Russian Security After The Cold War Seven Views From Moscow:

Russian Security After the Cold War Alekseï Georgievich Arbatov, 1994 **Soviet Strategic Thought, 1917-91** Andrei A. Kokoshin, 1998-01-15 During the Cold War Westerners were obsessed with the military policies of the Soviet Union Until the demise of the Soviet Union however few details of Moscow s thinking on military matters were available In this book Andrei Kokoshin reveals how Soviet military theorists developed and debated the concepts that provided the basis for the Kremlin s defense policies Drawing on Soviet era archives and unpublished materials he sheds light on this important chapter in the history of Russia and the world The book covers three main themes the relationship between politics and military strategy in the Soviet Union how the Soviet political and military leadership assessed threats to Soviet security the nature of future wars and methods of warfare and the relationship between offense and defense in Soviet military strategy Kokoshin places the strategic concepts behind Moscow s military policies in the context of internal and international struggles for power and assesses the future role of military power in Russia s national security strategy Parameters ,1994

of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors

Allies Divided Robert D. Blackwill, Michael Stürmer, 1997 Many Transatlantic security concerns in the coming decades will originate not in Europe but in the Greater Middle East which encompasses the area from the Maghreb to the Caspian basin This volume juxtaposes essays from U S and European scholars on selected areas and issues the Arab Israeli peace process the Persian Gulf Turkey and the Caspian Basin the proliferation of weapons of mass destruction and military force projection Each author considers American and European strategies toward a particular issue and makes suggestions for future policy collaboration between the countries on both sides of the Atlantic

RUSSIA'S FAR EAST (p) , In their introduction the authors bring the textiles to life by examining who made them how ideas travelled across the continent and the significance of pattern and symbolism In addition all the principal techniques are explained while brief commentaries highlight the design features Whether you are interested in graphic design or technical detail this inspiring book will be the first to open your eyes to a previously unexplored aspect of Africa

BOOK JACKET National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society's evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity's collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe

The Siberian Curse Fiona Hill, Clifford G. Gaddy, 2003 Hill and Gaddy frame the problems of Siberia more clearly and offer policy recommendations which are more concrete and coherent than any previous analyses of Siberia from Russian or foreign sources of which I am aware Robert Cottrell New York Review of Books

Avoiding Nuclear Anarchy Graham T. Allison, 1996 Nuclear materials have never been more plentiful or more accessible to rogue states and terrorists In this study the authors analyze the consequences of such nuclear leakage for United States national security and argue that it is possibly the nation's

Shaping Europe's Military Order Richard A. Falkenrath, 1995 The legal foundation of the contemporary European security order is the Treaty on Conventional Armed Forces in Europe CFE Negotiated by NATO and the Warsaw Pact states as the Cold War was ending and implemented as the new Europe took shape the CFE Treaty imposes strict limits on the armed forces of all the major European states This book takes a detailed look at the origins and evolution of the CFE negotiations and the impact of the CFE Treaty on European Security It draws extensively on interviews with participants in the CFE negotiations and offers a careful reconstruction of a process that contributed to the transformation of Cold War Europe a critical assessment of the treaty's contribution to security in post

Cold War Europe and an evaluation of the lessons of CFE for future conventional arms control initiatives CSIA Studies in International Security No 6

The Arms Production Dilemma Randall Forsberg, 1994 The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries In the shrinking arms market of the post Cold War era countries with advanced arms industries face difficult choices concerning force size arms production arms export and defense industrial capacity This book explores the links among these issues through a detailed study of the combat aircraft industries in the United States Russia Britain France Germany Italy and Sweden the seven countries that develop produce and export all of the world's technologically advanced weapon systems The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries Stunning changes in Russia's combat aircraft forces industry and strategy are detailed here for the first time as are expected future Russian combat aircraft exports to China Newly compiled data also show that in the United States and Russia and globally arms production for export will exceed production for domestic use for the first time in history starting in 1995 Arms production is thus increasingly dominated by commercial rather than security interests Ultimately at issue is whether governments will exploit the opportunity offered by the dramatic post Cold War contraction of the world arms market to reduce their armed forces and constrain international arms trade while shrinking the arms industry or keep pushing arms exports that generate new threats and justify larger armed forces more arms production and bigger arms industries

