**The Instrumental Music of Schmeltzer, Biber, Muffat and their Contemporaries** Charles E. Brewer, 2016-12-05 Based on primary sources many of which have never been published or examined in detail this book examines the music of the late seventeenth century composers Biber Schmeltzer and Muffat and the compositions preserved in the extensive Moravian archives in Kromeriz These works have never before been fully examined in the cultural and conceptual contexts of their time Charles E Brewer sets these composers and their music within a framework that first examines the basic Baroque concepts of instrumental style and then provides a context for the specific works The dances of Schmeltzer for example functioned both as incidental music in Viennese operas and as music for elaborate court pantomimes and balls These same cultural practices also account for some of Biber s most programmatic music which accompanied similar entertainments in Kromeriz and Salzburg The many sonatas by these composers have also been misunderstood by not being placed in a context where it was normal to be entertained in church and edified in court Many of the works discussed here remain unpublished but have in recent years been recorded This book enhances our understanding and appreciation of these recordings by providing an analysis of the context in which the works were first performed

Shaner,2018-03-01 *Enslaved* persons were ubiquitous in the first and second century CE Roman Empire and early Christian texts reflect this fact Yet the implications of enslaved presence in religious practices are under examined in early Christian and Roman history *Enslaved Leadership in Early Christianity* argues that enslaved persons roles in civic and religious activities were contested in many religious groups throughout ancient cities including communities connected with Paul s legacy This power struggle emerges as the book examines urban spaces inscriptions images and literature from ancient Ephesos and its environs *Enslaved Leadership* breaks new ground in analyzing archaeology and texts asking how each attempts to persuade viewers readers and inhabitants of the city Thus this book paints a complex picture of enslaved life in Asia Minor a picture that illustrates how enslaved persons enacted roles of religious and civic significance that potentially upended social hierarchies privileging wealthy slave holding men Enslaved persons were religious specialists priests and leaders in cultic groups including early Christian groups Yet even as the enslaved engaged in such authoritative roles Roman slavery was not a benign institution nor were all early Christians kinder and more egalitarian to slaves Both early Christian texts such as Philemon 1 Timothy Ignatius letters and the archaeological finds from Asia Minor defend construct and clarify the hierarchies that kept enslaved persons under the control of their masters *Enslaved Leadership* illustrates a historical world in which control of slaves must continually be asserted Yet this assertion of control raises a question Why does enslaved subordination need to be so frequently re established particularly through violence the threat of social death and assertions of subordination
