Shortest Distance The Pursuit Of Independence For Persons With Acquired Brain Injury:

The Shortest Distance Brian T. McMahon, Randall W. Evans, 1994-01-01 If you are looking to improve quality of service with durable outcomes that can provide maximum independence for a select population of persons with severe disabilities The Shortest Distance offers concrete solutions using the success story of Learning Services Corporation as its model Today merely surviving serious head injury is not the issue Due to the evolution of rehabilitation therapies over the past decade or so functional improvement of many if not most brain injured survivors now stands as a distinct possibility Frustration continues to mount in determining who is showing continued improvement and who is not who deserves aggressive treatment versus termination of services who is getting quality care and service One answer to the growing concerns in providing for the needs of individuals with traumatic brain injury is alternative site specialty care services The Shortest Distance illustrates how one health care company achieved increased quality cost effectiveness gained a clear understanding of the rehabilitation business including the basic principles and tenets of rehabilitation and initiated behavioral changes within the organization to carry through with those principles

Counseling Theories and Techniques for Rehabilitation Health Professionals Fong Chan, 2004-02-17 This text provides a state of the art treatment of the dominant theories and techniques of counseling and psychotherapy from a rehabilitation perspective Written by recognized experts in their content areas the book focuses on several knowledge domains underlying the practice of counseling in rehabilitation settings These domains are presented within the framework of the major theoretical approaches to counseling and applications are explained as they relate specifically to people with disabilities Case examples are used throughout the text Basic techniques and selected professional issues related to practice are also presented This collection will be useful for practitioners as well as for upper level undergraduates and graduate students in rehabilitation counseling psychology and other rehabilitation health care disciplines such as nursing occupational therapy and physical therapy

Specialty Competencies in Rehabilitation Psychology David R. Cox, Richard H. Cox, Bruce Caplan, 2013-10-03 Written by recognized experts in their respective fields the books of the Series in Specialty Competencies in Professional Psychology are comprehensive up to date and accessible These volumes offer invaluable guidance to not only practicing mental health professionals but those training for specialty practice as well

B.I.A. National Directory of Brain Injury Rehabilitation Services, 2002 Listing of brain injury rehabilitation services and individual service providers in the United States Entries include name and address of the service age groups accepted consumer capacity payment terms program staff and program description

Outcome-oriented Rehabilitation Pat Kitchell Landrum, Nancy D. Schmidt, Alvin McLean, 1995 Outcome data has emerged to be one of the universal tools that patients referral sources and payers use to evaluate the quality of a rehabilitation programme Outcome Oriented Rehabilitation provides rehabilitation service managers with specific pre and post intervention assessment strategies as well as how to tools associated with each key principle of management Readers of

the book will be able to apply the principles presented in their own work settings at general or very specific levels **The Special-needs Reading List** Wilma K. Sweeney,1998 This publication provides short reviews and recommendations of the best books journals newsletters organisations and other information sources about children with disabilities This invaluable reference is organised into two broad sections Part One covers topics related to disabilities in general such as Disability Awareness Family Life Legal Issues and Education Part Two focuses on specific disabilities including Autism Cerebral Palsy Down Syndrome Fetal Alcohol Syndrome Learning Disabilities and Speech and Language Disorders Handbook of Rehabilitation Counseling T. F. Riggart,2004 Print CourseSmart *The Executive's Guide to Controlling Health Care and Disability Costs* Bruce N. Barge,John G. Carlson,1993-07-30 Recent polls have shown that CEOs today consider rising and uncontrollable health care costs to be the number one threat to keeping their organizations competitive Even worse many executives feel there is little they can do to regain control of exploding health and disability costs This is the first book written specifically for executives providing both a strategic blueprint and real world examples for how employers can control and even reduce these spiraling costs The Executive s Guide to Controlling Health Care and Disability Costs addresses the issues of health care workers compensation and disability costs from a managerial and strategic perspective You ll find innovative new ways to take action and examples from leading organizations that have achieved success
