Bangkok Bound Ellen Boccuzzi, 2012-12-01 With the acceleration of global migration literature by migrant writers has emerged as a powerful medium for describing the ways in which global forces are experienced at the personal level Migrant literature offers a compelling counter narrative to abstract visions of globalization grounding large scale processes in real life stories of individuals In Thailand migrant writers have documented the social and cultural impacts of fifty years of rural urban migration through hundreds of stories poems and novels *Bangkok Bound* is the

first book to examine this body of literature and the messages that Thai migrant writers convey about their experiences. These stories powerfully describe the ways in which migrants who leave their homes bound for Bangkok are quickly bound to Bangkok through the transformative force of modern city life. And they show the ways in which those who remain behind in the village are transformed too as they struggle to maintain a rural way of life in a rapidly urbanizing world. Bangkok Bound will be of interest to anyone working on migration or urbanization as well as to scholars of Thailand and Thai literature. Specialists in migration will find it a welcome addition to the growing field of migration studies through examination of narrative fiction. What others are saying: This is an engaging and authoritative study of literary representations of migration from the provinces to Bangkok based on wide reading of short stories written over the last four decades and interviews with major writers and critics. It will be of interest not only to students of literature but also to anyone interested in social change in Thailand in the late twentieth century and the way that it has been perceived and recorded by local writers. David Smyth, SOAS University of London. Highlights: Useful for an introductory course on Thai or Southeast Asian studies; offers a springboard for conversations on development, rural-urban inequality, migration, and the impacts of rapid urbanization in Asia. First book to examine the theme of migration in Thai literature; a significant contemporary genre. Contributes to the growing field of migration studies through examination of narrative fiction. Provides a window into how migration and urbanization are experienced at the personal level of interest to migration scholars as well as scholars of Thailand, Thai cultural studies, and Thai literature.
