Molendijk,2016-07-21 This volume offers a critical analysis of one the most ambitious editorial projects of late Victorian Britain the edition of the fifty substantial volumes of the Sacred Books of the East 1879 1910 The series was edited and conceptualized by Friedrich Max M ller 1823 1900 a world famous German born philologist orientalist and religious scholar M ller and his influential Oxford colleagues secured financial support from the India Office of the British Empire and from Oxford University Press Arie L Molendijk documents how the series has become a landmark in the development of the humanities especially the study of religion and language in the second half of the nineteenth century The edition also contributed significantly to the Western perception of the religious or even mystic East which was textually represented in English translations The series was a token of the rise of big science and textualized the East by selecting their sacred books and bringing them under the power of western scholarship **Eastern Religions** Hillary P. Sacred Books of the East ,1882 **Eastern Catholic Theology in Action** Andrew J. Summerson,Cyril

Kennedy,2024-10-11 The Second Vatican Council urged Eastern Catholics to cultivate their share of divine revelation for the benefit of the entire Catholic Church Yet more than 50 years later the Eastern Catholic Churches frequently remain on the

margins both in the theological academy and in the life of the Church more broadly In an effort to remedy this situation at least in part this volume offers a scholarly reflection on the unique patrimony of the Eastern Catholic Churches divided according to the categories of Liturgy Theology Spirituality Discipline and Culture In so doing it both follows the categories used to define a Church sui iuris in the Code of Canon Law for the Eastern Churches and builds on the legacy of the Rev Peter Galadza to whom the volume is dedicated On one hand the volume and its essays are intentionally introductory revealing the worlds of Eastern Catholicism and the variety of theological approaches that take place there Emerging in part from the experience of teaching and preaching by scholars of Eastern Christianity who are frequently asked for a basic introduction to Eastern Catholic theology and have little to offer in response these essays gather an international group of scholars engaging in critical theological reflection from an Eastern Catholic perspective This approach is rounded out by contributions from Roman Catholic Orthodox and Protestant scholars who articulate their own reception and appreciation of the Eastern Catholic theological heritage At the same time however several of the essays in this volume relate the history and current reality of Eastern Catholicism to the Orthodox and Roman Catholic Churches yet without ignoring how frequently Eastern Catholics live worship and theologize without self conscious regard for their unique ecclesial situation Indeed these authors show Eastern Catholic theology can be unself consciously grounded in the patristic tradition and Eastern Catholics can simply do theology without worrying about ecclesial politics Readers will thus find here the best of both worlds both an introduction to the unique and frequently ignored patrimony of the Eastern Catholic Churches and a series of essays that avoids the all too common pitfall of reducing these traditions to a parody of other Churches Eastern or Western Instead by engaging with the sources of the Christian tradition as Eastern Catholics yes but first and foremost as Christians the authors reveal how much their tradition can offer the Catholic Church as a whole

Priestess, Mother, Sacred Sister Susan Starr Sered, 1996-04-11 Religion is often denounced as one of the tools used by patriarchal societies to maintain the status quo and especially to persuade women to accept subordinate roles This does not explain however the existence of many religious groups in which women are both leaders and the majority of participants How are these women's religions different from those dominated by men What can we learn from them about the special ways in which women experience their unique reality In this fascinating and pathbreaking work the first comparative study of women's religions Susan Starr Sered seeks answers to these compelling questions Looking for common threads linking groups as diverse as the ancestral cults of the Black Caribs of Belize Korean shamanism Christian Science and the Feminist Spirituality movement Sered finds that motherhood and motherly concerns play a vital role in these female dominated groups Nurturing and concern for others are at the center as are healing arts and ways of dealing with illness and the death of children Religion not only enables women to find sacred meaning in their daily lives from the preparation of food to caring for their families but an offer intense and personal relationships with deities and spirits often through ecstatic possession trance as well as opportunities to celebrate and mourn with other women By examining the shared experiences of women across great cultural divides Priestess Mother Sacred Sister offers a new understanding of the role gender plays in determining how individuals grapple with the ultimate questions of existence In the process it not only highlights the profound differences between men and women but the equally important ways in which we are all alike **International**

Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity **Eastern Religions** Vasudha Narayanan, 2005 This fascinating volume provides a concise illustrated introduction to five of the great religious traditions of the world Buddhism Hinduism Taoism Confucianism and Shinto Buddhism one of the world's great religious traditions attracts millions of modern day followers Hinduism one of the most
