CORRUPT SCIENCE PSJ (Peet) Schutte, 2013-07-17 Modern science or what I call Newtonian science is altogether wrong Nothing can stand still in the Universe and remain a part of the Universe The Universe is the movement thereof Everything in the Universe has to move should it wish to be and everything in the Universe moves and in circles but everything moves There is no mass but only movement and movement is gravity and gravity is time forming space But how does this system work and how does this system form an entire Universe as big as the one we have Read this and see how the Universe is truly stitched together by nature and not by Newton's fantasy It works exactly as Kepler said it does in the tables Kepler left us to study Space by three forms a circle by two that moves straight by one and that forms the six sided Universe we enjoy as a reality **From Science Fiction to Science Facts** C. B. Don, 2005-07 FROM SCIENCE FICTION TO SCIENCE FACTS is the non fiction companion study guide to the fantastic science fiction novel Accused By Facet Eyes It is a unique teaching learning approach which pairs literary entertainment with fascinating life science facts Academic enrichment for nature loving readers middle high school and college students Intended for mainstream supplementary and home schooling education Readers will learn why honeybees are endangered worldwide their pivotal role in pollination and will better

appreciate the essential mutual interdependence with humankind Eye opening life science facts point out important interactions of biology chemistry and physics with contemporary issues in ecology and human induced environmental hazards from a global social perspective From Science Fiction To Science Facts is a great time saver for busy educators Over 400 easily accessed references support the science facts an overview of the science topics shows their relevance to the National Science Education Standards categories the analytical format and discussion questions encourage critical thought and debates C B Don s original captivating photographs bring foraging honeybees on garden flowers to life *Popular Science Monthly and World's Advance* ,1920
