**Hawker's Secret Cold War Airfield** Christopher Budgen, 2020-11-23 A military aviation expert chronicles the decades of breathtaking innovation that took place at Britain's secret airbase In 1951 Hawker Aircraft started using Dunsfold Aerodrome to test its new jet projects The Sea Hawk was followed by the superlative Hunter Then came a radical new engine design for an aircraft capable of vertical take off and landing While nay sayers claimed it would never work the Harrier proved them wrong becoming a vital asset during the Falklands War Then came the Hawk which after completion of the RAF requirement was sold into air arms across the world including the US Navy It was an incredible achievement for a UK design British Aerospace then brought forth its upgraded Harrier the Harrier GR 5 One might expect that this prolific output was the result of some massive industrial plant in the Midlands rather than an isolated aerodrome tucked in the rural hinterland of south Surrey Shrouded in secrecy for most of its life Dunsfold has largely escaped the notice of the general public This volume shines a light on the remarkable work carried out there

**Hawker Hunter in British Service** Martin Derry, Neil Robinson, 2019-09-30 For any enthusiast and or modeler of the Hawker Hunter this book will be like catnip outstanding images of this classic post war aircraft Vintage Airfix Initially introduced in 1954 as a swept wing transonic single seat day interceptor the Hawker Hunter rapidly succeeded the first generation jet fighters in RAF service such as the Gloster Meteor and the de Havilland Venom Powered by the then newly developed Rolls Royce Avon turbojet the Hunter's performance transformed the RAF's day fighter squadrons from the mid 1950s until the advent of the English Electric Lightning from the early 1960s Even then as successively improved variants of the type were produced with increasingly more capable engines and expanded fuel capacity the Hunter successfully transitioned into a strike ground attack fighter bomber and fighter reconnaissance platform Two seat variants were developed for training and other secondary roles with the RAF and the Royal Navy and a few remained in use until 2001 albeit with specialized MoD Test and Evaluation units well over forty years after the type's initial introduction This addition to the Flight Craft series follows our well established format in that it is split into three primary sections The first covers the Hawker Hunter using numerous photographs informative captions and tables The second is a 16 page full color illustration section featuring detailed profiles and 2 views of many of the color schemes and markings carried by Hunters The final section lists as many injection molded plastic model kits of the Hunter in all the major scales that the authors could obtain plus a photo gallery of models made by some of the world's best modelers A delight for anyone modeling a Hunter as it is so comprehensive British Military History
