Martial Arts Teachers on Teaching Carol A. Wiley, 1995 Teaching is an art Effective martial arts teachers must not only be competent practitioners but must also develop the communication and interpersonal skills of any good teacher In this collection twenty six experienced martial arts teachers discuss the process of learning and teaching a martial art from the nuts and bolts of teaching technique to the philosophical underpinnings of training *75 Down Blocks* Rick Clark, 2012-01-09 Refine your advanced blocking skills with this illustrated martial arts guide Every style of karate tae kwon do kung fu or other martial art includes the down block as part of its kata or forms The forms are similar enough that martial artists will recognize them as down blocks even though the specific block looks different from their own style Taken together these blocks make up a universe of hundreds of different variations on the basic block 75 Down Blocks explores this universe to look for the underlying principles common to all down blocks Author Rick Clark examines seventy five different possible variations on the basic down block with examples on how to use the down block to defend against twelve kinds of attacks from wrist grabs and punches to kicks and attacks with a stick Pressure-Point Fighting Rick Clark, 2012-10-16 Supplement your martial arts skills with this expert guide to pressure point fighting Western students of Asian martial arts have long been haunted by the aching suspicion that something is missing from the arts they love and practice wholeheartedly something intangible but something so essential that its absence leaves an unbridgeable void For many that

missing ingredient is a true and thorough knowledge of the body's vital points what they are where they are how to quickly find them under duress how to use them constructively or for destruction and how to recognize them in the kata hyung or forms they thought they knew so well In Pressure Point Fighting martial arts expert Rick Clark offers a systematic introduction to this knowledge and to the tools needed to ferret out more of this information from forms and techniques already in place knowledge and tools that are not dependent upon acceptance of the tenets of traditional Chinese medicine or modern Western medicine for that matter but which are based solely on open minded observation and willingness to try new or old approaches to martial arts training

Karate-do Kevin L. Seiler, Donald J. Seiler, 2006 Karate Do evolved as a martial art in Okinawa where it was nurtured by centuries of Okinawan culture and innovation What inspired the ancient masters to develop these martial techniques and practices was the human instinct for self preservation not a desire for entertainment or sporting competition Traditional karate do should be practiced with this in mind Here you will find a complete personal training handbook to supplement training in any karate do system or other martial art style The authors have systematically organized their experiences and research into easily digestible segments and have included numerous photographs throughout the text This book will inspire you to train even more diligently and the experiences and research shared here will be useful on the journey of any traditional martial artist

Armageddon or Evolution? Bernard S Phillips, 2015-12-03 We are currently experiencing a wide range of evolving problems that threaten us with extinction However Phillips argues that we have the capacity with the aid of a broad approach to the scientific method that builds on Mills's concept of the sociological imagination to confront these problems ever more effectively This book develops and builds upon new methods for addressing such social problems as global warming terrorism growing inequalities and others Phillips reveals procedures for achieving conscious evolution by uncovering fundamental assumptions and their contradictions and by moving toward alternative assumptions that promise to resolve these contradictions