The Sanctions Paradox Daniel W. Drezner, 1999-08-26 Despite their increasing importance there is little theoretical understanding of why nation states initiate economic sanctions or what determines their success This book argues that both imposers and targets of economic coercion incorporate expectations of future conflict as well as the short run opportunity costs of coercion into their behaviour Drezner argues that conflict expectations have a paradoxical effect Adversaries will impose sanctions frequently but rarely secure concessions Allies will be reluctant to use coercion but once sanctions are used they can result in significant concessions Ironically the most favourable distribution of payoffs is likely to result when the imposer cares the least about its reputation or the distribution of gains The book's argument is pursued using game theory and statistical analysis and detailed case studies of Russia's relations with newly independent states and US efforts to halt nuclear proliferation on the Korean peninsula Publisher description

Nuclear Weapons and Arms Control in the Middle East Shai Feldman, 1997 The political dimensions of the Arab Israeli relationship have changed dramatically in recent years Israel and its Arab neighbors have made remarkable progress toward resolving long standing conflicts In Nuclear Weapons and Arms Control in the Middle East Shai Feldman

considers whether these political breakthroughs have set the stage for agreements on controlling nuclear weapons in the region He presents a richly detailed overview of the current situation and lays out an agenda for future efforts to reduce the risk of nuclear war in the Middle East Feldman whose background in strategic studies includes nearly two decades of research at Tel Aviv University s Jaffee Center for Strategic Studies provides a comprehensive analysis of the nuclear programs of Algeria Egypt Iran Iraq Israel Libya and Syria He presents a detailed picture of how Israel and the Arab states view nuclear weapons their utility and the threats they pose to regional security and explores the different approaches that Israel and the Arab states have adopted toward nuclear arms control Feldman concludes by suggesting interim measures that might help bridge the gap between these different perspectives BCSIA Studies in International Security *The Greek Paradox* Graham Allison, Kalypsa Nicolaidis, 1997-01-07 As a bridge between the East and West a pole of stability in the Balkans and a Mediterranean crossroads Greece could play a significant role in the post Cold War world But Greece s performance in domestic and international policy falls short of this promise The essays in *The Greek Paradox* look at some of the reasons for this gap and suggest possible political and economic reforms The contributors both scholars and policymakers examine a range of contemporary issues in the Balkans and on NATO s southern flank The essays shed light on nation building political and economic development modernization and post Cold War international relations Contributors Graham T Allison Gianna Angelopoulos Daskalaki P Nikiforos Diamandouros Michael S Dukakis Misha Glenny Dimitris Keridis F Stephen Larrabee Kalypsa Nicola dis Joseph S Nye Jr Alexis Papahelas Elizabeth Prodromou Monteagle Stearns Constantine Stephanopoulos Stavros B Thomadakis Basilios E Tsingos Loukas Tsoukalis Susan Woodward CSIA Studies in International Security Capitalist Russia and the West Jeffrey Surovell, 2018-01-18 This title was first published in 2000 highly innovative work which challenges mainstream approaches to the study of Russian policy with its groundbreaking application of Marxism and dependency theories Using class analysis it examines in a meticulously documented study what is perhaps the most important issue in world politics today Russia and the West Unconventional yet powerful it nevertheless comes up with highly persuasive conclusions Whether one agrees with its challenging conclusions or not they cannot be ignored *The International Politics of Eurasia: v. 5: State Building and Military Power in Russia and the New States of Eurasia* S. Frederick Starr, Karen Dawisha, 2024-11-01 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The collapse of the Soviet Union and the discrediting of Marxism Leninism as a source of political legitimacy have prompted a search for fresh principles of political organization that will shape the nature of political culture in all the post Soviet countries This volume looks at military power and state building Challenging America's Global Preeminence Thomas Ambrosio, 2017-07-05 Examining the shifts in Russian foreign policy and their potential impact on the

status and influence of the United States in the international system this outstanding volume examines why the Kremlin initially sought an alliance with the United States and the internal and external reasons why such a policy was unsustainable In particular it looks for an explanation for the post Cold War vacillations in Russian foreign policy Russia made several decisions which were perceived domestically as being unacceptable capitulations to American interests Consequently a pro Western foreign policy became incompatible with Russian political culture The rapprochement following 9 11 was destined to be temporary due to the decision by the Bush administration to invade Iraq Contributing to the fields of international relations and comparative foreign policy this study provides a fresh approach to the balance bandwagon issue and takes into account the global repercussions of the recent war in Iraq It will be of particular value to specialists in Russian foreign policy international relations theory and US foreign policy
