Navigational Servitudes Ralph J. Gillis, 2007 This work presents a new perspective on the role of States as reciprocal trustees for the Oceans Public Trust The concept of the oceans and navigable waters as held in public trust is examined from its origins in the 17th century North Sea fisheries controversy with particular regard to the arguments by Selden and Grotius pertaining to State jurisdiction over oceans and marginal sea areas Those arguments manifest an underlying common principle of navigational freedom reflected in the parallel public trust development of public rights to fishing and navigation as protected and preserved within the Royal Prerogative *jus publicum* The significance for the modern context is that the 1958 Geneva Conventions on the Law of the Sea the 1982 United Nations Convention on the Law of the Sea and a myriad of other conventions now evidence an unstated but patent public trust in the communal responsibility of States within both the conventional and customary regime of the high seas as well as in regimes for territorial seas and marginal sea areas as shared with extended coastal State jurisdictions This book is intended to serve as a reference work for this somewhat arcane source of the Oceans Public Trust and should prove a useful research source for those who study law of the sea The Leasing of Guantanamo Bay Michael J. Strauss, 2009-05-14 Post 2002 events at the U S naval facility at Guantanamo Bay have generated a spate of books on its use as a detention center in the U S fight against terrorism Yet the crucial enabling factor the lease that gave the U S control over the territory in Cuba has till now escaped any but cursory consideration The Leasing of Guantanamo Bay explains just how Guantanamo Bay came to be a leased territory where the U S has no sovereignty and Cuba has no jurisdiction This is the first definitive account of the details and workings of the unusual and problematic state to state leasing arrangement that is the essential but murky foundation for all the ongoing controversies about Guantanamo Bay s role in U S anti terrorism efforts charges of U S human rights violations and U S Cuban relations The Leasing of Guantanamo Bay provides an overview of territorial leasing between states and shows how it challenges compromises and complicates established notions of sovereignty and jurisdiction Strauss unfolds the history of the Guantanamo Bay recounting how the U S has deviated widely from the original terms of the lease yet never been legally challenged by Cuba owing to the strong state weak state dynamics The lease is a hodge podge of three U S Cuba agreements full of discrepancies and uncorrected errors Cuba s failure to cash the annual rent checks of the U S has legal implications not only for the future of Guantanamo Bay but of the Westphalian system of states Compiled for the first time in one place are the verbatim texts of all the key documents relevant to the Guantanamo Bay lease including treaties and other agreements a previously unpublished U N legal assessment and once classified government correspondence North

Atlantic Coast Fisheries Permanent Court of Arbitration,1912 **Arbitration Series** United States. Department of State,1932 *North Atlantic Coast Fisheries Arbitration* ,1910 North Atlantic Coast Fisheries ,1912 *Treaties on Transit of Energy via Pipelines and Countermeasures* Danae Azaria,2015-03-26 This monograph examines the relationship between treaties providing for uninterrupted energy transit and countermeasures under the law of international responsibility It analyses the obligations governing energy transit through pipelines in multilateral and bilateral treaties looking at the WTO Agreement the Energy Charter Treaty and sixteen bespoke pipeline treaties It argues that a number of transit obligations under these treaties are indivisible reflecting the collective interests of states parties The analysis is placed in the historical and normative landscape of freedom of transit in international law After setting out the content and scope of obligations concerning transit of energy it distinguishes countermeasures from treaty law responses and examines the dispute settlement and compliance supervision provisions in these treaties Building on these findings the work discusses the availability and lawfulness of countermeasures as on the one hand a means of implementing the transit states responsibility for interruptions of energy transit via pipelines and on the other hand circumstances that preclude the wrongfulness of the transit states interruptions of transit Servitudes of International Law ...
