Power Restructuring In China And Russia Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time. Yet the origins of these revolutionary changes are murky and their outcomes unclear. Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy, or are the tumultuous events of the post-Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history? Considering these questions with a new interpretation of power relations and political processes in China and Russia, Mark Lupher explores the imperial era, the communist period, and the current situation in both countries. Rather than speaking of reform, which too often is understood as liberalization along Western lines, his discussion is focused on power restructuring: the ebb and flow of state power, the centralization and decentralization of political and economic power, and the three-way struggles between central rulers, various elites, and nonprivileged groups that drive these processes. Lupher's power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution. The core of his book. By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history, he furthers our understanding and assessment of processes that will continue to unfold in China, Russia, and the former Soviet republics.

Agrarian Reform in Russia Carol S. Leonard, 2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture: the abolition of serfdom in 1861, the Stolypin reforms, the NEP, the Collectivization, Khrushchev reforms, and finally farm enterprise privatization in the early 1990s. It shows a pattern emerging from a political imperative in imperial Soviet and post-Soviet regimes, and it describes how these reforms were justified in the name of the national interest during severe crises: rapid inflation, military defeat, mass strikes, rural

unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions
