priorities as well as potential donors It also examines the important but hitherto overlooked contribution of the female curator agent The book is divided into three sections which address the relationship between art dealers and museums women as art agents and influencers and the strategies of entrepreneurial collectors Featuring contributions from a wide range of international specialists in the market for decorative arts and antiquities as well as European modernism The Art Market and the Museum explores the origins and development of the modern Western art market and the global art networks that operated not only in Paris London and New York but in cities such as Glasgow Vienna Melbourne and Kansas City It is perfect reading for scholars and researchers on the history of the art market museum studies and art history more broadly
