Christian Goddess Spirituality Mary Ann Beavis, 2015-10-08

This monograph focuses on Christian Goddess Spirituality CGS the phenomenon of mostly women who combine Christianity and Goddess Spirituality including Wicca Witchcraft Mary Ann Beavis's study provides ethnographic data and analysis on the lived religious experience of CGS practitioners drawing on interviews of over 100 women who self identify as combining Christianity and Goddess spirituality Although CGS also has implications for Goddess Spirituality and related traditions e.g Neopaganism Wicca here CGS is considered primarily as a phenomenon within Christianity However the study also shows that the fusion of Christian and Goddess spiritualities has had an impact on non Christian feminist spirituality since Goddess worshippers have often constructed Christianity as the diametrical opposite and enemy of the Goddess to the point that some

refuse to admit the possibility that CGS is a valid spiritual path or that it is even possible In addition biblical Jewish and Christian images of the divine such as Sophia Shekhinah the Virgin Mary and even Mary Magdalene have found their way into the Pagan Goddess pantheon The main themes of the study include overlaps and differences between Christian feminist theology and CGS the routes to CGS for individual practitioners and their beliefs practices and experiences proto denominational classifications spiritual paths within CGS CGS theology Christian discourse about the female divine and the future of CGS in social scientific and ecclesiological context Christian Goddess Spirituality will be of interest to scholars of religion especially those with interests in women and religion feminist spiritualities feminist theology theology alternative spiritualities New Religious Movements and emergent Christianities New Age Journal ,1996 **Los Angeles Magazine** ,1996-11 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian *The Publishers Weekly* ,2001 Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 **The Shamaness in Asia** Davide Torri,Sophie Roche,2020-10-08 This book concentrates on female shamanisms in Asia and their relationship with the state and other religions offering a perspective on gender and shamanism that has often been neglected in previous accounts An international range of contributors cover a broad geographical scope ranging from Siberia to South Asia and Iran to Japan Several key themes are considered including the role of bureaucratic established religions in integrating challenging and fighting shamanic practices the position of women within shamanic complexes and perceptions of the body Beginning with a chapter that places the shamaness at the centre of the discussion chapters then approach these issues in a variety of ways from historically informed accounts to presenting the findings of extensive ethnographic research by the authors themselves Offering an important counterbalance to male dominated accounts of shamanism this book will be of great interest to scholars of Indigenous Peoples across Religious Studies Anthropology Asian Studies and Gender Studies Islam in South Asia in Practice Barbara D.
