Babies and Young Children Marian Beaver, 2004 Provides comprehensive coverage of the mandatory and optional units of the NVQ 2 specification This book references performance criteria throughout enabling students to see which activities they are covering at any time It is endorsed by City and Guilds

Reflexive Practice Angela Mary Lisle, 2010-07-06 At the heart of this book is the notion of reflexive practice as a meta cognitive self reflexive learning style for personal and professional development Reflexive practice is covered in a multidimensional way It is examined as part of the personal development of a student as personal development of the educator and as a thinking style of the individual in the agency structure dialectic of the global post modern human condition and the place of early childhood education if not education per se within that international contextual framework In addition reflexive practice is examined as a phenomenon in itself as a behaviour emergent of biology Piagetian genetic epistemology within the psychophysical social context of the Marxian Vygotskian historical materialist dialectic It takes an interactionist stance that is the view that ontogenetic development is an outcome of nature and nurture Thus its discourse is mainly psychological with input from other disciplines where there is overlap of concepts or concerns with theoretical insights Its historical roots start from the enlightenment philosophy through to postmodern philosophy culminating into psychophysics The philosophy of methodology for example of reflexive practice is examined from the critical theory of Marx and the use of dialectics manifest within post modernity as the reflexive turn Both Schns notion of reflexive practice as a critical conversation with the situation used in education and by psychologists within social work and counselling are examined The neuropsychology of reflexive practice is also examined and theorised as the psychophysics of brain mind The psychophysics of brain mind is in addition examined in the way it connects to learning style discourses such as the visual auditory and kinaesthetic modalities the brain exuberates These learning styles coalesce within the active learning approach the Marxian Vygotskian method of learning A secondary thread that runs through the chapters is the notion of dialectic The individual identity is woven with the richness senses bring and values that emotions weave with the evolving world as the agency structure dialectic of development continues its journey Thus reflexive practice as a cycle of learning that converts into development and that is the basis for the development of identity the ontogenetic development of the individual is examined on several plains For example what is the childs site of negotiation within the everyday postmodern world or the students site of negotiation within this rich construal of discourses and how are the professional and personal juxtaposed compromised and or resolved Reflexive practice as a critique of practice and search for truths within ones social context is catalyst for agency and truth of ones real place within the human condition to bring about emancipation Identity formation as a social psychological phenomenon is political as well as cultural and geographically located In terms of polity does parliament stand as guardian to practices within education and social welfare or is it but one influence inside the elaborate arena of negotiation In the present economic climate as western societies embrace their

margins the bounded nations and othernesses twinned sites of local and local with global changes of emergencies bubble up in a glowing spectra the UK is but one physicality of many as all that is solid melts into air Marx Economic 1890 The final encounter may well be one of total eclipse or a unified glorification as global capitalism struggles for its feet hovering beneath its own carriage on a blanket of air without the support of the industrial base Money paper alone will not support the march of capitalist accumulation As inflation rises and gross national product falls mindful of the fact that debit accounts are debt in the guise of growth without anything but words on paper to support them

A Practical Guide to Working with Parents Christine Hobart, 2003 Working with parents is a key competence required in all areas of child care employment and this much needed resource provides thorough coverage of this important area Unlike other books this guide offers a comprehensive yet truly practical approach to all aspects of working with parents and is a valuable addition to the best selling Practical Guide series
