Smallman,2012-09-01 Of the more than 40 million people around the world currently living with HIV AIDS two million live in Latin America and the Caribbean In an engaging chronicle illuminated by his travels in the region Shawn Smallman shows how the varying histories and cultures of the nations of Latin America have influenced the course of the pandemic He demonstrates that a disease spread in an intimate manner is profoundly shaped by impersonal forces In Latin America Smallman explains the AIDS pandemic has fractured into a series of subepidemics driven by different factors in each country Examining cultural issues and public policies at the country regional and global levels he discusses why HIV has had such a heavy impact on Honduras for instance while leaving the neighboring state of Nicaragua relatively untouched and why Latin America as a whole has kept infection rates lower than other global regions such as Africa and Asia Smallman draws on the most recent scientific research as well as his own interviews with AIDS educators gay leaders drug traffickers crack addicts transvestites and doctors in Cuba Brazil and Mexico Highlighting the realities of gender race sexuality poverty politics and international relations throughout Latin America and the Caribbean Smallman brings a fresh perspective to understanding the cultures of the region as well as the global AIDS crisis *National Library of Medicine Current Catalog National Library of Medicine (U.S.),1991 Sexual Inequalities and Social Justice* Niels

Teunis,Gilbert H. Herdt,2007 This pioneering collection of ten ethnographically rich essays signals the emergence of a new paradigm of social analysis committed to understanding and analyzing social oppression in the context of sexuality and gender The contributors an interdisciplinary group of social scientists representing anthropology sociology public health and psychology illuminate the role of sexuality in producing and reproducing inequality difference and structural violence among a range of populations in various geographic historical and cultural arenas In particular the essays consider racial minorities including Hispanics Koreans and African Americans discuss disabled people examine issues including substance abuse sexual coercion and HIV AIDS and delve into other topics including religion and politics Rather than emphasizing sexuality as an individual trait the essays view it as a social phenomenon focusing in particular on cultural meaning and real world processes of inequality such as racism and homophobia The authors address the complex and challenging question of how the research under discussion here can make a real contribution to the struggle for social justice

*Crossing Borders* Kimberly M. Grimes, 1998-07 Defining borders is a complex task especially today as globalization accelerates at an unprecedented rate We have entered a transnational age one in which borders are more porous So says Kimberly M Grimes in *Crossing Borders Changing Social Identities in Southern Mexico* her investigation of migration to the United States from Putla de Guerrero Oaxaca Featuring testimonies of residents and migrants Grimes allows local voices to describe the ways in which Putlecans find themselves negotiating among competing social values The testaments of the Putlecans indicate that the changes occurring in their small town as a result of the circular migration to and from such immigrant enclaves as Atlantic City New Jersey are viewed with mixed emotions Putlecans recognize the financial need to migrate north but they rue the increased consumerism pollution and trash that comes with the rising wealth Men show off by driving their fancy cars with New Jersey tags around the tiny Mexican town but influenced by Anglo culture they also provide greater assistance in child care and housework Women find the sexual and social freedoms of the United States liberating but they still return home to baptize their babies Grimes reminds us however that the Putlecans are not passive recipients of change but are actively embracing it creating it and mediating it By reaching across the border to investigate migration Grimes shows us that social and cultural change are not just the result of national and transnational influences but are also locally negotiated phenomena *Vivir muriendo* Rosa María Lara y Mateos, 2006
