Shaping a Qur'anic Worldview Vanessa De Gifis, 2014-04-16 Exploring the subjectivity of the Qur n s meaning in the world this book analyses Qur nic referencing in Muslim political rhetoric Informed by classical Arabic Islamic rhetorical theory the author examines Arabic documents attributed to the Abb sid Caliph al Ma m n r 813 833 whose rule coincided with the maturation of classical Islamic political thought and literary culture She demonstrates how Qur nic referencing functions as tropological exegesis whereby verses in the Qur n are reinterpreted through the lens of subjective experience At the same time socio historical experiences are understood in terms of the Qur n s moral typology which consists of interrelated polarities that define good and bad moral characters in mutual orientation Through strategic deployment of scriptural references within the logical scheme of rhetorical argument the Caliph constructs moral analogies between paradigmatic characters in the Qur n and people in his social milieu and situates himself as moral reformer and guide in order to persuade his audiences of the necessity of the Caliphate and the religio moral imperative of obedience to his authority The Ma m nid case study is indicative of the nature and function of Qur nic referencing across historical periods and thus contributes to broader conversations about the impact of the Qur n on the shaping of Islamic civilization This book is an invaluable resource for those with an interest in Early Islamic History Islam and the rhetoric of contemporary Middle East regional and global Islamic politics

William Gilmore Simms's Selected Reviews on Literature and Civilization William Gilmore Simms, 2014-02-07 During William Gilmore Simms's life 1806-1870 book reviews and critical essays became vital parts of American literary culture and intellectual discourse Simms was an assiduous reviewer and essayist proving by example the importance of those genres William Gilmore Simms's *Selected Reviews on Literature and Civilization* publishes for the first time in book form sixty-two examples of the writer's hundreds of newspaper and periodical reviews and book notes as well as four important critical essays Together the reviews and essays reveal the regional national and international dimensions of Simms's intellectual interests To frame the two distinct parts of *Selected Reviews* James Everett Kibler Jr and David Moltke Hansen have written a general introduction that considers the development of book reviewing and the authorship of essays in cultural and historical contexts In part one Kibler offers an introduction that examines Simms's reviewing habits and the aesthetic and critical values that informed the author's reviews Kibler then publishes selected texts of reviews and provides historical and cultural backgrounds for each selection Simms was an early proponent of the critical theories of Romantics such as William Wordsworth Samuel Taylor Coleridge and Edgar Allan Poe Widely read in European history and literature he reviewed works published in French German and classics in original Greek and Latin and in translation Simms also was an early ardent advocate of works of local color and of southern backwoods humorists of his day Simms published notices of seven of Herman Melville's novels the writings of Ralph Waldo Emerson and favorably reviewed Henry David Thoreau's *Walden* or *Life in the*

Woods Simms published numerous review essays of twenty thousand or more words in literary journals and also republished two collections in book form. These volumes treated such subjects as Americanism in literature and the American Revolution in South Carolina. Yet as part two of *Selected Reviews* demonstrates, Simms ranged much more widely in the intellectual milieu. Such cultural and political topics as the 1848 revolution in France, the history of the literary essay, the roles of women in the American Revolution, and the activities of the southern convention in Nashville in 1850 captured Simms's attention. Moltke Hansen's introduction to part two examines Simms's roles in and responses to the Romantic critical revolution and the other revolutions then roiling Europe and America.
