Malcolm X, African American Revolutionary Dennis D. Wainstock, 2008-11-10 This biography though it covers his early life and adulthood focusses most prominently on Malcolm X's final years which were largely dominated by his departure from the Nation of Islam and his conflict with Elijah Muhammad Throughout the author addresses a number of lingering issues including the role of fellow prisoner John Elton Bembry in Malcolm's prison conversion whether Malcolm decided to leave the Nation of Islam before he was suspended by Elijah Muhammad whether he was seeking martyrdom and the extent of the role that government agencies played in Malcolm X's assassination in 1965

A History of African-American Leadership John White, Bruce J. Dierenfield, 2014-06-11 The story of black emancipation is one of the most dramatic themes of American history covering racism murder poverty and extreme heroism Figures such as Malcolm X and Martin Luther King are the demigods of the freedom movements both film and household figures This major text explores the African American experience of the twentieth century with particular reference to six outstanding race leaders Their philosophies and strategies for racial advancement are compared and set against the historical framework and constraints within which they functioned The book also examines the grass roots of black protest movements in America paying particular attention to the major civil rights organizations as well as black separatist groups such as the Nation of Islam

The Geography of Malcolm X James Tyner, 2013-11-12 The impact of Malcolm X and black nationalism can hardly be overestimated Not only did they transform race relations in America they revolutionized the study of race in all fields of study from American history to literature to sociology Jim Tyner's *The Geography of Malcolm X* will be the first book to apply a geographical perspective to black radicalism The Geography of Malcolm X explores how the radical black power movement that emerged in the 1960s thought and acted in spatial terms How did they conceive of the space of the ghetto The different social and political geographies of the North and South The imaginative geographies connecting blacks in America to Africa and the emerging postcolonial world At the center of his account is the intellectual evolution of Malcolm X who at every stage of his development applied a spatial perspective to the predicament of blacks in America and the world The Geography of Malcolm X introduces critical race theory to geography and demonstrates to readers in many other fields the importance of space and place in black nationalist thought Given his range of thinking and his centrality to the era Malcolm X is an ideal window into

this long neglected aspect of race relations in America

Congo Love Song Ira Dworkin, 2017-04-27 In his 1903 hit Congo Love Song James Weldon Johnson recounts a sweet if seemingly generic romance between two young Africans While the song's title may appear consistent with that narrative it also invokes the site of King Leopold II of Belgium's brutal colonial regime at a time when African Americans were playing a central role in a growing Congo reform movement In an era when popular vaudeville music frequently trafficked in racist language and imagery Congo Love Song emerges as one example of the many ways that African American activists intellectuals and artists called attention to colonialism in Africa In this book Ira Dworkin examines black Americans' long cultural and political engagement with the Congo and its people Through studies of George Washington Williams Booker T. Washington Pauline Hopkins Langston Hughes Malcolm X and other figures he brings to light a long standing relationship that challenges familiar presumptions about African American commitments to Africa Dworkin offers compelling new ways to understand how African American involvement in the Congo has helped shape anticolonialism black aesthetics and modern black nationalism

The Human Tradition in the Black Atlantic, 1500-2000 Beatriz G. Mamigonian, Karen Racine, 2009-10-16 Like snapshots of everyday life in the past the compelling biographies in this book document the making of the Black Atlantic world since the sixteenth century from the point of view of those who were part of it Centering on the diaspora caused by the forced migration of Africans to Europe and across the Atlantic to the Americas the chapters explore the slave trade enslavement resistance adaptation cultural transformations and the quest for citizenship rights The variety of experiences constraints and choices depicted in the book and their changes across time and space defy the idea of a unified black experience At the same time it is clear that in the twentieth century black identity unified people of African descent who along with other minority groups struggled against colonialism and racism and presented alternatives to a version of modernity that excluded and alienated them Drawing on a rich array of little known documents the contributors reconstruct the lives and times of some well known characters along with ordinary people who rarely left written records and would otherwise have remained anonymous and unknown Contributions by Aaron P.
