the official Communist Party interpretation to more independent viewpoints. Overall, the book provides a major reassessment of one of the twentieth century's most important events.

The Revolt Against Civilization Lothrop Stoddard, 1922 Written by racist theorist Lothrop Stoddard, this book advocates eugenics as a response to Communism.

of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture
