S Of Beliefs:

Contextualisms in Epistemology Elke Brendel, Christoph Jäger, 2005-03-02 Contextualism has become one of the leading paradigms in contemporary epistemology According to this view there is no context independent standard of knowledge and as a result all knowledge ascriptions are context sensitive Contextualists contend that their account of this analysis allows us to resolve some major epistemological problems such as skeptical paradoxes and the lottery paradox and that it helps us explain various other linguistic data about knowledge ascriptions The apparent ease with which contextualism seems to solve numerous epistemological quandaries has inspired the burgeoning interest in it This comprehensive anthology collects twenty original essays and critical commentaries on different aspects of contextualism written by leading philosophers on the topic The editors introduction sketches the historical development of the contextualist movement and provides a survey and analysis of its arguments and major positions The papers explore inter alia the central problems and prospects of semantic or conversational contextualism and its main alternative approaches such as inferential or issue contextualism epistemic contextualism and virtue contextualism They also investigate the connections between contextualism and epistemic particularism and between contextualism and stability accounts of knowledge Elke Brendel is Professor of Philosophy at the Johannes Gutenberg University in Mainz Germany She has published numerous articles on logic epistemology the philosophy of science and the philosophy of language She is the author of *Die Wahrheit über den Lügner* The Truth About the Liar 1992 *Grundzüge der Logik II Klassen Relationen Zahlen Foundations of Logic II Sets Relations Numbers* with Wilhelm K Essler 1993 and *Wahrheit und Wissen Truth and Knowledge* 1999 Christoph Jäger is Lecturer in Philosophy at Aberdeen University United Kingdom and Privatdozent of Philosophy honorary office at the University of Leipzig Germany He has published numerous articles on epistemology the philosophy of mind and the philosophy of religion Books *Selbstreferenz und Selbstbewusstsein Self reference and Self knowledge* 1999 *Analytische Religionsphilosophie Analytic Philosophy of Religion* ed 1998 *Kunst und Erkenntnis Art and Knowledge* ed with Georg Meggle 2004 *Religion und Rationalität Religion and Rationality* forthcoming **Knowledge and Reality** Colin McGinn, 1999-01-28 Knowledge and Reality brings together a selection of Colin McGinn's philosophical essays from the 1970s to the 1990s whose unifying theme is the relation between the mind and the world The essays range over a set of prominent topics in contemporary philosophy including the analysis of knowledge the a priori necessity possible worlds realism mental representation appearance and reality and colour McGinn has written a new postscript to each essay placing it in its philosophical context by sketching the background against which it was written explaining its relations to other notable work and offering his current reflections on the topic The volume thus traces the development of McGinn's ideas and their role in some central philosophical debates Seen together the essays offer a many sided defence of realism while emphasizing the epistemological price that realism exacts **The Psychology of Eyewitness Identification** James Michael Lampinen, Jeffrey S. Neuschatz, Andrew D.

Cling,2012-04-27 This volume provides a tutorial review and evaluation of scientific research on the accuracy and reliability of eyewitness identification The book starts with the perspective that there are a variety of conceptual and empirical problems with eyewitness identification as a form of forensic evidence just as there are a variety of problems with other forms of forensic evidence There is then an examination of the important results in the study of eyewitness memory and the implications of this research for psychological theory and for social and legal policy The volume takes the perspective that research on eyewitness identification can be seen as the paradigmatic example of how psychological science can be successfully applied to real world problems

A Priori Justification Albert Casullo,2003-03-13 The major divide in contemporary epistemology is between those who embrace and those who reject a priori knowledge Albert Casullo provides a systematic treatment of the primary epistemological issues associated with the controversy By freeing the a priori from traditional assumptions about the nature of knowledge and justification he offers a novel approach to resolving these issues which assigns a prominent role to empirical evidence He concludes by arguing that traditional approaches to the a priori which focus primarily on the concepts of necessity and analyticity are misguided

Structural Reliabilism P. Kawalec,2012-12-06 Kawalec s monograph is a novel defence of the programme of inductive logic developed initially by Rudolf Carnap in the 1950s and Jaakko Hintikka in the 1960s It revives inductive logic by bringing out the underlying epistemology The main strength of the work is its link between inductive logic and contemporary discussions of epistemology Through this perspective the author succeeds to shed new light on the significance of inductive logic The resulting structural reliabilist theory propounds the view that justification supervenes on syntactic and semantic properties of sentences as justification bearers The claim is made that this sets up a genuine alternative to the prevailing theories of justification Kawalec substantiates this claim by confronting structural reliabilism with a number of epistemological problems Kawalec writes in a clear manner makes his theses and arguments explicit and gives ample bibliographical references

