Shrinking The State The Political Underpinnings Of Privatization:

Shrinking the State Harvey Feigenbaum, Jeffrey Henig, Chris Hamnett, 2010-03-08 Privatization has spread worldwide during the 1980s and 1990s reshaping the balance between state and market in many countries This book provides a comparative political analysis of privatization in the UK United States and France The authors argue that privatization is a political phenomenon and should be analyzed as such rather than as an economic response to the growth of the state and the cost of state provision The book will be of interest to students of politics economics public policy and business studies as well as to policy makers and business consultants

Re-forming the State Hector E. Schamis, 2002 Compares the processes leading to market reform experiments and its political effects in Latin America and Europe *The Civil Service in the 21st Century* J. Raadschelders, T. Toonen, F. Van der Meer, Frits M. Van der Meer, 2007-10-17 The role and position of the civil service as core actors in the public sector has been seriously questioned in recent years This volume provides a comparative study of civil service systems in Asia Western Europe and Africa The cast of international contributors provide new insights

Mayors in the Middle Jeffrey R. Henig, Wilbur C. Rich, 2020-12-08 Desperate to jump start the reform process in America's urban schools politicians scholars and school advocates are looking increasingly to mayors for leadership But does a stronger mayoral role represent bold institutional change with real potential to improve big city schools or just the latest in the copycat world of school reform du jour Is it democratic Why have efforts to put mayors in charge so often generated resistance along racial dividing lines Public debate and scholarly analysis have shied away from confronting such issues head on Mayors in the Middle brings together for students of education policy and urban politics as well as scholars and school advocates the most thoughtful and original analyses of the promise and limitations of mayoral takeovers of schools Reflecting on the experience of six cities Baltimore Boston Chicago Detroit Cleveland and Washington D C ten of the nation's leading experts on education politics tackle the question of whether putting mayors in charge is a step in the right direction Through the case studies and the wide ranging essays that follow and build upon them the contributors Stefanie Chambers Jeffrey R Henig Kenneth J Meier Jeffrey Mirel Marion Orr John Portz Wilbur C Rich Dorothy Shipps and Clarence N Stone begin the process of answering questions critical to the future of inner city children the prospects for urban revitalization and the shape of American education in the years to come

Governing Europe Jack Hayward, Anand Menon, 2003-03-20 Governing Europe is intended to be the leading advanced survey of politics in Western Europe It examines in detail all aspects of political life in Western Europe from public protest to core executives social policy to Europe's place in the world It brings together a world class team of leading scholars from the United Kingdom continental Europe and North America The contributions provide not only a sophisticated introduction to the various issues covered but also a detailed discussion of the major theoretical and empirical debates and developments in the field The book therefore provides both a comprehensive overview and a series of original contributions to scholarly debate The focus is on European core executives public

administration parties and organised interests democracy and popular participation public policy and the changing European state It will be essential reading to scholars and students alike The volume is intended as a tribute to the late Vincent Wright of Nuffield College Oxford University *Government Institutions: Effects, Changes and Normative Foundations* Hendrik Wagenaar, 2012-12-06 Research on government institutions is one of the most exciting intellectual areas in political science and policy studies today Increasingly it is recognized by scholars in these fields that effective and legitimate policies depend on the design and maintenance of complex institutional arrangements This book brings together some of the leading scholars in institutional research in The Netherlands Their work addresses such perennially difficult questions in institutional research such as How do we understand institutional change How do we measure the effects of institutions on societal sectors and public policy How do the normative foundations of government institutions influence their functioning What are the principles of effective and legitimate institutional design Through analysis of well researched examples ranging from the fabled Dutch poldermodel through the transformation of the welfare state through privatizations of the Dutch telecommunications industry to the work of welfare officials these authors demonstrate the interpenetration of normative empirical and design issues in institutional theory The book is intended for scholars and graduate students in political science public policy public administration and law *Transforming Mozambique* M. Anne Pitcher, 2002-11-14 Many of the economic transformations in Africa have been as dramatic as those in Eastern Europe Yet much of the comparative literature on transitions has overlooked African countries This 2002 study of Mozambique's shift from a command to a market economy draws on a wealth of empirical material including archival sources interviews political posters and corporate advertisements to reveal that the state is a central actor in the reform process despite the claims of neo liberals and their critics Alongside the state social forces from World Bank officials to rural smallholders have also accelerated thwarted or shaped change in Mozambique M Anne Pitcher offers an intriguing analysis of the dynamic interaction between previous and emerging agents ideas and institutions to explain the erosion of socialism and the politics of privatization in a developing country She demonstrates that Mozambique's political economy is a heterogeneous blend of ideological and institutional continuities and ruptures **Citizens** Elisabeth Gidengil, André Blais, Neil Nevitte, Richard Nadeau, 2011-11-01 Citizens are central to any meaningful definition of democracy What does it say about the health of Canadian democracy when fewer citizens than ever are exercising their right to vote and party membership rolls are shrinking Are increasingly well educated citizens turning away from traditional electoral politics in favour of other forms of democratic engagement or are they simply withdrawing from political participation altogether The first comprehensive assessment of citizen engagement in Canada this volume raises challenging questions about the interests and capabilities of Canadians as democratic citizens as well as the performance of our democratic institutions It is essential reading for politicians and policy makers students and scholars of Canadian politics and all those who care about the quality of Canadian democracy *Charters, Vouchers and Public*

