In order for this objective to be realized, students must encounter a communicative system and cultural perspectives different from their own. It is essential for our students' growth that they engage in immersion-based learning experiences where they are supported in going beyond normal comfort levels, and where they learn to function within a system that is unfamiliar to them, thereby developing real-world proficiency in another language and in other cultures.

As a result of language learning, our students think and act globally, are cosmopolitan in their outlook, and international in their understanding. They will be ethical leaders who advance the human condition. When students speak another language, they think and act differently. Their perspective is widened and horizons are expanded. Students have a greater capacity to empathize, to make friends, to imagine "it would be like" to be in
