## Russian Commands And German Resistance:

*Russian Commands and German Resistance* Edward Norman Peterson, 1999 The common assumption has been that Stalin established a totalitarian state in his zone and that the authoritarian Germans simply continued from one obedience to the other Scholarly analysis first possible with the coming down of the Wall begins with the Soviet Command in Berlin It then traces policy implementation in four German states and eight local communities The surprising conclusion is that the purposes of Stalin were confused that the Moscow policy was ambivalent and the assigned personnel insufficiently prepared and controlled The German response was a massive resistance whether out of a desire for freedom or for a higher standard of living or the inertia of continuing in their individualistic capitalist ways

## **The Politics of Religion in Soviet-occupied Germany**

Sean Philip Brennan, 2011-01-01 This book analyzes the relationship between Soviet military authorities the East German Communists and the leadership of the Protestant and Catholic Churches in the Soviet zone of Germany especially its central province of Berlin Brandenburg It discusses how relations worsened between communist and church authorities as the Soviet zone was rebuilt as a German state on the Stalinist model from 1945 to 1949

## *Standing Fast: German Defensive Doctrine on the Russian Front During World War II — Prewar to March 1943*

Major Timothy A. Wray, 2015-11-06 Includes over 50 maps plans and illustrations In this Research Survey Major Timothy A Wray provides an excellent survey of the intricacies of employing defensive tactics against a powerful opponent Using after action reports unit war diaries and other primary materials Major Wray analyzes the doctrine and tactics that the Germans used on the Eastern Front during World War II At the end of World War I the Germans adopted the elastic defense in depth and continued to use it as their basic doctrine through the end of World War II However because of limitations caused by difficult terrain severe weather manpower and supply shortages Soviet tactics and Hitler's order to stand fast German commanders were unable to implement the Elastic Defense in its true form Even so innovative and resourceful unit commanders were able to adapt to the harsh realities of combat and improvise defensive methods that saved the German armies from complete annihilation U S Army unit commanders on the future battlefield while battling a motivated and aggressive force will also face hard battlefield conditions Therefore these commanders in applying the AirLand Battle tenets of initiative depth agility and synchronization will have to demonstrate the same type of innovativeness and resourcefulness as the Germans did in Russia To operate on the AirLand Battlefield U S soldiers must depend on sound doctrine and the ability to execute it intelligently All Army officers will benefit from Major Wray's new and vital assessment of how German doctrine was modified by the test of war
