SACRIFICED LIVES

KRISTEVA ON WOMEN AND VIOLENCE
MARTHA J. REINEKE

"An important and exciting contribution to the field of feminist theory, social theory, and continental philosophy . . . that will interest not only students of Kristeva, but those who are interested in all forms of social violence, feminist theory, and women's issues as well." —Tamzin Lorraine, Swarthmore College

Why did medieval women mystics starve themselves? What caused the European witch hunts, and why were its victims tortured and killed? Why has the Christian West regularly found maternal figures threatening? To answer these questions, Martha Reineke advances a theory of sacrifice, inspired by Julia Kristeva and René Girard, that attempts to account for violence in Western culture, the human proclivity for bodily mutilation and abuse, and women's special vulnerability to violence.

Reineke understands sacrifice as an effort to counter unrest and disorder in society. She gives special attention to two especially perplexing questions: Why must victims die in order for the sacrificial gesture to be effective? What accounts for the ritual probing, mutilation, and slow death of the victim? With Kristeva, Reineke traces the logic of sacrifice to the infant's struggle to separate from the maternal body and acquire its own place in the world. During times of crisis, humans recall those long-forgotten efforts and ritually reinvoke them, often with lethal consequences. Reading the stories of mystics, witches, and mothers in light of this scenario, Reineke explains how the pattern of violence described here has placed women especially at risk — and why religion has played a pivotal role.

A challenging and controversial book, *Sacrificed Lives* constructs an important bridge between "esoteric," postmodern theory and "ordinary" human life, as it furthers a vital philosophical debate on the question of violence.

MARTHA J. REINEKE is Associate Professor of Religion and Director of the Graduate Program in Women's Studies at the University of Northern Iowa.

Mr Bligh's Bad Language Greg Denning, 1994-03-25 Captain Bligh and the mutiny on the Bounty have become proverbial in their capacity to evoke the extravagant and violent abuse of power But William Bligh was one of the least violent disciplinarians in the British navy It is this paradox which inspired Greg Denning to ask why the mutiny took place His book explores the theatrical nature of what was enacted in the power play on deck on the beaches at Tahiti and in the murderous settlement at Pitcairn on the altar stones and temples of sacrifice and on the catheads from which men were hanged Part of the key lies in the curious puzzle of Mr Bligh's bad language

Living Nonviolently Gabriel Moran, 2011-03-31 Are human beings naturally violent Is war the fate of the human race Despite the depressing record of the past the world's future depends upon avoiding war and drastically reducing violence Living Nonviolently Language for Resisting Violence examines carefully the language of violence and war One of the first casualties of violence is language which in turn makes resistance to violence difficult to articulate In the first four chapters Gabriel Moran proposes distinctions for the interconnected ideas of force power aggressiveness violence and war not to invent a new and logical language but to ground the meaning of these terms in our human experience That revitalization of ordinary language depends upon an inclusive language of men and women adults and children human and nonhuman animals The fifth chapter

locates the potential for both encouraging violence and resisting violence in the peculiar logic of religion Jesus Sermon on the Mount is commonly invoked by people who say that nonviolence may be an admirable ideal for a few people but it is irrelevant for most people and for all nations in this chapter Moran examines the widely misunderstood sermon in detail to illustrate its potential for resisting violence For a conclusion he discusses practical means of education that are helpful to reaching some understanding of violence and resistance to violence Living Nonviolently is written for scholars in peace studies political philosophy or religious studies and for anyone who wishes to understand the roots of violence and war
