increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
