**Nazis, Women and Molecular Biology** Gunther Stent, 2019-01-22 What prompts a well renowned scientist in molecular biology to write memoirs about a part of his life In the case of Gunther Stent it was not to reflect on his career as a scientist but to come to an understanding of his own soul In his seventies he had come to see that he had been throughout his life an emotional sleepwalker especially as regards women and in addition that he had been troubled by Jewish self hatred His story may have more to do with St Augustine's

Confessions than with a scientist's memoirs Stent provides insight into the power of political correctness and the ability of a government to establish a perverse vision of reality For readers interested in bioethics Stent's memoirs help to explain how Germany could have been the first country to enact an all encompassing protection for human research subjects while it was also the country that produced the medical experiments of the Nazis and the greatest perversion of medical morality in history Stent is a person of intelligence and subtlety an accomplished writer a deep and wise man and a loyal friend His narrative is centered emotionally on a youth spent in Berlin in the Nazi period As a boy of fourteen he was an eyewitness of the horrors of the Kristallnacht pogrom On New Year's Eve 1938 he escaped from Germany across the green frontier He came to America in his teens only to return to Berlin at the end of World War II as a scientific consultant for the U S Military On his return to the States Stent participated in the exciting early scientific breakthroughs of molecular biology that transformed the twentieth century life sciences His Nazis Women and Molecular Biology is a piercing self examination and as its review in Science Newsletter says an act of self exposure abnegation contrition and expiation It will be of keen interest to those who have inhabited Stent's worlds or shared his experiences as well as those who wish to learn more about them

Gunther S Stent is professor emeritus of neurobiology at the University of California Berkeley He is the author of such classic texts as Molecular Biology of Bacterial Viruses and Molecular Genetics as well as philosophical books such as The Coming of the Golden Age Paradoxes of Progress and most recently 2002 Paradoxes of Free Will

The Hitler Myths Sjoerd J. de Boer, 2022-05-05 Adolf Hitler remains one of the most discussed figures in world history Every year an untold number of articles and books are published and television programs and internet pages are produced by respected historians through to amateur conspiracy theorists One of the consequences of this continuous flow of stories is that over time increasing numbers of falsehoods and fabrications have emerged about Hitler Many of these have subsequently gained credence by virtue of their constant repetition however bizarre they may be These include such claims that Hitler was impotent contradicted by another myth that he had an illegitimate son that he had Jewish ancestors or that he had killed his niece Another claim one of the most persistent is that he did not commit suicide but escaped Berlin to live in Argentina for years after the war despite his well recorded failing

health What is the truth about his corpse his sexual experiences his years of poverty his complete dominance of his subordinates How much of what we think we know is the result of intentional or misunderstood modern interpretations Many rumours also circulated during Hitler s life and with the passage of time have been presented as facts despite having no substantial foundation Was Hitler really a hero of the First World War and if so why was he not promoted beyond the rank of corporal Was he the true author of Mein Kampf and did he write a second book that was never published and was Hitler initially a socialist In *The Hitler Myths* the author clinically dissects many of these myths often in a highly amusing fashion as he exposes the inaccuracies and impossibilities of the stories The myths the familiar and the obscure are discussed chronologically following the course of Hitler s life In his analysis of each of the myths the author draws on an array of sources to prove or disprove the rumours and speculations once and for all

**Nothing the Same, Everything Haunted** Gary Barwin, 2022-03-08. A middle-aged Jewish man who fantasizes about being a cowboy goes on an eccentric quest across Europe after the 1941 Nazi invasion of Lithuania in this wild and witty yet heartrending novel from the bestselling author of *Yiddish for Pirates*, shortlisted for the Scotiabank Giller Prize. Motl is middle-aged, poor, nerdy, Jewish, and in desperate need of a shave. Since having his balls shot cleanly off as a youth in WWI, he's lived a quiet life at home in Vilnius with his shrewd and shrewish mom Gitl, losing himself in the masculine fantasy world of cowboy novels by writers like Karl May, novels equally loved by Hitler whose troops have just invaded Lithuania and are out to exterminate people like Motl. In his dreams, Motl is a fast-talking rugged expert gunslinger capable of dealing with the Nazi threat. But only in his dreams. As friends and neighbours are killed around them, Motl and Gitl escape from Vilnius, saving their own skins. But they immediately risk everything to try rescue relatives they hope are still alive. With death all around him, Motl decides that a Jew's best revenge is not only to live but to procreate. In order to achieve this, though, he must relocate those most crucial pieces of his anatomy lost to him in a glacier in the Swiss Alps in the previous war. It's an absurd yet life-affirming mission made even more urgent when he's separated from his mother and isn't sure whether she's alive or dead. Joining forces and eventually hearts with Esther, a Jewish woman whose family has been killed, Motl ventures across Europe, a kaleidoscope of narrow escapes and close encounters with everyone from Himmler to circus performers, double agents, quislings, fake Indians, and real ones. Motl, at last, figures out that he has more connection to the Indigenous characters in western novels than the cowboys. An imaginative and deeply felt exploration of genocide, persecution, colonialism, and masculinity, saturated in Gary Barwin's sharp wit and perfect pun play. *Nothing the Same, Everything Haunted: The Ballad of Motl the Cowboy* is a one-of-a-kind novel of sheer genius.

*The Good War* Todd Strasser, 2021-01-26. A middle school must-read that exposes the antisemitism in our country today. From the author of *The Wave* comes a poignant and timely novel about a group of seventh graders who are brought together and then torn apart by an afterschool club that plays a video game based on WW2. There's a new afterschool club at Ironville Middle School. Ms. Peterson is starting a video game club where the students will be playing *The Good War*, a new game based on World War II. They are divided into two teams, Axis and Allies, and they will be simulating a war they know nothing about yet. Only one team will win. But what starts out as friendly competition takes an unexpected turn for the worst when one player takes the game too far. Can an afterschool club change the way the students see each other and how they see the world? By using a gaming lens to explore the students' entrance to prejudice and radicalization, he succeeds in lending immediacy and accessibility.
