BOOK JACKET *Reclaiming and Redefining American Exhibitions of Russian Art* Roann Barris, 2023-08-23 This book examines the history of American exhibitions of Russian art in the twentieth century in the context of the Cold War Because this history reflects changes in museological theory and the role of governments in facilitating or preventing intercultural cooperation it uncovers a story that is far more complex than a chronological listing of exhibition names and art works Roann Barris considers questions of stylistic appropriations and influences and the role of museum exhibitions in promoting international and artistic exchanges Barris reveals that Soviet and American exchanges in the world of art were extensive and persistent despite political disagreements before during and after the Cold War It also reveals that these early exhibitions communicated contradictory and historically invalid pictures of the Russian or Soviet avant garde The book will be of interest to scholars working in art history museum studies and Russian studies

The Visual Dominant in Eighteenth-Century Russia Marcus C. Levitt, 2011-10-01 The Enlightenment privileged vision as the principle means of understanding the world but the eighteenth century Russian preoccupation with sight was not merely a Western import In his masterful study Levitt shows the visual to have had deep indigenous roots in Russian Orthodox culture and theology arguing that the visual played a crucial role in the formation of early modern Russian culture and identity Levitt traces the early modern Russian quest for visibility from jubilant self discovery to serious reflexivity to anxiety and crisis The book examines verbal constructs of sight in poetry drama philosophy theology essay memoir that provide evidence for

understanding the special character of vision of the epoch Levitt's groundbreaking work represents both a new reading of various central and lesser known texts and a broader revisualization of Russian eighteenth century culture Works that have considered the intersections of Russian literature and the visual in recent years have dealt almost exclusively with the modern period or with icons The Visual Dominant in Eighteenth Century Russia is an important addition to the scholarship and will be of major interest to scholars and students of Russian literature culture and religion and specialists on the Enlightenment

How Divine Images Became Art Oleg Tarasov, 2024-02-09 How Divine Images Became Art tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov's study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque

Hidden and Triumphant Irina Yazykova, 2020-10-29 A true story told for the first time This dramatic history recounts the story of an aspect of Russian culture that fought to survive throughout the 20th century the icon Russian iconography kept faith alive in Soviet Russia after the Bolshevik Revolution As monasteries and churches were ruined icons destroyed thousands of believers killed or sent to Soviet prisons and labor camps a few courageous iconographers continued to paint holy images secretly despite the ever present threat of arrest Others were forced to leave Russia altogether and while living abroad struggled to preserve their Orthodox traditions Today we are witness to a renaissance of the Russian icon made possible by the sacrifices of this previous generation of heroes
