majority minority relations this book offers a pioneering approach that analyzes these relations within the context of a Jewish majority with a minority phobia and an Arab minority with a sense of regional majority Addressing existing and anticipated influences of Russian immigrants on politics culture and social structures in Israel as well as the Israeli Palestinian conflict The Russians in Israel will be useful to students and scholars of Middle Eastern politics and society as well as Israel Russian and Ethnicity Studies **American Book Publishing Record** ,1992 Language Contact in the Territory of the Former Soviet Union Diana Forker,Lenore A. Grenoble,2021-06-15 The former Soviet Union USSR provides the ideal territory for studying language contact between one and the same dominant language Russian and a wide range of genealogically and typologically diverse languages with varying histories of language contact This is the first book that bundles different case studies and systematically investigates the impact of Russian at all linguistic levels from the lexicon to the domains of grammar to discourse and with varying types of outcomes such as relatively rapid language shift structural changes in a relatively stable contact situation pidginization and super variability at the post pidgin stage The volume appeals to linguists studying language contact and contact induced language change from a broad range of perspectives who want to gain insight into how one of the largest languages in the world influences other smaller languages but also experts of mostly minority languages in the sphere of the former Soviet Union Emerging Bilingual Speech Anna Verschik,2011-10-20 Anna Verschik offers a new perspective on how a previously monolingual community of Russian speakers in Estonia is rapidly becoming bilingual after the end of the Soviet occupation in 1991 The contact induced change in Russian under the growing impact of Estonian is analysed in the theoretical framework of code copying Changes in linguistic behaviour of the speakers are often a result of intentional cultivation of non monolingual communication strategies and language policies and go hand in hand with the development of a new identity Estonian Russians Emerging Bilingual Speech is a fascinating study that will be of interest to researchers studying language contact language change and bilingualism **Experimental Approaches to the Acquisition of Information Structure** Tania L. Leal,Bradley Hoot, Stavros Skopeteas,Joseph V. Casillas ,Oksana Laleko,2025-08-19 Human languages constrain the form utterances can take with constraints on grammaticality being but one example Beyond grammaticality utterances can vary in terms of their in felicitousness depending on how constituents relate to the surrounding discourse context speakers communicative needs and speakers assessment of the hearers beliefs The study of information structure explores how speakers package their utterances into blocks with varying informational values formalizing these units with notions like focus background or topic These categories among others have been the subject of substantial interest and debate in linguistics generating both theoretical models and experimental studies bearing on how information structure is represented and interpreted in the minds of speakers and how particular information structural categories are encoded in the grammar However the study of how information structure is acquired is still fledgling with uneven coverage across populations and languages Similarly the wide cross linguistic variation in the use of

syntactic prosodic and morphological means of its expression has been a major stumbling block in the development of a solid methodological foundation for experimental investigations As things stand the field is ripe for contributions from more varied approaches and drawing on linguistic data from under represented languages and populations Throw Your Voice Meghanne Barker,2024-08-15 Throw Your Voice is a story of loss and recovery It relates how children placed in a temporary care institution make sense of their situations Moving between a Kazakhstan government children s home Hope House and the Almaty State Puppet Theater Meghanne Barker shows how children and puppets as proxies bring to life ideologies of childhood and visions of a rosy future Sites and stories run in parallel Framed by the narrative of Anton Chekhov s Kashtanka about a lost dog taken in by a kind stranger the author follows the story s staging at the puppet theater At Hope House children find themselves on a path similar to Kashtanka dislodged from their first homes to reside in a second The heart of this story is about living in displacement and about the fragile intimacies achieved amidst conditions of missing Whether due to war migration or pandemic people get separated from those closest to them Throw Your Voice examines how strangers become familiar and how objects mediate precarious ties She shows how people use fantasy to mitigate loss