Semantic Externalism Jesper Kallestrup, 2013-03 Semantic externalism is the view that the meanings of referring terms and the contents of beliefs that are expressed by those terms are not fully determined by factors internal to the speaker but are instead bound up with the environment The debate about semantic externalism is one of the most important but difficult topics in philosophy of mind and language and has consequences for our understanding of the role of social institutions and the physical environment in constituting language and the mind In this long needed book Jesper Kallestrup provides an invaluable map of the problem Beginning with a thorough introduction to the theories of descriptivism and referentialism and the work of Frege and Kripke Kallestrup moves on to analyse Putnam's Twin Earth argument Burge's arthritis argument and Davidson's Swampman argument He also discusses how semantic externalism is at the heart of important topics such as indexical thoughts epistemological skepticism self knowledge and mental causation Including chapter summaries a glossary of terms and an annotated guide to further reading Semantic Externalism an ideal guide for students studying philosophy of language and philosophy of mind

epistemological theory **Pragmatic Encroachment in Epistemology** Brian Kim, Matthew McGrath, 2018-10-25

According to philosophical lore epistemological orthodoxy is a purist epistemology in which epistemic concepts such as belief evidence and knowledge are characterized to be pure and free from practical concerns In recent years the debate has focused narrowly on the concept of knowledge and a number of challenges have been posed against the orthodox purist view of knowledge While the debate about knowledge is still a lively one the pragmatic exploration in epistemology has just begun This collection takes on the task of expanding this exploration into new areas It discusses how the practical might encroach on all areas of our epistemic lives from the way we think about belief confidence probability and evidence to our ideas about epistemic value and excellence The contributors also delve into the ramifications of pragmatic views in epistemology for questions about the value of knowledge and its practical role Pragmatic Encroachment in Epistemology will be of interest to a broad range of epistemologists as well as scholars working on virtue theory and practical reason

Family Communication at the End of Life Maureen P. Keeley, 2018-03-23 This book is a printed edition of the Special

Issue Family Communication at the End of Life that was published in Behavioral Sciences *Justification and Knowledge* G. S. Pappas, 2012-12-06 With one exception all of the papers in this volume were originally presented at a conference held in April 1978 at The Ohio State University The exception is the paper by Wilfrid Sellars which is a revised version of a paper he originally published in the Journal of Philosophy 1973 However the present version of Sellars paper is so thoroughly changed from its original that it is now virtually a new paper None of the other nine papers has been published previously The bibliography prepared by Nancy Kelsik is very extensive and it is tempting to think that it is complete But I believe that virtual completeness is more likely to prove correct The conference was made possible by grants from the College of Humanities and the Graduate School Ohio State University as well as by a grant from the Philosophy Department On behalf of the contributors I want to thank these institutions for their support I also want to thank Marshall Swain and Robert Turnbull for early help and encouragement Bette Hellinger for assistance in setting up the conference and Mary Raines and Virginia Foster for considerable aid in the preparation of papers and many other conference matters The friendly advice of the late James Cornman was also importantly helpful April 1979 GEORGE S PAPPAS ix INTRODUCTION The papers in this volume deal in different ways with the related issues of epistemic justification or warrant and the analysis of factual knowledge

Values and Morals A.I. Goldman, Jaegwon Kim, 2013-03-09 This Festschrift seeks to honor three highly distinguished scholars in the Department of Philosophy University of Michigan William K Frankena Charles L Stevenson and Richard B Brandt Each has made significant contributions to the philosophic literature particularly in the field of ethics Michigan has been fortunate in having three such original and productive moral philosophers serving on its faculty simultaneously Yet they stand in a long tradition of excellence both within the Department and in the University Let us trace that tradition briefly The University of Michigan opened in 1841 Its Department of Literature Science and the Arts at first resembled a typical American college of that period with religious and ethical indoctrination playing a central role in course offerings But when Henry Tappan a Presbyterian clergyman and Professor of philosophy became President in 1852 he succeeded in shifting the emphasis from indoctrination to inquiry and scholarship Though he was dismissed for his policies in 1863 Tappan's efforts to establish a broad and liberal curriculum prevailed Michigan was to take its place among the leading educational institutions in this country and to achieve an international reputation as a research center Several past philosophers are worthy of mention here George Sylvester Morris an absolute idealist joined the Department in 1881 having served from 1870 as Chairman of the Department of Modern Languages and Literature He assumed the Chairmanship of Philosophy in 1884

The Current State of the Coherence Theory J. Bender, 2012-12-06 The subtitle of this book should be read as a qualification as much as an elaboration of the title If the goal were completeness then this book would have included essays on the work of other philosophers such as Wilfrid Sellars Nicholas Rescher Donald Davidson Gilbert Harman and Michael Williams Although it would be incorrect to say that each of these writers has set forth a version of the coherence theory of justification and knowledge it is clear that their work is directly relevant and reaction to it could easily fill a companion volume This book concentrates however on the theories of Keith Lehrer and Laurence Bonjour and I doubt that any epistemologist would deny that they are presently the two leading proponents of coherentism A sure indication of this was the ease with which the papers in this volume were solicited and delivered The many authors represented here were willing prepared and excited to join in the discussion of Bonjour's and Lehrer's recent writings I thank each one personally for agreeing so freely to contribute All of the essays but two are published for the first time here Marshall Swain's and Alvin Goldman's papers were originally presented at a symposium on Bonjour's The Structure of Empirical Knowledge at the annual meeting of the Central Division of the American Philosophical Association Chicago Illinois in April 1987
