The studies contained in this volume arose over the last thirty years Originally the range of the materials I intended to include in my selection was very much wider Publishing difficulties however have obliged me to curtail them to something less than half the planned content At first I intended to include all the studies I supposed might be of interest to readers and represent contributions still of some significance for research in this domain of Oriental scholarship When the necessity arose to limit the contents I gave preference to the standpoint of thematic completeness rather than to what would be of interest to the general reader Thus in this volume I have confined myself to two thematic fields only Old Chinese literature and studies dealing with mediaeval storytellers productions hua pen I have excluded the whole complex of historical studies and all studies relating to the new literature I am now preparing on the principal historical theme on which I was engaged already in the period of my studies in Prague under Prof J Bidlo and then in 1928 till 1930 with Prof B Karlgren in Sweden and Prof G Haloun in Halle in Germany a more compendious study in which I hope to sum up the results of my research and I also intend to publish a volume of selected studies dealing with the New Chinese literature at some later date
