Shorts Aircraft Since 1900 C. H. Barnes, 1969 **Shorts Aircraft Since 1900** Christopher Henry Barnes, 1989 This popular and highly acclaimed series includes an abundance of photos accurate line drawings fascinating evaluations of aircraft design and complete histories of aircraft manufacturers Shorts aircraft since 1900. C.H. Christopher Henry Barnes, 1967 The Man Who Built the Swordfish Adrian Smith, 2018-04-30 Sir Richard Fairey was one of the great aviation innovators of the twentieth century His career as a plane maker stretched from the Edwardian period to the jet age he lived long enough to see one of his aircraft be the first to break the 1000mph barrier and at least one of his designs the Swordfish holds iconic status A qualified engineer party to the design development and construction of the Royal Navy's state of the art sea planes Sir Richard founded Fairey Aviation at the Admiralty's behest in 1915 His company survived post war retrenchment to become one of Britain's largest aircraft manufacturers The firm built a succession of front line aircraft for the RAF and the Fleet Air Arm including the iconic Swordfish In addition Fairey Aviation designed and built several cutting edge experimental aircraft including long distance record breakers between the wars and the stunningly beautiful Delta 2 which broke the world speed record on the eve of Sir Richard's death in 1956 Fairey also came to hold a privileged position in the British elite courting politicians and policymakers He became a figurehead of the British aviation industry and his successful running of the British Air Commission earned him a knighthood A key player at a pivotal moment Fairey's life tells us much about the exercise of power in early twentieth century Britain and provides an insight into the nature of the British aviation manufacturing industry at its wartime peak and on the cusp of its twilight years Aircraft of the Royal Navy David Hobbs, 2024-11-30 This is a comprehensive study of every aircraft type ordered for the Royal Navy since 1908 It includes fixed and rotary wing aircraft rigid and non rigid airships unmanned aircraft and pilotless target aircraft together with many designs that were ordered but not built so that the importance placed on them by the Naval Staff or their potential technological impact on carrier design and operations can be explained Every type even unsuccessful single prototypes is described the majority are illustrated by photographs many of which come from the author's own collection and the fifty most significant aircraft have detailed drawings The Australian and Canadian Fleet Air Arms operated RN aircraft types for many years after their formation and these are included together with other types they have operated subsequently to give a more complete overview The book describes over 400 different types of aircraft built by over 100 different manufacturers to offer the most detailed coverage of RN aircraft ever produced Research for the book took over forty years and reference material included Admiralty Archives and an array of material in the public domain including manufacturers data individual aircraft pilot's notes and a wealth of published sources David Hobbs is uniquely well placed to write this book having served in the RN for thirty three years and retired with the rank of Commander He flew both fixed and rotary wing aircraft and his log book contains 2300 flying hours with 807 day and night deck landings He served in seven British aircraft carriers and spent

four years within RN Director General Aircraft Department where he was closely involved with Sea Harrier carrier trials and introduced new visual landing aids for night recoveries and liaised with the USN on carrier operating techniques This is his eleventh book for Seaforth Publishing Business in the Age of Depression and War R.P.T. Davenport-Hines,2013-11-26 First Published in 1990 This is the companion title to R P T Davenport Hines Capital Entrepreneurs and Profits This title responds to the little discussion surrounding the subject of business history The editor recognised that although the interpretation of business history has been wide the only distinguishing features was a dependence on often British business records which is reflected in the selection of volumes within this collection This title intends to present a list of searching and analytical and therefore more satisfying and instructive histories of British companies from which lessons can be learned

The Narrow Margin Derek Wood,Derek Dempster,2010-06-02 For vividness and a sense of the overall flow of the battle The Narrow Margin is excellent for the British side Air Space Magazine The Battle of Britain saved the country from invasion If the RAF had been defeated all the efforts of the British Army and the Royal Navy would hardly have averted defeat in the face of complete German air superiority With all Europe subjugated Germany and Japan would later have met on the borders of India This remarkable book traces the varied fortunes of the Royal Air Force in the 1930s and shows how it readied itself for the mighty German onslaught in the summer of 1940 and won a great victory by the narrowest margins It provides a comprehensive account of the Battle of Britain including the day by day summaries of the battle It is illustrated with photographs and maps an appendix of the aircraft used by the Royal Air Force and by the Luftwaffe with schematic drawings also a list of all pilots who flew in the Battle of Britain from July 10 to October 31 1940 The authors are military aviation experts and The Narrow Margin has been published in translation in France and around the world They also wrote A Summer for Heroes and Jane s World Aircraft Recognition Handbook This book became the most used reference work on the Battle of Britain and formed the basis for the major feature film on the Battle this entertaining book was soon accepted as the definitive title on its subject Aeroplane Most enlightening and useful Unreservedly recommended Military Aircraft Monthly