Politics and Rhetoric of Italian State Steel Privatisation Edoardo Mollona, Luca Pareschi, 2022-05-17 The globally spreading privatisation wave that occurred in the 1990s deeply changed the structure of economic institutions worldwide This turmoil overturned not only economic institutions but shared cultural and societal institutions as well This book is the result of an investigation into the history of the privatisation of the steel industry in Italy completed between 1994 and 1995 It explores the history of the Italian steel industry by looking at the interplay of local intertwined interests political relations and ideological formations that characterised an idiosyncratic hegemonic historical bloc Rather than stigmatising this pattern as the legacy of a dysfunctional provincialism the authors mobilise Gramsci s theory of hegemony to explain how the Italian privatisation process unfolded to accommodate economic pressures political interests and ideological constraints of a hegemonic social group or aggregation of social groups Thus in reconstructing the privatisation of Italian steel this book proposes a hegemony theory of privatisation and more generally describes a model that explains how political and cultural dynamics give rise to idiosyncratic local variations in globally spreading policies It will be of interest to researchers academics and students in the fields of business history economics sociology and political science

Marketization in

Local Government Andrej Christian Lindholst, Morten Balle Hansen, 2019-12-20 Marketization is one of the most powerful

reform doctrines reshaping the organization of public service delivery throughout the last four decades This book revisits conventional ideas and models of marketization and compares how these have diffused and evolved across municipalities in England and Scandinavia The book highlights the paths and impacts of marketization as diverse and dynamic and asks us to reconsider what and how we think about marketization The content of the book is co authored by researchers from four countries and builds upon comparable surveys and case studies from two longstanding spearhead services parks and roads for the implementation of marketization The book appeals to scholars and policy makers with interests in discussions about the history and future of marketization in an international perspective

New Public Management in Europe C. Pollitt, S. Van Thiel, V. Homburg, Sandra Van Thiel, 2007-01-09 The New Public Management paradigm seems to have produced a convergence of administrative reform However specific implementations of NPM show range of forms and results including performance indicators personal reforms and evaluations of reforms This text demonstrates how NPM is crafted differently in various institutional contexts

The Market for Force Deborah D. Avant, 2005-07-25 The legitimate use of force is generally presumed to be the realm of the state However the flourishing role of the private sector in security over the last twenty years has brought this into question In this book Deborah Avant examines the privatization of security and its impact on the control of force She describes the growth of private security companies explains how the industry works and describes its range of customers including states non government organisations and commercial transnational corporations She charts the inevitable trade offs that the market for force imposes on the states firms and people wishing to control it suggests a new way to think about the control of force and offers a model of institutional analysis that draws on both economic and sociological reasoning The book contains case studies drawn from the US and Europe as well as Africa and the Middle East

