Showing Off, Showing Up Laurie Frederik, Kimberley Bell Marra, Catherine A. Schuler, 2017-05-18 The interdisciplinary essays in *Showing Off Showing Up* examine acts of showing a particular species of performance that relies on competition and judgment active spectatorship embodied excess and exposure of core values and hidden truths Acts of showing highlight those dimensions of performance that can most manipulate spectators and consumers often through over the top heightening and skewing of presentation Many forms of showing and of heightened performance however operate more enigmatically and covertly while still profoundly affecting the social world even if our reactions to them are initially flippant or unconcerned because it's just a show Examining a wide range of examples from dog shows to competitive dancing to carnivals to striptease the essays illuminate how such events variously foster competition exaggerate a characteristic and reveal hidden truths There is as much to be learned about the power of showing through subtlety and underlying intentionality as through overt display The book's theoretical introduction and 12 essays by leading scholars reveal how diverse particularly efficacious genres of showing are theoretically connected and why they merit more concerted attention especially in the 21st century

Venetian-English English-Venetian Lodovico Pizzati,2007 Hard not to be florid about this book Devoured in snippets or read straight through It presents amazing experiences and skills Because Marc Charles Nicolas has a brilliantly delicate appreciation for the idea of a sentence in a poem the juxtapositions of segments in these pages appear essentially to construct entire topics for meditation Examined along and the dawns increase and multiply inspirations love feelings locations events hitherto isolated are now all hooks and eyes into each other And because Marc Charles gets his inspiration from the muse you feel the exquisiteness and beauty buried in shattered phrases about the universality of poetry As a poet he belongs to a life larger than his own The life of genuine things And One more performance worth a word the poems in his book Perfumed Paradise are filled with aboutness Put together as they are they re seen to abound with roots their laughter or melancholy or ire has discernible reasons The humanness of poem writing as a hobby the splendid unavoidability of it that is what this compilation brings together But floridity was to be kept away One cloudless day pace the anti sentimentalists life is short I sat in the sun and by a Brook with a friend and passed pages of this manuscript from side to side reading fragments aloud laughing quietly or looking grave occasionally thrilled and bemused A while back this was yet I remember no happier afternoon The poems were written originally in French 13 years ago in the year 1993 delicious remembrance fantastic book Virgo A Bernice

Michael Eldred,2018-10-26 How are core social phenomena to be understood as modes of being This book offers an alternative approach to social ontology Recent interest in social ontology on the part of mainstream philosophy and the social sciences presupposes from the outset that the human being can be cast as a conscious subject whose intentionality can be collective By contrast the present study insistently poses the crucial question of who the human being is and how they sociate as whos Such whoness is a clean cut departure from the venerable tradition of questioning whatness quidditas essence in philosophical thinking Casting human being hermeneutically as whoness opens up new insights into how human beings sociate in interplays of mutual estimation that are simultaneously social power plays Hitherto the ontology of social power in all its various guises has only ever been implicit This book makes it explicit The kind of social power prevalent in capitalist societies is that of the reified value embodied in commodities money capital co Reified value itself is constituted through an interplay of mutual estimation among things that reflects back on the power interplay among whos In this way a new critique of capitalism becomes possible **The 90 Day Brand Plan**
