*Pauvreté, jeunes de la rue et SIDA* Momar Coumba Diop, 2002-01-01 Dans les villes africaines des populations de plus en plus nombreuses prouvent des difficultés à satisfaire leurs besoins de base et accéder aux services sociaux essentiels Au sein de ces populations la jeunesse marginalisée a souvent attiré l'attention des pouvoirs publics mais d'un point de vue essentiellement sécuritaire Pourtant cette population est particulièrement exposée à un problème majeur de santé publique le risque de contamination par le sida Malgré cela elle est faiblement prise en charge par les programmes officiels Et peu d'efforts systématiques ont été consacrés à l'amélioration des connaissances relatives aux rapports entre la pauvreté les maladies sexuellement transmissibles et le sida dans le milieu des jeunes des rues C'est pour mieux comprendre les mécanismes de cette dernière question que le Programme de gestion urbaine PGU et le Programme régional de lutte contre le sida PRS de la GTZ ont réalisé des études sur les jeunes des rues en Côte d'Ivoire et au Ghana Ce livre propose les principaux résultats de cette

recherche en apportant ainsi de nouvelles informations sur un aspect particulier de la pauvreté urbaine. Cet ouvrage met ainsi à la disposition des décideurs urbains, des chercheurs et des praticiens des informations et des pistes de réflexion susceptibles entre autres d'alimenter la élaboration des politiques officielles et en conséquence de contribuer la réduction des risques de contamination des jeunes des rues par le sida.

Youth, HIV/AIDS and Social Transformations in Africa Donald Anthony Mwiturubani, 2009. The Council for the Development of Social Science Research in Africa CODESRIA is an organisation whose principal objectives are to facilitate research, promote research based publishing and create multiple forums geared towards the exchange of views and information among African researchers. All these are aimed at reducing the fragmentation of research in the continent through the creation of thematic research networks that cut across linguistic and regional boundaries.

*Droits des Personnes Âgées et Droits des Personnes Handicapées* Pascal Touyoum, 2023-10-22. Cette publication est certainement la toute première grande synthèse thématique et critique sur la condition des personnes socialement vulnérables PSV en Afrique. Une excellente brochette de 40 experts et Institutions de différents pays du continent déploie un effort d'intelligibilité de ce phénomène devenu préoccupant à travers un Inventaire analytique complexe, rétrospectif, factuel, actuel, chiffré, ponctuel, prospectif et relativement exhaustif. Les différentes contributions sont assorties des recommandations fortes qui interpellent pour leur application les décideurs d'enjeu dans une démarche de co-construction pour une citoyenneté de transformation active. C'est un document de plaidoyer, requéreur et de lobbying en faveur de l'amélioration de la protection et de l'amélioration des conditions sociales des personnes âgées et des personnes handicapées en Afrique, autant en matière de santé, d'alimentation, de logement, d'environnement, de protection sociale, que de maintien de revenu, d'emploi et d'enseignement. Eu égard à l'augmentation croissante de leurs effets en valeur relative et absolue, la question des personnes socialement vulnérables est ainsi mise en avant, garde des préoccupations politico-sociales et scientifiques importantes, voir permanentes. Il s'agit d'investigations et de réflexions récurrentes au sein d'un mécanisme social de l'Union Africaine. Au sein du groupe de travail sur les personnes âgées et les personnes handicapées de la Commission Africaine des Droits de l'Homme et des Peuples, l'assignation principale et originelle est de construire des véhicules juridiques, psychologiques, socio-anthropologiques et politiques afin d'amorcer un changement positif et une protection durable des personnes ainsi que des protocoles coutumiers pour leur valorisation dans les cultures et traditions africaines.

This publication is certainly the first major thematic and critical synthesis on the condition of socially vulnerable persons PSV in Africa. An excellent line up of 40 experts and institutions from different countries of the continent is making an effort to understand this phenomenon which has become worrying through a complex retrospective, factual, current, quantified, punctual, prospective and relatively exhaustive analytical inventory. The various contributions are accompanied by strong recommendations that challenge the holders of issues for their application in a process of co-construction for an active citizenship of transformation. It is a document of advocacy, indictment and lobbying in favor of the development, protection and improvement of the social

conditions of the elderly and persons with disabilities in Africa in terms of health food housing environment social protection income maintenance employment and education given their increasing numbers in relative and absolute terms The issue of socially vulnerable people is thus brought to the forefront of important if not permanent political social and scientific concerns It is the subject of recurrent investigations and reflections within the special mechanism of the African Union the Working Group on Elderly Persons and Persons with Disabilities of the African Commission on Human and Peoples Rights The initial assignment is to build legal psychological socio anthropological and political vehicles in order to initiate positive change and sustainable protection of VHPs as well as customary protocols for their valorization in African cultures and traditions

