Russias Race For Asia:

Race and Racism in Modern East Asia Rotem Kowner, Walter Demel, 2012-11-01 Race and Racism in Modern East Asia juxtaposes Western racial constructions of East Asians with constructions of race and their outcomes in modern East Asia This groundbreaking volume also offers an analysis of these constructions their evolution and their interrelations *Russia's Race for Asia* George Creel, 2011-08-01 **Russia as an Aspiring Great Power in East Asia** P. Rangsimaporn, 2009-08-27 Rangsimaporn argues that Russia aspires to become a great power and tries to achieve this through utilizing its position as a Eurasian country with vast territories in East Asia its economic assets primarily arms and energy and careful management of its role in a multipolar East Asia with a complex balance of power *Russian Energy Strategy in the Asia-Pacific* Elizabeth Buchanan, 2021-06-01 Given Australia's lack of energy security strategy it is not surprising that the country is void of institutional knowledge and know how of Russian foreign energy strategy The lucky country as it were relies entirely on sea lines of communication to the north to supply fuel and to export Australian coal and natural gas Australia has entered the 2020s as the world's largest liquefied natural gas LNG exporter however maintaining complacency in Canberra's current export activities will ultimately lead to a long term security crisis This book critically examines Russian energy strategy in the Asia Pacific with a view to determining the security implications for Australia Russia is important for global energy security chains because of its vast resource wealth and its geographical position a pivotal position to supply both the European and Asian markets Australia has no such luxury geographically constrained as an island continent it relies on the nearby Asia Pacific import market to demand our energy and to facilitate the delivery of our national oil supplies Understanding Russian foreign energy strategy in the region is crucial given the growing energy requirements in Australia's emerging Asia Pacific arena **Russo-Chinese Energy Relations** Stephen Blank, 2006 This report makes the point that in both Russia and China it is politics and not market or commercial considerations that largely drive energy relationships with each other and the outside world For both countries energy and energy security is regarded as a strategic asset and or objective that are at risk from outside forces The conditions that each state has attached to their energy policies ironically preclude the kind of easy cooperation seen in other strategic and political issues between Moscow and Beijing In both Central and Northeast Asia Russia has blocked Chinese efforts to realize its version of energy security yet it has not been able to come up either with the resources or means for a coherent policy of supplying China with reliable quantities of energy that would lead China away from non Russian producers The under fulfilment of the potential for Russia to supply China will continue and continue as well to be a source of strain in their relationship **How the Far East Was Lost** Dr. Anthony Kubek, 2017-06-28 The Far Eastern policy pursued during the Roosevelt Truman administrations has long been the subject of spirited controversy among historians This volume first published in 1963 is the result of seven years of intensive research into a mass of documentary data dealing with the Communist conquest of China Professor Kubek discusses with unusual candor and clear vision the

many mistakes of the Roosevelt and Truman Administrations with reference to the Far East There are new data and fresh interpretations that lend additional evidence to support the contentions of earlier writers that the diplomacy of the Administrations of Roosevelt and Truman was disastrous in the extreme The strange actions of General Marshall in China and his blind policy while Secretary of State were chief factors in the loss of China to the Communists In a noteworthy chapter that all Americans should read Professor Kubek traces in damning detail the tragic role that Marshall played in the fall of Nationalist China This is a volume that will earn the sharpest criticisms of the motley hordes that crowded the Roosevelt and Truman bandwagons but it is a must book for any American who wants to know why the present sawdust Caesar Khrushchev can insult at will the President of the United States and can hurl continual threats to bury all Americans Soviet militate might is the direct product of billions of Democratic Lend Lease aid coddling of Communists in high places in the American Government and failure to understand the basic drives of world Communism Never before in our history was Presidential leadership so devoid of vision and never before had the mistakes of our Chief Executives been so fraught with peril to our nation Read this book and then begin to worry about how Americans will fare in the next decade Charles Callan Tansill Professor Emeritus of Diplomatic History Georgetown University Foreword **Russia at War** Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia s military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration Hearings, Reports and Prints of the Senate Committee on the Judiciary United States. whether race meant the same thing in the region as it did in the classic racialized regimes such as Nazi Germany and the United States to how race worked in Russia and the Soviet Union during various periods in time Approaching race as an ideology this book illuminates the complicated and sometimes contradictory intersection between ideas about race and racializing practices An essential reminder of the tensions and biases that have had a direct and lasting impact on Russia Ideologies of Race yields crucial insights into the global history of race and its ongoing effects in the contemporary world Contributors include Adrienne Edgar University of California Santa Barbara Aisha Khan New York University Alaina Lemon University of Michigan Susanna Soojung Lim University of Oregon Marina Mogilner University of Illinois Chicago Brigid O Keeffe Brooklyn College David Rainbow University of Houston Gunja SenGupta Brooklyn College Vera Tolz University of Manchester Anika Walke Washington University St Louis Barbara Weinstein New York University and Eric Weitz City University of New York
