Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000 D. J. Hoek, 2007-02-15 The latest volume in the Music Library Association's Index and Bibliography series *Analyses of Nineteenth and Twentieth Century Music 1940-2000* features over 9 000 references to analyses of works by more than 1 000 composers of the nineteenth and twentieth centuries. References that address form, harmony, melody, rhythm, and other structural elements of musical compositions have been compiled into this valuable resource. This update of Arthur Wenk's well-known bibliography last published in 1987 includes all the original entries from that work along with additional references through 2000. International in scope, the bibliography covers writings in English, French, German, Italian, and other European languages and draws from 167 periodicals as well as important theses, dissertations, books, and *Festschriften*. References are arranged alphabetically by composer and include subheadings for specific works and genres. This bibliography provides students, scholars, performers, and librarians with broad coverage, detailed indexing, and ready access to a large and diverse body of analytical literature on nineteenth and twentieth-century music.

Western Plainchant in the First Millennium Sean Gallagher, 2017-07-05 Taking up questions and issues in early chant studies, this volume of essays addresses some of the topics raised in James McKinnon's *The Advent Project: The Later Seventh Century Creation of the Roman Mass*, the last book before his untimely death in February 1999. A distinguished group of chant scholars examine the formation of the liturgy, issues of theory and notation, and Carolingian and post-Carolingian chant. Special studies include the origins of musical notations, nuances of early chant performance with accompanying CD, musical style and liturgical structure in the early Divine Office, and new sources for Old Roman chant. *Western Plainchant in the First Millennium* offers new information and new insights about a period of crucial importance in the growth of the liturgy and music of the Western Church.

La théorie de la musique antique et médiévale Michel Huglo, 2023-07-28 This is the final volume in the set of four collections of Michel Huglo's articles to be published in the *Variorum* series and focuses on medieval music theory. The point of departure for Huglo's research was his doctoral dissertation on tonaries published in 1971; as a consequence, he studied the manuscripts of music theory concerning plainchant and later those with writings on music by authors of Late Antiquity as well as the *Liber glossarum* with its many definitions of musical terms. In this volume, certain articles consider the interpretation or dissemination of texts, instruction in the art of plainchant, and musical instruction at the university. Others concern the manuscripts of St. Augustine's *De musica* and of the writings of Calcidius, Macrobius, Helisachar, Hucbald, Gerbert of Aurillac, Abbo of Fleury, John of Afflighem, and Hieronymus de Moravia, among others. The volume closes with a bibliography of Michel Huglo complementing that published in 1993 and a summary list of his reviews of books on music and liturgy.  musique et la liturgie **Chant and its Origins** ThomasForrest Kelly,2017-07-05 The Latin liturgical music of the medieval
 church is the earliest body of Western music to survive in a more or less complete form It is a body of thousands of individual
 pieces of striking beauty and aesthetic appeal which has the special quality of embodying of giving voice to the words of the
 liturgy itself Plainchant is the music that underpins essentially all other music of the middle ages and far beyond and is the
 music that is most abundantly preserved It is a subject that has engaged a great deal of research and debate in the last fifty
 years and the nature of the complex issues that have recently arisen in research on chant are explored here in an overview of
 current issues and problems Music in Medieval Europe Alma Santosuosso,2017-07-05 This book presents the most recent

 All the papers are carefully and extensively documented by references to medieval sources Embellishing the Liturgy
 Alejandro Enrique Planchart,2017-07-05 After the imposition of Gregorian chant upon most of Europe by the authority of the
 Carolingian kings and emperors in the eighth and ninth centuries a large number of repertories arose in connection with the
 new chant and its liturgy Of these repertories the tropes together with the sequences represent the main creative activity of
 European musicians in the ninth tenth and eleventh centuries Because they were not an absolutely official part of the liturgy
 as was Gregorian chant they reflect local traditions particularly in terms of melody and more so than the new pieces that
 were composed at the time In addition the earlier layers of tropes represent in many cases a survival of the pre local pre
 Gregorian melodic traditions This volume provides an introduction to the study of tropes in the form of an extensive
 anthology of major studies and a comprehensive bibliography and constitutes a classic reference resource for the study of
