Social Inequities and Contemporary Struggles for Collective Health in Latin America Emily E Vasquez, Amaya G. Perez-Brumer, Richard Parker, 2020-09-10

This book explores the legacy of the Latin American Social Medicine and Collective Health LASM CH movements and other key approaches including human rights activism and popular opposition to neoliberal governance that have each distinguished the struggle for collective health in Latin America during the twentieth and now into the twenty first century At a time when global health has been pushed to adopt increasingly conservative agendas in the wake of global financial crisis and amidst the rise of radical right populist politics attention to the legacies of Latin America's epistemological innovations and social movement action are especially warranted This collection addresses three crosscutting themes First how LASM CH perspectives have taken root as an element of international cooperation and solidarity in the health arena in the region and beyond into the twenty first century Second how LASM CH perspectives have been incorporated and restyled into major contemporary health system reforms in the region Third how elements of the LASM CH legacy mark contemporary health social movements in the region alongside additional key influences on collective action for health at present Working at the nexus of activism policy and health equity this multidisciplinary collection offers new perspective on struggles for justice in twenty first century Latin America The chapters in this book were originally published as a special issue of the journal *Global Public Health*

Public Health Aspects of HIV/AIDS in Low and Middle Income Countries David Celentano, Chris Beyrer, 2008-09-11 It has now been 25 years since the apocryphal report in the CDC Morbidity and Mortality Weekly Report dated June 5 1981 entitled *Pneumocystis Pneumonia Los Angeles* which announced what was to become HIV AIDS HIV has now affected virtually all countries that have looked for it and has had a devastating impact on the public health and medical care infrastructure around the world HIV AIDS has also disproportionately affected nations with the least capacity to confront it especially the developing world nations in Sub Saharan Africa South and Southeast Asia and the emerging republics of Eastern and Central Asia The pandemic unlike any other disease of our time has had profound impacts on the practice of public health itself bringing affected communities into decision making demanding North South partnerships and collaborations and changing the basic conduct of clinical and

prevention trials research While much has been written in scholarly publications for medical epidemiologic and disease control specialists there is no comprehensive review of the public health impact and response to HIV AIDS in the developing world This edited volume seeks to systematically describe the emergence and form of the epidemics epidemiology the social community and political response and the various measures to confront and control the epidemic with varying levels of success Of particular importance are strategies that appear to have been useful in ameliorating the epidemic while contrasting the situation in a neighboring country or region where contrasting prevention or care initiatives have had a deleterious outcome Common to all responses has been the international multi sectoral response represented by the Global Fund for HIV AIDS Malaria and Tuberculosis the President s Emergency Plan for AIDS Relief and the Gates Foundation among others to promote HIV pharmacologic therapy in resource poor settings The chapter authors will explore the political challenges in meeting HIV AIDS prevention and care in concert with the public health realities in specific country and regional context

Breaking Barriers Professor Robin Lin Miller, Deputy Director of the Alameda County Health Department George Ayala, 2024-12-03 What contributions can LGBT activists make to eliminating the inequities that drive the HIV epidemic in countries that are hostile to sexual and gender minority rights In *Breaking Barriers Sexual and Gender Minority led Advocacy to End AIDS in Africa and the Caribbean* Robin Lin Miller and George Ayala tell the story of a transnational partnership among community activists from eight countries to address the entrenched stigma and discrimination that blocks sexual and gender minority people from accessing affirming HIV care Through their extended case study of Project ACT they demonstrate how activists contributed to social progress within their country environments despite great obstacles Documenting the project from its inception through to its untimely demise due to the Covid pandemic Miller and Ayala highlight the many ups and downs endured by activists and their allies as they tried to promote access to health care in politically and culturally hostile national contexts and with limited financial resources They raise questions about the role of donors and partners from the Global North in supporting progress on the ground in Global South countries They also consider effective strategies for evaluating human rights focused HIV advocacy in these fraught environments Ultimately Miller and Ayala provide readers guidance on principles of practice for human rights advocacy and for planning carrying out and evaluating projects that aspire to create structural change to improve access to affirming HIV care for sexual and gender minority people

A Journal of American Ethnology and Archaeology Jesse Walter Fewkes, 1892 [Our Caribbean Kin](#) Alai Reyes-Santos, 2015-06-15 Beset by the forces of European colonialism US imperialism and neoliberalism the people of the Antilles have had good reasons to band together politically and economically yet not all Dominicans Haitians and Puerto Ricans have heeded the calls for collective action So what has determined whether Antillean solidarity movements fail or succeed In this comprehensive new study Alai Reyes Santos argues that the crucial factor has been the extent to which Dominicans Haitians and Puerto Ricans imagine each other as kin *Our Caribbean Kin* considers three key moments in the

region's history the nineteenth century when the antillanismo movement sought to throw off the yoke of colonial occupation the 1930s at the height of the region's struggles with US imperialism and the past thirty years as neoliberal economic and social policies have encroached upon the islands At each moment the book demonstrates specific tropes of brotherhood marriage and lineage have been mobilized to construct political kinship among Antilleans while racist and xenophobic discourses have made it difficult for them to imagine themselves as part of one big family Recognizing the wide array of contexts in which Antilleans learn to affirm or deny kinship Reyes Santos draws from a vast archive of media including everything from canonical novels to political tracts historical newspapers to online forums sociological texts to local jokes Along the way she uncovers the conflicts secrets and internal hierarchies that characterize kin relations among Antilleans but she also discovers how they have used notions of kinship to create cohesion across differences

Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Global HIV Epidemics among Sex Workers Deanna Kerrigan,Andrea Wirtz,Stefan Baral,N'Della N'Jie,Anderson Stanciole,Jenny Butler,Robert Oelrichs,Chris Beyer,2012-12-01 A global economic analysis of HIV infection amongst sex workers finding that evidence based and rights affirming interventions are not implemented to the level that their efficacy warrants and that doing so at scale would be cost effective and deliver significant returns on investment

The Filipino ,1906 *Caribbean Pleasure Industry* Mark Padilla,2008-11-15 In recent years the economy of the Caribbean has become almost completely dependent on international tourism And today one of the chief ways that foreign visitors there seek pleasure is through prostitution While much has been written on the female sex workers who service these tourists *Caribbean Pleasure Industry* shifts the focus onto the men Drawing on his groundbreaking ethnographic research in the Dominican Republic Mark Padilla discovers a complex world where the global political and economic impact of tourism has led to shifting sexual identities growing economic pressures and new challenges for HIV prevention In fluid prose Padilla analyzes men who have sex with male tourists yet identify themselves as normal heterosexual men and struggle to maintain this status within their relationships with wives and girlfriends Padilla s exceptional ability to describe the experiences of these men will interest anthropologists but his examination of bisexuality and tourism as much neglected factors in the HIV AIDS epidemic makes this book essential to anyone concerned with health and sexuality in the Caribbean or beyond