Population Studies and Development from Theory to Fieldwork Véronique Petit, 2017-10-30 This book addresses major population and development issues fertility and reproductive health migrations gender education poverty and inequalities To that aim it revisits and considerably enlarges Kingsley Davis 1963 theory of change and response using interdisciplinary methodologies On the basis of four decades of field research 1985-2015 it questions the rationality of the actors how culture shapes socio demographic behaviours in a context of modernity and globalisation More specifically it casts new light on the interactions of individuals families networks and local communities with the State and its population policy

HIV, Resurgent Infections and Population Change in Africa Michel Caraël, Judith Glynn, 2008-08-12 Forty years ago the age old battle against infectious diseases as a major threat to human health was believed close to being won However by the late twentieth century the increase of emerging and reemerging infectious diseases was evident in both low and high income countries About 30 new infectious diseases have been identified in the last 20 years Among the new diseases and most importantly the Human Immunodeficiency Virus HIV epidemic with 40 million persons infected and 25 million deaths since its first description presents one of the most significant health societal and security challenges facing the global community The interaction of HIV AIDS with tuberculosis malaria and bacterial infections have increased HIV related morbidity and mortality and in turn the HIV pandemic has brought about devastating increases in tuberculosis

Understanding the population impact and the dynamics of infectious diseases in the most affected region is critical to efforts to reduce the morbidity and mortality of such infections and for decisions on where to use limited resources in the fight against infections. This book aims to contribute to these efforts by offering a demographic and epidemiological perspective on emerging and reemerging infections in sub-Saharan Africa. *HIV & AIDS In Africa* Azetsop, Jacquelineau, 2016-09-15. A comprehensive look at the HIV/AIDS pandemic in Africa, this volume features contributions from noted scholars from across the continent and beyond, providing badly needed social analysis and theological reflection from an African perspective.

International Handbook of Adolescent Pregnancy Andrew L. Cherry, Mary E. Dillon, 2014-01-13. The rates are on the decline worldwide, but adolescent pregnancies still occur, placing millions of girls each year at risk for medical complications and social isolation and their babies for severe health problems, especially when prenatal care is inadequate or nonexistent. But as the opportunity for young women and girls increases around the world, adolescent pregnancy will continue to decline. Featuring reports from countries across the developed and developing worlds, the *International Handbook of Adolescent Pregnancy* analyzes the scope of the problem and the diversity of social and professional responses. Its biological/ecological perspective identifies factors influencing childhood pregnancy as well as outcomes, challenges, and needs of very young mothers as they differ across nations and regions. Salient comparisons are made as cultural contexts and community support vary widely, and attention is paid to issues such as child marriage, LGBT concerns, and the impact of religion and politics on health care, particularly access to contraception, abortion, and other services. This global coverage heightens the understanding of readers involved in care, education, and prevention programs and otherwise concerned with the psychosocial development, reproductive health, and general well-being of girls. Included in the Handbook: Biological influences of adolescent pregnancy; Adolescent maternal health and childbearing; Adolescent pregnancy and mental health; International perspectives on adolescent fathers; Adolescent pregnancy as a feminist issue; Adolescent pregnancy as a social problem. Plus viewpoints from more than thirty countries. As a unique source of up-to-date findings and clear-headed analysis, the *International Handbook of Adolescent Pregnancy* is a go-to reference for practitioners and researchers in maternal and child health, pediatrics, adolescent medicine, and global health. *AIDS Bibliography*, 1994-12. Vers une pharmaceutisation de la société? Johanne Collin, Pierre-Marie David, 2016-09-21. Le médicament est plus complexe qu'un simple objet pharmaceutique: il s'agit aussi d'un objet social. Les textes rassemblés dans cet ouvrage, issus de l'anthropologie, de l'histoire et de la sociologie, exposent la manière dont le médicament fait voler les frontières entre le normal et le pathologique, entre l'inclusion et l'exclusion sociale, et entre la nature et la culture, que ce soit dans les sociétés du Nord ou du Sud, qu'il s'agisse de santé mentale ou de tabagisme, du VIH ou du cholestérol.
