Sacred Scriptures Of World Religion 3ed:

Sacred Scriptures of the World Religions Joan Price, 2010-02-17 Price examines religions across the world offering an insight into each tradition's views of the world through their scriptural texts and spiritual practices The World Religions Reader Gwilym Beckerlegge, 2001 Gathers together material on six of the world's most influential faiths with readings drawn from a broad range of historical and contemporary sources Third World Theologies K. C. Abraham, 2004-10-28 Third World theology has grown and developed in recent decades largely due to the efforts and activities of the Ecumenical Association of Third World Theologians EATWOT The present volume arising from their Second General Assembly is an ideal introduction to this emerging movement exploring both the common bonds that unite Third World theologies and the distinctive elements and concerns that distinguish them from one another Bringing together reflections and evaluations from world renowned theologians Third World Theologies offers an overview of the state of theology and its political economic and social context in Africa Asia Latin America and among minorities in the United States It then addresses the specific commonalities and divergences of these theologies exploring the interplay of concern for issues of class race sex and culture Third World Theologies concludes with an evaluation of the development past and future of EATWOT itself which represents in its own history the development of Third World theology Confucianism as a World Religion Anna Xiao Dong Sun, 2013 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century

Approaching the World's Religions, Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those

traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue

Introduction to World Religions Christopher Partridge, 2018-07-01 This leading textbook for world religion is designed to help students in their study and research of the world's religious traditions. Known and valued for its balanced approach and its respected board of consulting editors, this text addresses ways to study religion, provides broad coverage of diverse religions, and offers an arresting layout with rich illustrations. Introductory sections on understanding religion and the religions of antiquity lay the foundation for the study of the numerous religious traditions highlighted in the volume, including indigenous religions, Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. This third edition has several updates, including a new design, a new section on women and religion, and a newly revised section on religions in today's world.

Atlas of Religion in China: Social and Geographical Contexts Fenggang Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society. This unique atlas presents a bird's-eye view of the religious landscape in China today. In more than 150 full-color maps and six different case studies, it maps the officially registered venues of China's major religions: Buddhism, Christianity, Protestant and Catholic Daoism, and Islam at the national, provincial, and county levels. The atlas also outlines the contours of Confucianism, folk religion, and the Mao cult. Further, it describes the main organizations, beliefs, and rituals of China's main religions, as well as the social and demographic characteristics of their respective believers. Putting multiple religions side by side in their contexts, this atlas deploys the latest qualitative, quantitative, and spatial data acquired from censuses, surveys, and fieldwork to offer a definitive overview of religion in contemporary China. An essential resource for all scholars and students of religion and society in China.

Discovering the Bible in the Non-Biblical World Pui-Lan Kwok, 2003-09-16 As a Chinese woman, a feminist theologian, and a biblical scholar, Pui-lan Kwok brings a new perspective and voice to the task of hermeneutics. Her multidimensional reading of the Bible draws on a tradition much older than that of the West while it simultaneously incorporates the insights of contemporary feminist and Third World theologies. Seeing herself as wanderer between the worlds of East and West, Pui-lan Kwok draws on the work of contemporary biblical scholars as well as the millennia-old commentaries on the Book of Change, the Dao de Jing, and the Bhagavad Gita. Her creativity and imagination come into play as she gradually inseparably links reader, text, and context. The first three chapters locate the context from which she approaches the Bible as an Asian woman. Pui-lan considers Asian traditions as well as the social biography of Asian peoples and discusses the complex issues of using the Bible in feminist theology. Chapters Four and Five approach the unique Asian

context with its long traditions of orality and exegesis of ancient scriptures Chapter Six analyzes the challenges of Asian critics to western interpretations of scripture and raises sharp issues of colonial oppression Finally *Discovering the Bible in the Non Biblical World* shows how the multiple oppressions of women provide a context for rediscovering the Bible's liberating message Must reading for anyone engaged in biblical studies cross cultural education and feminist theology I highly recommend this richly instructive and powerful book Elisabeth Schassler Fiorenza Harvard Divinity School An important addition to the fast growing literature on Asian biblical discourse R S Sugirtharajah University of Birmingham A significant contribution to the hermeneutical conversation arising from the global context of reading of the Bible Sharon H Hinge Wesley Theological Seminary *Church, Liberation and World Religions* Mario I. Aguilar, 2012-11-02 This work proposes a theological investigation of the community of the Church as outlined by liberation theology and a possible conversation with liberation from suffering in Tibetan Buddhism What unites both is the human process of sublimation for others whereby liberation theologians as well as enlightened lamas give the best of themselves for the liberation of others At this stage of discussions between inclusivists and exclusivists this work proposes that dialogue with world religions and therefore with Buddhism is not about finding possible dogmatic similarities but a common place a common purpose through a common humanity
