On Lightness in World Literature B. Scott, 2013-11-07 Despite the apparent ubiquity of light literature and despite the greater cultural prestige it has been afforded in recent decades very little has been written on the adjective that actually defines this category What precisely does it signify and what are some of the key strategies by which the effect of lightness is achieved within literary discourse In this original and engaging study Bede Scott explores the aesthetic quality of lightness as demonstrated by a diverse range of narratives spanning four different centuries and five different countries In each case he focuses on a specific type of lightness whether it be the refined triviality of Sei Shonagon s Pillow Book the ludic tendencies of Joaquim Maria Machado de Assis Posthumous Memoirs of Br s Cubas or the exhilarating and primitive vitality of Voltaire s Candide By bringing together such disparate sources Scott makes a strong case for the universality of this particular aesthetic value while also subjecting its underlying structural features to close critical scrutiny

Nectar #5 Babaji Bob Kinder, Annapurna Sarada, Reyhan al-Jerrahi, Alan Hunter, Marisela Bracho, Arawana Hayashi, Akiko Masuda, Kristin Cato, Seta Chandran, 2001-10-31 If science art and religion are all open pathways when utilized properly we attempt in this issue to discover what true art consists of Ask the practitioner and inquire of the adept is the recourse we have resorted to herein Music poetry dance painting and film described in these pages are duly five sacred constituents of the infinite expanse of Advaitic experience We have heard seen possibly have even known what these sacred forms have suffered at the hands of people with a desire for fame a yen for pleasure and the singular search for wealth that occludes and excludes all other considerations The sweet exalted and transporting presence of God simply disappears from the medium and atmosphere which covets such fugacious spurious and soporific attainments Led on by artists who support a mere masquerade of true attainment beings rush to the affluent and the popular for their inner fulfillment scarcely ever experiencing the superlative presence of divinity residing in pure artistic

expression Thus the authentic luminaries of art science and religion seldom get recognized by the masses and the masses then have little recourse and access to the more profound insights and inspirations of the various refined fields How is music made sacred Is it sacred already Is all dance divine Does all poetry reflect the divine muse within Do all works of art speak of the highest realization Does it really matter or is all realization like beauty in the eye of the beholder Possibly some of these questions may find answers in the following pages But if not suffice to say that where the medium is purified where a lustral regimen has been adhered to there spiritualized expression will reach its zenith When sensitive artists seeking the highest place their gifts and talents in action and offer the fruits of such before the world they must first and necessarily have subjected them to purification and intensification Any instrument whether it be a metal tube or a fleshy tube a wooden box with strings or a metal box containing film a tome of writings a paintbrush or the human body is always under the control of consciousness Like different conditions of water some fit for drinking some for swimming some for washing dishes and some only for carrying waste the consciousness of human minds is also pure or impure as the case may be In artistic endeavor then as in spiritual practice purification of what is limited or impure renders the medium fit to emanate the truth or essence of any given expression such as inspired choreography a masterpiece on canvas an original composition a unique film or a work of literary genius all which have the ability to transform lives So here is the acid test with regards to true artforms at least for the discriminating person As is consistent with all modes of existence with work dreams visions relative experiences of all types if they help reveal the divine essence in human nature and assist human character by way of positive accretion then they can be said to be real authentic and ultimately meaningful Otherwise too much distraction and wasted energy plague them as well as their host all amounting to vanity and vexation of human spirit