Aristotle's Politics Today Lenn Evan Goodman, Robert B. Talisse, 2008-06-05 According to Aristotle man's essential sociality implies a distinctive conception of politics one in which all political associations exist for the sake of the moral perfection of human beings This stands in sharp contrast with the modern view of politics that man is not by nature political rather man chooses to create political associations for the sake of securing the protection of his life and property Many political theorists have begun to express doubts about this modern view calling for a return to Aristotle's vision of a politics that is deeply moral In *Aristotle's Politics Today* distinguished political philosophers representing a diversity of approaches examine the meaning relevance and implications of Aristotle's political thought for contemporary social and political theory The contributors engage a broad range of topics including Aristotle's views on constitutionalism the extension of Aristotelian ideas to issues in international relations the place of Aristotelian virtue in modern democratic politics and Aristotle's conception of justice Book jacket

Public Service Efficiency Rhys Andrews, Tom Entwistle, 2014-01-03 The current economic and political climate places ever greater pressure on public organizations to deliver services in a cost efficient way Focused on the costs of service delivery governments across the world have introduced a series of business like practices

from performance management to public private partnership in the belief that these will increase the efficiency of their public services However both the debate about public service efficiency and the policies and practices introduced to advance it have developed without a coherent account of what efficiency means in this context and how it should be realized The predominance of a rather narrow definition of the term very often focused on the ratio of inputs to outputs has tended to polarise opinion either for or against efficiency agenda Yet public service efficiency more broadly conceived is an inescapable fact of the public manager s task environment indeed in the past the notion of efficiency was central to the emergence of the field of public administration This book will recover public service efficiency from the relatively narrow terms of recent debates by examining theories and evidence relating to technical allocative distributive and dynamic efficiencies In exploring the relationship between efficiency and democracy this book will move current debates in public administration forward by reflecting on the trade offs between the different dimensions of efficiency that public organizations confront

Worlds in Transition Joseph Camilleri, Jim Falk, 2009-01-01 We are living through a unique moment of transition marked by a frenetic cycle of invention construction consumption and destruction However there is more to this transition than globalization argue the authors of this unique and penetrating study In their highly innovative approach they set this transition against a broader evolutionary canvas with the emphasis on the evolution of governance The book s detailed analysis of five strategic sectors economy environment health information and security points to an intricate and rapidly evolving interplay of geopolitical cultural and

Visions of Poverty Robert Asen, 2012-01-01 Images of poverty shape the debate surrounding it In 1996 then President Bill Clinton signed welfare reform legislation repealing the principal federal program providing monetary assistance to poor families Aid to Families with Dependent Children AFDC With the president s signature this originally non controversial program became the only title of the 1935 Social Security Act to be repealed The legislation culminated a retrenchment era in welfare policy beginning in the early 1980s To understand completely the welfare policy debates of the last half of the 20th Century the various images of poor people that were present must be considered Visions of Poverty explores these images and the policy debates of the retrenchment era recounting the ways in which images of the poor appeared in these debates relaying shifts in images that took place over time and revealing how images functioned in policy debates to advantage some positions and disadvantage others Looking to the future Visions of Poverty demonstrates that any future policy agenda must first come to terms with the vivid disabling images of the poor that continue to circulate In debating future reforms participants whose ranks should include potential recipients ought to imagine poor people anew This ground breaking study in policymaking and cultural imagination will be of particular interest to scholars in rhetorical studies political science history and public policy

The Suburban Crisis Matthew D. Lassiter, 2023-11-07 How the drug war transformed American political culture Since the 1950s the American war on drugs has positioned white middle class youth as sympathetic victims of illegal drug markets who need rehabilitation instead of incarceration whenever they break the law

The Suburban Crisis traces how politicians the media and grassroots political activists crusaded to protect white families from perceived threats while criminalizing and incarcerating urban minorities and how a troubling legacy of racial injustice continues to inform the war on drugs today In this incisive political history Matthew Lassiter shows how the category of the white middle class victim has been as central to the politics and culture of the drug war as racial stereotypes like the foreign trafficker urban pusher and predatory ghetto addict He describes how the futile mission to safeguard and control white suburban youth shaped the enactment of the nation s first mandatory minimum drug laws in the 1950s and how soaring marijuana arrests of white Americans led to demands to refocus on real criminals in inner cities The 1980s brought just say no moralizing in the white suburbs and militarized crackdowns in urban centers The Suburban Crisis reveals how the escalating drug war merged punitive law enforcement and coercive public health into a discriminatory system for the social control of teenagers and young adults and how liberal and conservative lawmakers alike pursued an agenda of racialized criminalization
